Stacey M. Floyd-Thomas, 2007 Religious Studies Over the last thirty years African American voices and perspectives have become essential to the study of the various theological disciplines Writing out of their particular position in the North American context African American thinkers have contributed significantly to biblical studies theology church history ethics sociology of religion homiletics pastoral care and a number of other fields Frequently the work of these African American scholars is brought together in the seminary curriculum under the rubric of the black church studies class Drawing on these several disciplines the black church studies class seeks to give an account of the broad meaning of Christian faith in the African American experience Up to now however there has not been a single comprehensive textbook designed to meet the needs of students and instructors in these classes *Black Church Studies An Introduction* will meet that need Drawing on the work of specialists in several fields it introduces all of the core theological disciplines from an African American standpoint from African American biblical interpretation to womanist theology and and ethics to sociological understandings of the life of African American churches It will become an indispensable resource for all those preparing to serve in African American congregations or to understand African American contributions to the study of Christian faith Looks at the diverse definitions and functions of the Black Church as well as the ways in which race class religion and gender inform its evolution Provides a comprehensive view of the contributions of African American Scholarship to the current theological discussion Written by scholars with broad expertise in a number of subject areas and disciplines Will enable the reader to relate the work of African American theological scholars to the tasks of preaching teaching and leading in local congregations Will provide the reader the most comprehensive understanding of African American theological scholarship available in one volume Stacey Floyd Thomas Brite Divinity School Juan Floyd Thomas Texas Christian University Carol B Duncan Wilfrid Laurier University

Stephen G Ray Jr Lutheran Theological Seminary Philadelphia Nancy Lynne Westfield Drew University Theology Theology and Doctrine Contemporary Theology **Race** J. Kameron Carter,2008-08-28 J Kameron Carter argues that black theology s intellectual impoverishment in the Church and the academy is the result of its theologically shaky presuppositions which are based largely on liberal Protestant convictions and he critiques the work of such noted scholars as Albert Raboteau Charles Long and James Cone **South Side Girls** Marcia Chatelain,2015-04-19 In South Side Girls Marcia Chatelain recasts Chicago s Great Migration through the lens of black girls Focusing on the years between 1910 and 1940 when Chicago s black population quintupled Chatelain describes how Chicago s black social scientists urban reformers journalists and activists formulated a vulnerable image of urban black girlhood that needed protecting She argues that the construction and meaning of black girlhood shifted in response to major economic social and cultural changes and crises and that it reflected parents and community leaders anxieties about urbanization and its meaning for racial progress Girls shouldered much of the burden of black aspiration as adults often scrutinized their choices and behavior and their well being symbolized the community s moral health Yet these adults were not alone in thinking about the Great Migration as girls expressed their views as well Referencing girls letters and interviews Chatelain uses their powerful stories of hope anticipation and disappointment to highlight their feelings and thoughts and in so doing she helps restore the experiences of an understudied population to the Great Migration s complex narrative **Empire of Sacrifice** Jon Pahl,2010-01-05 It is widely recognized that American culture is both exceptionally religious and exceptionally violent Americans participate in religious communities in high numbers yet American citizens also own guns at rates far beyond those of citizens in other industrialized nations Since 9 11 United States scholars have understandably discussed religious violence in terms of terrorist acts a focus that follows United States policy Yet according to Jon Pahl to identify religious violence only with terrorism fails to address the long history of American violence rooted in religion throughout the country s history In essence Americans have found ways to consider blessed some very brutal attitudes and behaviors both domestically and globally In Empire of Sacrifice Pahl explains how both of these distinctive features of American culture work together by exploring how constructions along the lines of age race and gender have operated to centralize cultural power across American civil or cultural religions in ways that don t always appear to be religious at all Pahl traces the development of these forms of systemic violence throughout American history using evidence from popular culture including movies such as Rebel without a Cause and Reefer Madness and works of literature such as The Narrative of the Life of Frederick Douglass and The Handmaid s Tale to illuminate historical events Throughout Pahl focuses an intense light on the complex and durable interactions between religion and violence in American history from Puritan Boston to George W Bush s Baghdad **Killing the Messenger** Thomas Peele,2012-02-07 When a nineteen year old member of a Black Muslim cult assassinated Oakland newspaper editor Chauncey Bailey in 2007 the most shocking killing of a journalist in the United States in thirty years the question was Why I

just wanted to be a good soldier a strong soldier the killer told police A strong soldier for whom Killing the Messenger is a searing work of narrative nonfiction that explores one of the most blatant attacks on the First Amendment and free speech in American history and the small Black Muslim cult that carried it out Award winning investigative reporter Thomas Peele examines the Black Muslim movement from its founding in the early twentieth century by a con man who claimed to be God to the height of power of the movement s leading figure Elijah Muhammad to how the great grandson of Texas slaves reinvented himself as a Muslim leader in Oakland and built the violent cult that the young gunman eventually joined Peele delves into how charlatans exploited poor African Americans with tales from a religion they falsely claimed was Islam and the years of bloodshed that followed from a human sacrifice in Detroit to police shootings of unarmed Muslims to the horrible backlash of racism known as the zebra murders and finally to the brazen killing of Chauncey Bailey to stop him from publishing a newspaper story Peele establishes direct lines between the violent Black Muslim organization run by Yusuf Bey in Oakland and the evangelicalism of the early prophets and messengers of the Nation of Islam Exposing the roots of the faith Peele examines its forerunner the Moorish Science Temple of America which in the 1920s and 30s preached to migrants from the South living in Chicago and Detroit ghettos that blacks were the world s master race tricked into slavery by white devils In spite of the fantastical claims and hatred at its core the Nation of Islam was able to build a following by appealing to the lack of identity common in slave descendants In Oakland Yusuf Bey built a cult through a business called Your Black Muslim Bakery beating and raping dozens of women he claimed were his wives and fathering more than forty children Yet Bey remained a prominent fixture in the community and police looked the other way as his violent soldiers ruled the streets An enthralling narrative that combines a rich historical account with gritty urban reporting Killing the Messenger is a mesmerizing story of how swindlers and con men abused the tragedy of racism and created a radical religion of bloodshed and fear that culminated in a journalist s murder THOMAS PEELE is a digital investigative reporter for the Bay Area News Group and the Chauncey Bailey Project He is also a lecturer at the University of California Berkeley Graduate School of Journalism His many honors include the Investigative Reporters and Editors Tom Renner Award for his reporting on organized crime and the McGill Medal for Journalistic Courage He lives in Northern California

Teaching African American Religions Carolyn M. Jones Medine,2005 The variety and complexity of its traditions make African American religion a difficult topic to teach at undergraduate level The essays in this volume offer

practical innovative ways to teach this subject in a variety of settings *Spirit(s) in Black Religion* Kurt Buhring, 2022-09-10 In this book Kurt Buhring explores concepts of spirit s within various Black religions as a means to make a constructive theological contribution to contemporary Black theology in regard to ideas of the Holy Spirit or pneumatology He argues that there are rich resources within African and African based religions to develop a more robust notion of the Holy Spirit for contemporary Black liberation theology In so doing Buhring offers a pneumatology that understands divine power and presence within humanity and through human action The theology offered maintains the fundamental claim that God acts as liberator of the oppressed while also calling for greater human responsibility and capability for bringing about liberation

Baptists in America Thomas S. Kidd, Barry Hankins, 2015-05-01 The Puritans called Baptists the troublers of churches in all places and hounded them out of Massachusetts Bay Colony Four hundred years later Baptists are the second largest religious group in America and their influence matches their numbers They have built strong institutions from megachurches to publishing houses to charities to mission organizations and have firmly established themselves in the mainstream of American culture Yet the historical legacy of outsider status lingers and the inherently fractured nature of their faith makes Baptists ever wary of threats from within as well as without In *Baptists in America* Thomas S Kidd and Barry Hankins explore the long running tensions between church state and culture that Baptists have shaped and navigated Despite the moment of unity that their early persecution provided their history has been marked by internal battles and schisms that were microcosms of national events from the conflict over slavery that divided North from South to the conservative revolution of the 1970s and 80s Baptists have made an indelible impact on American religious and cultural history from their early insistence that America should have no established church to their place in the modern day culture wars where they frequently advocate greater religious involvement in politics Yet the more mainstream they have become the more they have been pressured to conform to the mainstream a paradox that defines and is essential to understanding the Baptist experience in America Kidd and Hankins both practicing Baptists weave the threads of Baptist history alongside those of American history Baptists in America is a remarkable story of how one religious denomination was transformed from persecuted minority into a leading actor on the national stage with profound implications for American society and culture
