countries including nationally specific models the political economy and the histories of Canada and the United States as settler societies Strangers No More delves into issues of pivotal importance for the present and future of Western societies where immigrants and their children form ever larger shares of the population **Citizenship, Political Engagement, and Belonging** Deborah Reed-Danahay, Caroline B. Almost All Aliens Paul Spickard, Francisco Beltrán, Laura Hooton, 2022-09-15 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States Setting aside the European migrant centered melting pot model of immigrant assimilation Paul Spickard Francisco Beltrán and Laura Hooton put forward a fresh and provocative reconceptualization that embraces the multicultural racialized and colonially inflected reality of immigration that has always existed in the United States Their astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining the lives of those who crossed the Atlantic as well as those who crossed the Pacific the Caribbean and the North American Borderlands Almost All Aliens provides a distinct inclusive and critical analysis of immigration race and identity in the United States from 1600 until the present The second edition updates Almost All Aliens through the first two decades of the twenty first century recounting and analyzing the massive changes in immigration policy the reception of immigrants and immigrant experiences that whipsawed back and forth throughout the era It includes a new final chapter that brings the story up to the present day This book will appeal to students and researchers alike studying the history of immigration race and colonialism in the United States as well as those interested in American identity especially in the context of the early twenty first century **Lone Star Muslims** Ahmed Afzal, 2015 Lone Star Muslims offers an engaging and insightful look at contemporary Muslim American life in Texas It illuminates the dynamics of the Pakistani Muslim community in Houston a city with one of the largest Muslim populations in the south and southwestern United States Drawing on interviews and participant observation at radio stations festivals and ethnic businesses the volume explores everyday Muslim lives at the intersection of race class profession gender sexuality and religious sectarian affiliation to

demonstrate the complexity of the South Asian experience. Importantly, the volume incorporates narratives of gay Muslim American men of Pakistani descent countering the presumed heteronormativity evident in most of the social science scholarship on Muslim Americans and revealing deeply felt affiliations to Islam through ritual and practice. It also includes narratives of members of the highly skilled Shia Ismaili Muslim labor force employed in corporate America, of Pakistani ethnic entrepreneurs, the working class, and the working poor employed in Pakistani ethnic businesses, of community activists, and of a radio program host. Decentering dominant framings that flatten understandings of transnational Islam and Muslim Americans such as terrorist on the one hand and model minority on the other, *Lone Star Muslims* offers a glimpse into a variety of lived experiences. It shows how specificities of class, Islamic sectarian affiliation, citizenship status, gender, and sexuality shape transnational identities and mediate racism, marginalities, and abjection.

Multiculturalism in the United States John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work. Co-editors Ratner and Buenker have revised and updated the first edition of *Multiculturalism in the United States* to reflect the changes, patterns, and shifts in immigration, showing how American culture affects immigrants and is affected by them. Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays, providing the reader with a comparative reference tool. Seven new ethnic groups are included: Arabs, Haitians, Vietnamese, Koreans, Filipinos, Asian Indians, and Dominicans. New essays on the Irish, Chinese, and Mexicans are provided, as are revised and updated essays on the remaining groups from the first edition. The contribution to American culture by people of these diverse origins reflects differences in class, occupation, and religion. The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants. Changes over time that both of the cultures brought to America and of the culture that received them is also discussed. Essays on representative ethnic groups include African Americans, American Indians, Arabs, Asian Indians, Chinese, Dominicans, Filipinos, Germans, Haitians, Irish, Italians, Jews, Koreans, Mexicans, Poles, Scandinavians, and the Vietnamese.

Metropolitan Latinidad A. K. Sandoval-Strausz, 2025-04-30 A wide-ranging collection of essays that centers Latinos in the history of American cities and suburbs. Latino urban history has been underappreciated, not only in its own right but for the centrality of its narratives to urban history as a field. A scholarly discipline that has long scrutinized economics, politics, and the built environment has too often framed race as literally Black and white. This has resulted in a fundamental misunderstanding of the full social canvas of American cities since at least the early twentieth century. Traversing metropolitan areas like Atlanta, Chicago, El Paso, Fort Worth, Los Angeles, Miami, and New York, this collection of essays brings together both established and emerging scholars, including long-time urbanists and academics working in the fields of Latino borderlands, political landscape, and religious history. Organized at different scales, including city, suburb, neighborhood, and hemisphere, this impressive body of work challenges long-standing narratives about metropolitan America.

The contributors Llana Barber Mauricio Castro Eduardo Contreras Sandra I Enr quez Monika Gosin Cecilia S nchez Hill Felipe Hinojosa Michael Innis Jim nez Max Krochmal Becky M Nicolaidas Pedro A Regalado Iliana Yamileth Rodriguez and Thomas J Sugrue engage a diverse range of subjects such as urban rebellions the suburbanization of Latinos affordable housing labor the built environment transnationalism place making and religious life The scholars also explore race within Latino communities as well as the role that political and economic dynamics have played in creating Latino urban spaces After reading this book you will never see American cities the same way again

Religion and Politics in the Contemporary United States R. Marie Griffith, Melani McAlister, 2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States

The Metropolitan Revolution Jon C. Teaford, 2006-05-16 In this absorbing history Jon C Teaford traces the dramatic evolution of American metropolitan life At the end of World War II the cities of the Northeast and the Midwest were bustling racially and economically integrated areas frequented by suburban and urban dwellers alike Yet since 1945 these cities have become peripheral to the lives of most Americans Edge cities are now the dominant centers of production and consumption in post suburban America Characterized by sprawling freeways corporate parks and homogeneous malls and shopping centers edge cities have transformed the urban landscape of the United States Teaford surveys metropolitan areas from the Rust Belt to the Sun Belt and the way in which postwar social racial and cultural shifts contributed to the decline of the central city as a hub of work shopping transportation and entertainment He analyzes the effects of urban flight in the 1950s and 1960s the subsequent growth of the suburbs and the impact of financial crises and racial tensions He then brings the discussion into the present by showing how the recent wave of immigration from Latin America and Asia has further altered metropolitan life and complicated the black white divide Engaging in original research

and interpretation Teaford tells the story of this fascinating metamorphosis
