The United States And The Genocide Convention:

The United States and the Genocide Convention Lawrence J. LeBlanc, 1991 In this definitive study Lawrence J LeBlanc examines the nearly forty year struggle over ratification of the Genocide Convention by the United States LeBlanc's analysis of the history of the convention and the issues and problems surrounding its ratification sheds important light on the process of treaty ratification in the United States and on the role of American public opinion and political culture in international human rights legislation Drawing on case studies of genocide committed since World War II the author also confronts the strengths and weaknesses of international adjudication as a whole Adopted by the United Nations General Assembly in 1948 in response to the atrocities committed by the Nazis before and during World War II the Genocide Convention was finally made law by the United States Senate in 1988 contingent upon a series of conditions known as the Lugar Helms Hatch Sovereignty Package which LeBlanc suggests markedly weakened the convention Through careful analysis of the bitter debates over ratification LeBlanc demonstrates that much of the opposition to the convention sprang from fears that it would be used domestically as a tool by groups such as blacks and Native Americans who might hold the U S accountable for genocide in matters of race relations The Genocide Convention United States. Congress. Senate. Committee on Foreign Relations, 1950 **Genocide Convention** United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on International Convention on the Prevention and Punishment of the Crime of Genocide, 1950

The United States and the International Criminal Court Sarah B. Sewall, Carl Kaysen, 2000 American reluctance to join the International Criminal Court illuminates important trends in international security and a central dilemma facing U S Foreign policy in the 21st century The ICC will prosecute individuals who commit egregious international human rights violations such as genocide The Court is a logical culmination of the global trends toward expanding human rights and creating international institutions The U S which fostered these trends because they served American national interests initially championed the creation of an ICC The Court fundamentally represents the triumph of American values in the international arena Yet the United States now opposes the ICC for fear of constraints upon America's ability to use force to protect its national interests The principal national security and constitutional objections to the Court which the volume explores in detail inflate the potential risks inherent in joining the ICC More fundamentally they reflect a belief in American exceptionalism that is unsustainable in today's world Court opponents also underestimate the growing salience of international norms and institutions in addressing emerging threats to U S national interests The misguided assessments that buttress opposition to the ICC threaten to undermine American leadership and security in the 21st century more gravely than could any international institution The Genocide Convention United States. Congress. Senate. Committee on Foreign Relations, 1982 Hearings, Reports and Prints of the Senate Committee on Foreign Relations United States. Congress. Senate.
