Drama Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres the subject has received surprisingly little attention in academic studies of contemporary drama Love in Contemporary British Drama reflects the appeal of love as a topic and driving force in dramatic works with in depth analyses of eight pivotal plays from the past three decades Following an interdisciplinary and historical approach the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays Special emphasis is put on narratives of love s compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present

Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned **The God Who Trusts** Wm. The Amorous Imagination D. Andrew Yost,2021-08-01 In *The Amorous Imagination* D Andrew Yost builds upon Jean Luc Marion s phenomenology of love to argue that through the interpretive activities of the imagination the Beloved appears to the lover as this Other not the Other Weaving together insights from Romantic thought and contemporary French philosophy Yost describes the distinctive role the imagination plays in individuating another person so that they appear radically unique special and unsubstitutable This radical uniqueness or *haecceitas* emerges out of the lovers engagement in an endless hermeneutic an ongoing process of creative and responsive meaning making that grounds the lovers lives in each other and opens them up to new possibilities All of this Yost argues is made possible by the amorous imagination Drawing from the deep well of love poetry mythology philosophy and literature *The Amorous Imagination* comes to the provocative conclusion that without the productive power of the imagination love itself could not emerge

Love in the Dark Diane Enns,2016-09-06 Intimate love opens us up to suffering sacrifice and loss Is it always worth the risk Consulting philosophers writers and poets who draw insights from material life Diane Enns shines a light on the limits of erotic love exploring its paradoxes through personal and philosophical reflections Situating experience at the center of her inquiry Enns conducts philosophy by another name elaborating the ambiguities and risks of love with visceral clarity *Love in the Dark* claims that intimacy must accept risk as long as love does not destroy the self Erotic love inspires an inexplicable affirmation of another but can erode autonomy and vulnerability There is a limit to love and appreciating it requires a rethinking of love s liberal paradigms which Enns traces back to the hostility toward the body and eros in Christianity and the Western philosophical tradition Against a legacy of an abstract and sanitized love Enns recasts erotic attachment as an event linked to conditional circumstances The value of love lies in its intensity and depth and its end does not negate love s truth or significance Writing in a lyrical genre defying style Enns delineates the paradoxes of love in its relations to lust abuse suffering and grief to reach an account faithful to human experience

The Literary Afterlives of Simone Weil Cynthia R. Wallace,2024-04-23 Finalist

2025 Scholarly Writing Award Saskatchewan Book Awards The French philosopher mystic activist Simone Weil 1909 1943 has drawn both passionate admiration and scornful dismissal since her early death and the posthumous publication of her writings She has also provoked an extraordinary range of literary writing focused on not only her ideas but also her person novels nonfiction and especially poetry Given the challenges of Weil's ethic of self emptying attention what accounts for her appeal especially among women writers This book tells the story of some of Weil's most dedicated and at points surprising literary conversation partners exploring why writers with varied political and religious commitments have found her thought and life so resonant Cynthia R Wallace considers authors who have devoted decades of attention to Weil such as Adrienne Rich Annie Dillard and Mary Gordon and who have written poetic sequences or book length verse biographies of Weil including Maggie Helwig Stephanie Strickland Kate Daniels Sarah Klassen Anne Carson and Lorri Neilsen Glenn She illuminates how writing to of and in the tradition of Weil has helped these writers grapple with the linked harms and possibilities of religious belief self giving attention and the kind of moral seriousness required by the ethical and political crises of late modernity The first book to trace Weil's influence on Anglophone literature *The Literary Afterlives of Simone Weil* provides new ways to understand Weil's legacy and why her provocative wisdom continues to challenge and inspire writers and readers

Eros and Thanatos. Love across Civilizations Alberto Castelli, 2024-02-06 *Eros and Thanatos* is about the deadly nature of love It is remarkable that literary critics have paid so little attention to the combination between love and death in literature This book seeks to address this significant scholarly lacuna by exploring key literary texts of the last two hundred years as exemplary of a consistent tendency toward love and death Its emphasis on singular characters and close readings suggests the spectrum of an arbitrary dichotomy never fully resolved The existential discussion triggered by each plot is so intense that the erotic and the merely sexual seem inappropriate Indeed each writer chose to reduce it to the setting and background of a story that takes place elsewhere With this in mind the author intends to reflect love's paradoxical nature If love is triggered by beauty beauty can be immoral and love must die to preserve the illusion of beauty

Women Phenomenologists on Social Ontology Sebastian Luft, Ruth Hagengruber, 2018-10-24 This edited volume examines women's voices in phenomenology many of which had a formative impact on the movement but have been kept relatively silent for many years It features papers that truly extend the canonical scope of phenomenological research Readers will discover the rich philosophical output of such scholars as Edith Stein Hedwig Conrad Martius and Gerda Walther They will also come to see how the phenomenological movement allowed its female proponents to achieve a position in the academic world few women could enjoy at the time The book explores the intersection of social ontology phenomenology and women scholars in phenomenology The papers offer a fresh look at such topics as the nature of communities shared values feelings and other mental content In addition coverage examines the contributions of Jewish women to the science who were present at the beginning of the phenomenological movement This remarkable anthology also features a paper on Gerda Walther written by

Linda Lopez McAlister former editor of the feminist journal Hypatia who had met Walther in 1976 This book features work from the conference Women Phenomenologists on Social Ontology held at the University of Paderborn Overall it collects profiles and analysis that unveil a hidden history of phenomenology Dilemmas of Truth in Alain Badiou's Philosophy Giosuè Ghisalberti,2023-01-25 This book on Alain Badiou s philosophy begins with a central theme the attempt to trace how Badiou has replaced the tradition of critical theory and negation with an affirmative support of his four generic procedures art science love and art as inseparable from his revitalization of both the subject and the concept of truth By defining four procedures as conditions of philosophy Badiou makes the attempt to establish each as inter related and systematically necessary to make a new proposal for thought The fidelity to Badiou s project for the 21st century however requires a fundamental examination are his four truths complicated by an inescapable dilemma And if so can the four truths be retained as a whole or does the individual reader have to make a decision that will alter Badiou s project and conclusions By presenting the dilemmas of his thought the scholarly reader will be in a position to then pursue the necessary study to come to their own conclusions and by doing so become sufficiently free to resist the many coercions of social and political life in liberal democracies today Ethical Restoration after Communal Violence Marguerite La Caze,2018-09-15 Contemporary political ethics has to face the question of how to repair relations which have broken down after crimes oppression and political violence The book employs the work of European and feminist philosophers including Jacques Derrida Albert Camus Simone Beauvoir Hannah Arendt Karl Jaspers Jean Paul Sartre Giorgio Agamben Immanuel Kant Jean Am ry Vladimir Jank l vitch Margaret Urban Walker and Linda Radzik to engage with historical and recent cases the post liberation French purge post genocide Rwanda and post colonial Australia and draws out the negative and positive conditions of ethical political responses in these contexts It develops a philosophical account of ethical restoration through focusing on just punishment guilt and shame rebuilding political trust forgiveness and reconciliation remorse and atonement and self forgiveness

Contradictions of Capitalist Society and Culture Raju J Das,2023-05-15 Love and truth are important aspects of culture Signifying the crisis of capitalist culture in the contemporary world are their opposites i e hate and lying respectively There is rampant lying for ideological political purposes There is also an increasing absence of genuine love i e love as caring and solidarity which under certain conditions takes romantic forms Ideological political lying is connected to the corruption of love with its confinement to the private sphere of individuals and consequent isolation from the wider unequal society This connection is via capitalism On the one hand capitalism resorts to ideological political lying to cover up its contradictions that cause alienation suffering of the masses Lying and alienation suffering are not conducive to genuine love in society On the other hand a crisis ridden capitalism produces the right wing politics of lying post truth politics This is also a politics of hatred or post love or anti love against minorities democrats and socialists a politics that is justified by lies about these subjects The fight against hate politics and post truth politics must be part of the fight for a post capitalist world socialist

Simone Weil, Beyond Ideology? Sophie Bourgault, Julie

Daigle, 2020-12-16 In the last decade interest in the writings of French philosopher Simone Weil 1909 1943 has surged Weil is admired for her militant syndicalism her factory experience and participation in the French resistance but it is above all the eclectic and rich character of her work that has increasingly attracted scholarly attention Weil reflected on subjects as diverse as quantum physics Greek tragedy bankruptcy colonialism technology education and religious metaphysics but perhaps most interesting is the way that her work seems to defy any clear ideological labelling Marxist anarchist liberal conservative and republican all seem to fall short in describing the complexity of Weil's thinking Adding to the interpretive difficulty is the fact that Weil often expressed biting criticisms of most things political What this edited volume argues is that it is precisely Weil's unclassifiable nature combined with her sharp and sometimes ambivalent criticisms of politics that make her work a most timely and fascinating object of study for contemporary political philosophy It proposes a two pronged approach to her thought first via a series of conversations set up between Weil and key authors in modern and contemporary political theory e.g. Sandel Rawls Ahmed Agamben Orwell and secondly via a close study of Weil's reflections on various ideologies The goal of this book is not to position Simone Weil squarely within a single ideological tradition but rather to propose that her thought might allow us to critically engage with various ideologies in the history of political ideas The

Moral Psychology of Hate Noell Birondo, 2022-02-16 A 2022 Choice Reviews Outstanding Academic Title The Moral Psychology of Hate provides the first systematic introduction to the moral psychology of hate compiling specially commissioned essays by an international team of scholars with a wide range of disciplinary orientations In light of the recent revival of interest in emotions in academic philosophy and the current social and political interest in hate this volume provides arguments for and against the value of hate through a combination of empirical and philosophical methods The authors examine hate not merely as a destructive feeling but as an emotion of great moral significance that illuminates how we understand each other and ourselves The book will be of major interest to anyone concerned with the dynamics and the moral and political implications of this most powerful of human emotions Narratives of Mass Atrocity Sarah

Federman, Ronald Niezen, 2022-09-08 Individuals can assume and be assigned multiple roles throughout a conflict perpetrators can be victims and vice versa heroes can be reassessed as complicit and compromised However accepting this more accurate representation of the narrativized identities of violence presents a conundrum for accountability and justice mechanisms premised on clear roles This book considers these complex sometimes overlapping roles as people respond to mass violence in various contexts from international tribunals to NGO based social movements Bringing the literature on perpetration in conversation with the more recent field of victim studies it suggests a new more effective and reflexive approach to engagement in post conflict contexts Long term positive peace requires understanding the narrative dynamics within and between groups demonstrating that the blurring of victim perpetrator boundaries and acknowledging their

overlapping roles is a crucial part of peacebuilding processes This title is also available as Open Access on Cambridge Core
