Theseus and the Minotaur (A Toon Graphic) Yvan Pommaux, 2014-08-26 Relive Theseus's fantastic adventure as he comes face to face with the terrible Minotaur. Son of both a god and a man, Theseus was destined for greatness. How did he become both the king of Athens and the creator of democracy? A must for fans of Percy Jackson and mythology-inspired video games, it will captivate young readers and nourish their imaginations.

From Comic Strips to Graphic Novels Daniel Stein, Jan-Noël Thon, 2015-04-24 This essay collection examines the theory and history of graphic narrative as one of the most interesting and versatile forms of storytelling in contemporary media culture. Its contributions test the applicability of narratological concepts to graphic narrative, examine aspects of graphic narrative beyond the single work, consider the development of particular narrative strategies within individual genres, and trace the forms and functions of graphic narrative across cultures. Analyzing a wide range of texts, genres, and narrative strategies from both theoretical and historical perspectives, the international group of scholars gathered here offers a state-of-the-art research on graphic narrative in the context of an increasingly postclassical and transmedial narratology. This is the revised second edition of *From Comic Strips to Graphic Novels*, which was originally published in the Narratologia series.

Greek Myths, 2011 Retells eight Greek myths in a comic strip format, including Pandora's Box, The Twelve Tasks of Heracles, and Theseus and the Minotaur.

[Picture Books for the Literacy Hour](#) Guy Merchant, Huw Thomas, 2013-12-19 First Published in 2000, over the last 30 years, growth in the popularity and provision of books for children has been remarkable. The quality and inventiveness of children's authors and illustrators have led some to think of the picture book as a new art form. This book is a celebration of some of this work, and it concentrates on the potential that picture books have for the teaching and learning of literacy. The aim of this book is to encourage colleagues to take a closer look at some of their favourite picture books and to see how they can be used as a starting point for enjoyable and challenging literacy work in primary classrooms. Believing that teachers do not need to rely on schemes to structure their English curriculum, and with this in mind, this book includes 24 popular titles that have been identified in terms of their potential for delivering exciting text, sentence, and word-level work. Written to be used as a resource, and anticipating that many readers will be most interested in the commentaries on the picture books contained in Chapters 3-7 and the accompanying photocopiable activity sheets.

Choosing and Using Fiction and Non-Fiction 3-11 Margaret Mallett, 2010-07-02 Winner of the United Kingdom Literacy Association's Author Award 2011 for its contribution to extending children's literacy. Praise for the book: This book is about making readers. A compact summary of its contents would not do it justice. It is the account of a life's work, and it deserves thanks and readers. Margaret Meek. Books for Keeps online Number 185 November 2010. This book is a cornucopia of varied pleasures, offering something for all tastes, presented with an awareness of the complexities of the field and communicated with commitment, enthusiasm, and deep knowledge. Eve Bearne. English 4-11, the primary school journal of The English Association, Number 42 Summer 2011. *Choosing and Using*

Childhood and the Classics Sheila Murnaghan,Deborah H. Roberts,2018-03-16 The dissemination of classical material to children has long been a major form of popularization with far reaching effects although until very recently it has received almost no attention within the growing field of classical reception studies This volume explores the ways in which children encountered the world of ancient Greece and Rome in Britain and the United States over a century long period beginning in the 1850s as well as adults literary responses to their own childhood encounters with antiquity Rather than discussing the role of classics in education it focuses

on books read for enjoyment and on two genres of children's literature in particular the myth collection and the historical novel The tradition of myths retold as children's stories is traced in the work of writers and illustrators from Nathaniel Hawthorne and Charles Kingsley to Roger Lancelyn Green and Ingri and Edgar Parin d'Aulaire while the discussion of historical fiction focuses particularly on the roles of nationality and gender in the construction of an ancient world for modern children The book concludes with an investigation of the connections between childhood and antiquity made by writers for adults including James Joyce Virginia Woolf and H D Recognition of the fundamental role in children's literature of adults' ideas about what children want or need is balanced throughout by attention to the ways in which child readers have made such works their own The formative experiences of antiquity discussed throughout help to explain why despite growing uncertainty about the appeal of antiquity to modern children the classical past remains perennially interesting and inspiring

Pevsner: The Complete Broadcast Talks Stephen Games, 2016-04-22 This book brings together the surviving texts of the 113 talks on art and architecture that we know of given by the art historian Sir Nikolaus Pevsner on radio and television between 1945-1977 It includes the seven texts of the 1955 Reith Lectures in their original broadcast form as well as lectures that Pevsner gave in German for the BBC in London and RIAS in Berlin and on the radio in New Zealand These talks are important as an example of the attempt by the BBC in particular to provide intellectual programming for the mass population The talks are important for what they reveal about changing tastes in the treatment of the arts as a broadcast topic as well as offering a case study of the development of one particular historian's approach to a subject that was gaining ground in universities as a direct result of his popularisation of it They show what topics were thought to be central to the artistic agenda in the mid years of the last century whether from an academic or journalistic perspective and reveal the mode and manner of academic engagement with the public over the period Forty six of these talks were published in 2002 on the centenary of Pevsner's birth in a trade edition At the time his reputation as an active force in architectural thinking had long been eclipsed and interest in him had waned Since then there has been a turn around in tastes and Pevsner's role within his chosen field is now being actively studied and discussed by a new generation for whom he is central to an understanding of the 20th century There is therefore a real need for this book In addition to containing twice the number of talks as the previous volume it is supplemented with explanatory introductions footnotes and citations It also reveals as far as this is possible alternative versions of Pevsner's texts as they appeared at different stages in the original production process As such this edition can be relied on by academics as scholarly and Book Review Digest, 1993 Excerpts from and citations to
