Thirteen Months To Go The Creation Of The Empire State Building:

Thirteen Months to Go Geraldine B. Wagner, 2003 The Empire State Building a construction feat that to this day invokes awe and wonder began as a contest between two industrial moguls who craved the status of constructing the tallest building in the world The building was the center of a race to the skies competition between Walter Chrysler of the Chrysler Corporation and John Jakob Raskob creator of General Motors and coincided with the onset of one of the worst economic downturns in American history the Great Depression Thirteen Months to Go encompasses the optimism and potential of 1920s New York It is a wonderful tribute to the perseverance of New Yorkers and an amazing story of fortitude and ambition

The Empire State Building Ronald A. Reis, 2009 It was to be a structure like no other the largest and tallest skyscraper in the world Initial plans for the Empire State Building called for an Art Deco masterwork to rise 1 000 feet with 80 stories of rental space The high rise was to completely fill the 84 000 square foot site of the former Waldorf Astoria then New York's most opulent hotel Hopes were high that the Empire State Building would accelerate Midtown Manhattan's stride toward commercial prominence pulling more business uptown Built in the early years of the Great Depression during which one out of four New Yorkers was out of work the Empire State Building's construction was thought by many to be a foolish undertaking Yet it was completed under budget and ahead of schedule and the commercial colossus has stood through good times and bad as a symbol of daring beauty and American invention

My River Chronicles Jessica DuLong, 2009-09-08 After journalist Jessica DuLong was laid off from her dot com job her life took an unexpected turn A volunteer day aboard an antique fireboat the John J Harvey led to a job in the engine room where she found a taste of home she hadn't realized she was missing Working with the boat's finely crafted machinery on the waters of the storied Hudson made her wonder what America is losing in our shift away from hands on work Her questions crystallized after she and her crew served at Ground Zero where fireboats provided the only water available to fight blazes Vivid and immediate *My River Chronicles* is a journey with an extraordinary guide a mechanic's daughter and Stanford graduate who bridges blue collar and white collar worlds turning a phrase as deftly as she does a wrench As she searches for the meaning of work in America DuLong shares her own experiences of learning to navigate a traditionally male world masterfully interweaving unforgettable present day characters and events with four centuries of Hudson River history A celebration of craftsmanship *My River Chronicles* is a deeply personal story of a unique woman's discovery of her own roots and America's that raises important questions about our nation's future

Encyclopedia of American Urban History David Goldfield, 2007 Publisher description **Men at Work** Glenn Kurtz, 2025-11-11 The author of *Three Minutes in Poland* and *Practicing* uncovers the identities of the Empire State Building construction workers made famous by Lewis W Hine's legendary portraits This little known chapter of American labor history captures forgotten stories and features more than 75 photos and other illustrations some by Hine that have never been seen before of working class immigrant and indigenous lives who built the architectural icon Who built the

Empire State Building Astonishingly no list of workmen on this historic landmark was ever compiled While the names of the owners architects and contractors are well known and Lewis Hine left us indelible images of the workers their identities the last generation of workmen still practicing these time honored trades have not been identified until author Glenn Kurtz unearthed their individual stories for this book Drawing on eclectic sources census immigration and union records contemporary journalism the personal recollections of their descendants Kurtz assembles biographies of these workers providing not only a portrait of the building s labor force and a revolutionary re interpretation of Hine s world famous photographs but also a fundamental reimagining of what made the Empire State Building a fitting symbol for the nation built as it was at the very height of the Great Depression For ninety years photographer Lewis W Hine s iconic portraits and photographs have served as potent symbols of America in the early 1930s Yet as famous as Hine s images are they have never been seen in their proper historical context By identifying the individuals that built the early skyscraper Men at Work transforms Hine s evocative portraits from abstract symbols of an era into documentary evidence of specific working class immigrant and indigenous American lives Skyscraper Lynn Curlee,2025-07 With art that is as magnificent as the towering buildings it depicts this book details the history of skyscrapers From the Pyramid at Gaza to the Eiffel Tower to the World Trade Center Curlee delves into one of man s endless fascinations building as high into the sky as possible Full color

Nearest Thing to Heaven Mark Kingwell,2007-11-20 A new perspective on a beloved cultural icon its place in our history and its meaning in the American imagination This elegantly written appreciation of the Empire State Building opens up the building s richness and importance as an icon of America The book leads us through the facts surrounding the skyscraper s conception and construction then enters into a provocative theoretical discussion of its function as an icon its representation in pictures literature and film and the implications of its iconic status as New York s most important architectural monument to ambition and optimism The Empire State Building literally cannot be seen in its totality from any perspective And paradoxically this building of unmistakable solidity has been made invisible by familiarity and reproduction through imagery Mark Kingwell encourages us to look beneath the strong physical presence of the building to become aware of its evolving layers of meaning and to see how the building lives within a unique imaginative space in the landscape of the American consciousness He offers new ways of understanding the Empire State Building in all its complexity and surprising insights into its special role as an American icon **Louis Graveraet Kaufman** Ann Berman,2025-06-03 Author Ann

Philosophy and Engineering: Reflections on Practice, Principles and Process Diane P Michelfelder, Natasha McCarthy, David E. Goldberg, 2014-01-13 Building on the breakthrough text Philosophy and Engineering An Emerging Agenda this book offers 30 chapters covering conceptual and substantive developments in the philosophy of engineering along with a series of critical reflections by engineering practitioners The volume demonstrates how reflective engineering can contribute to a better understanding of engineering identity and explores how integrating engineering and philosophy could lead to innovation in engineering methods design and education The volume is divided into reflections on practice principles and process each of which challenges prevalent assumptions and commitments within engineering and philosophy The volume explores the ontological and epistemological dimensions of engineering and exposes the falsity of the commonly held belief that the field is simply the application of science knowledge to problem solving Above all the perspectives collected here demonstrate the value of a constructive dialogue between engineering and philosophy and show how collaboration between the disciplines casts light on longstanding problems from both sides The chapters in this volume are from a diverse and international body of authors including philosophers and engineers and represent a highly select group of papers originally presented in three different conferences These are the 2008 Workshop on Philosophy and Engineering WPE 2008 held at the Royal Academy of Engineering the 2009 meeting of the Society for Philosophy and Technology SPT 2009 at the University of Twente in the Netherlands and the Forum on Philosophy Engineering and Technology fPET 2010 held in Golden Colorado at the Colorado School of Mines
