Any Kind of Danger Dr. Rowan Blogg, 2012-08-01 Know the animals respect the planet love thy neighbor Rowan Blogg is an Australian veterinarian of the highest distinction and I greatly admire his professionalism which I observed for years at close range In Any Kind of Danger he has extended his work into the environment and moral philosophy by tackling the complex issue of how we exploit animals In the 19th Century William Wilberforce and other pioneers argued that our treatment of animals is a measure of our humanity Peter Singers Animal Liberation 1975 stimulated international interest in the subject Dr Bloggs book should do the same Rowan Blogg examines the role of wildlife on the planet millions of years before our species became dominant but how much habitat do we reserve for their natural life How many species are under threat The worlds population will stabilise at about nine billion in 2050 and this raises the fundamental issues of how much land water and energy we will devote to raising animals for food Is grazing an efficient or humane way of feeding our species Industrial farming out of sight and out of mind involves inescapable cruelty Chickens are raised on an A4 size of smaller scratching area confined in multi layered cages Do animals have a right of access to sunlight and paddock for at least the great part of their lives How does a cow giving birth cope with a crowded cattle truck Do we turn our eyes away from the inevitable suffering involved in animal transport especially life sheep exports There are profound moral lessons to be learned from observing how we treat animals and yet the issue will not be on the agenda for the next Federal or State elections We are in Dr Bloggs debt for this thoughtful passionate book Barry Jones AO FAA FAHA FTSE FASSA Australian Minister for Science 1983 90

Why Positive Thinkers Have the Power Ken Bossone, 2008 For ten

years Ken Bossone president of the World Positive Thinkers club has been researching and writing about what the main ingredient is that all winners possess Ken wanted to find out and write about what drove winners on in the face of defeat and adversity Was it what they did or thought Was it goals Having goals is nothing new Man has achieved goals since the beginning of time Was it hard work Everyone knows you must work hard to achieve goals After all the only thing that sits its way to success is a hen Was it intelligence Many brilliant people wind up on skid row as Ken has interviewed them there Was it wealth Many wealthy people are unhappy and wind up committing suicide And so the search went on Then one night Ken watched a middleweight championship boxing match between Sugar Ray Leonard and his opponent and after hearing the words Leonard s opponent uttered Ken realized the words were the key to the secret It hit Ken like a lightning bolt That was his breakthrough and he researched furiously to prove he was on the right path As Robert Frost the great poet said Do not follow where the path may lead Go instead where there is no path and leave a trail To Kens utter delight and amazement he realized unequivocally after personally experiencing financial tragedy a death threat loss of drivers license and car and other personal setbacks and with much research that the main ingredient coupled with goals is a three word motto that all winners have imbedded in their very souls to achieve winning and happiness As President of the World Positive thinkers club with over 500 sports and business winners Ken wants to share this amazing revelation with the world

Management Advice from the World's Great Thinkers James Miller, Jim Miller, 2002-01-07 IS ANYONE SO WISE THAT HE CAN LEARN FROM THE EXPERIENCE OF OTHERS VOLTAIRE Few are trained to manage we study other things marketing engineering finance manufacturing information systems and so forth In the course of doing these things some are identified for their brilliance for their hard work or by chance and they become managers By then they assimilated ideas most of which are wrong about business principles and management s role That personal experience is insufficient for as Henry Kissenger said of Presidents they enter office with a store of ideas and principles that are exhausted in execution The same can be said of managers and because of these limitations organization structures evolved so that people of mediocre talent can run them Unfortunately mediocre talent produces at best mediocre results In times of trouble especially organizations need an illuminating strategy clear thinking unfettered inquiry and the scouring of complacency Advice from the World s Great Thinkers is designed to help managers deal with the myriad and plethora of unanticipated events that crowd their schedule

The Publishers Weekly, 1911 **The Philosophers' Secret Fire** Patrick Harpur, 2007 Is there any place for the ancient myths of our ancestors in modern times Could their shadowy presence in our common imagination be more influential than we realise Across the globe many societies still believe in an Otherworld of spirits gods and daimons which the West has banished to the unconscious mind and now only visits in dreams Yet this visionary tradition continues to subvert the rational universe erupting out of the shadows in times of intense religious and philosophical transition In his dazzling history of the imagination Patrick Harpur links together fields as far apart as Greek philosophy and depth psychology Renaissance magic

and tribal ritual Romantic poetry and the ecstasy of the shaman to trace how myths have been used to make sense of the world He uncovers that tradition which alchemists imagined as a Golden Chain of initiates who passed their mysterious secret fire down through the ages As this inspiring book shows the secret of this perennial wisdom is of an imaginative insight a simple way of seeing that re enchants our existence and restores us to our own true selves **Philosophers of War**
