This Light In Oneself:

This Light In Oneself - True Meditation Jiddu Krishnamurti, 2002 *This Light in Oneself* J. Krishnamurti, 1999-03-16

A leading spiritual teacher of the twentieth century presents meditation as a tool for better understanding not just ourselves but the world around us. These selections present the core of Krishnamurti's teaching on meditation taken from discussions with small groups as well as from public talks to large audiences. His main theme is the essential need to look inward to know ourselves in order really to understand our own and the world's conflicts. We are the world, says Krishnamurti, and it is our individual chaos that creates social disorder. He offers timeless insights into the source of true freedom and wisdom. **The**

Meditative Mind Jiddu Krishnamurti, 1993 *The Renewal of Ourselves and Our World* Samuel Widmer Nicolet, 2024-02-20

Twenty letters, thirteen of which appeared during Samuel Widmer's lifetime and eleven after his death, were published with a foreword summarising the basic work of self-knowledge. They also summarise Samuel's literary activities of the past years on the subject of self-knowledge in a concise work. Samuel wrote: Should not the most important and fundamental concerns of such a movement be addressed in a collection of such letters over time? Shouldn't its goals and its tools for achieving these goals be outlined in more detail and anew? And do these goals not simply consist in the renewal of ourselves and our world which we hope to achieve with the tool of self-knowledge? Have we not come to make the earth a paradise? Is this not our real goal? Are we not part of the movement that intends such a thing? Dreams such a thing? We are not really forming a movement. That would be something organised, something created and produced by thoughts by the ego. We are part of the movement that is led by love. We have awakened to this fundamental movement in the universe. The goal of this force, if it can be described as a goal at all, is renewal. The renewal of us humans and thus of our world. It is love that makes everything new again and again. *Contemplative Literature* Louis Komjathy, 2015-08-31

An anthology of primary texts on meditation and contemplative prayer from a wide range of religious traditions. This is the first theoretically informed and historically accurate comparative anthology of primary texts on meditation and contemplative prayer. Written by international experts on the respective texts and corresponding traditions, *Contemplative Literature* provides introductions to and primary sources on contemplative practice from various religious traditions. The contributors explore classical Daoist apophatic meditation, Quaker silent prayer, Jewish Kabbalah, Southern Buddhist meditation, Sufi contemplation, Eastern Orthodox prayer, Pure Land Buddhist visualization, Hindu classical Yoga, Dominican Catholic prayer, Daoist internal alchemy, and modern therapeutic meditation. Each introduction to a contemplative text discusses its historical context, the associated religious tradition and literature, the method of contemplative practice, and the text's legacy and influence. Volume editor Louis Komjathy opens the work with a thoughtful consideration of interpretive issues in the emerging interdisciplinary field of contemplative studies. Readers will gain not only a nuanced understanding of important works of contemplative literature but also resources for understanding contemplative practice and contemplative experience from a comparative and cross-cultural perspective. We

have not seen anything this bold and this global since Friedrich Heiler wrote his classic study on the typology of prayer over eighty years ago Komjathy and his essayists have vastly expanded the scope depth and sophistication of this project here In the process they have struggled with all of the critical questions around religious pluralism tradition and religious authority and have emboldened the comparative project itself Contemplation and comparison it turns out go very well together Jeffrey J Kripal author of Comparing Religions Coming to Terms Teachers and scholars undergraduate and graduate students and general readers interested in contemplative practice will cherish a book like this I m happy that Louis Komjathy has done this great work It will undoubtedly be hailed as a milestone Ruben L F Habito author of Healing Breath Zen for Christians and Buddhists in a Wounded World *Werner Beierwaltes Lux Intelligibilis: Investigation on the Metaphysics of Light of the Greeks* Gustavo Riesgo,2025-09-29 Thus far unpublished even in its original German Lux intelligibilis Investigation on the Metaphysics of Light of the Greeks submitted by Werner Beierwaltes as a doctoral dissertation in 1957 is presented here for the first time in English translation Beierwaltes investigation begins by describing the metaphoric and symbolic power attributed to light in the foundational texts of Greek antiquity The analysis also examines the theophany or divine manifestation through light apparitions particularly in the context of the Eleusinian mysteries It then traces the shift from a symbolism of light to a metaphysics of light that beginning with Pythagoras and Parmenides takes on its full form with the impactful Platonic insight of the light like nature of the intelligible This is a programmatic work that presents in embryonic form themes that would later be revisited by the author throughout his vast body of work Beierwaltes thus begins his journey through some of the central themes of the Neoplatonic tradition and its later reception a journey that will lead him to dwell on thinkers of the stature of Eriugena Meister Eckhart and Nicholas of Cusa The English translation of Lux intelligibilis Investigation on the Metaphysics of Light of the Greeks is accompanied by an introduction to the person and work of Werner Beierwaltes by Claudia D Amico as well as by a substantial Essay as PostScriptum by Enrico Peroli which allow the reader to grasp the enormous contribution of the original text The English translation has been revised by Tadeo Lima and the tracing and careful transcription of the Greek and Latin sources and references was carried out by Ezequiel Ludue a Classics of Spiritual Philosophy and the Present Vladimir Antonov,2008-09-27 This book is a unique collection of knowledge on the world religious philosophy from ancient times to present day It includes Tao Te Ching of Lao Tse Bhagavad Gita of Krishna Emerald Tablet of Hermes Trismegistus Emerald Tablets of Thoth the Atlantean Golden Verses of Pythagoras apocryphal Gospel of Philip and many more The texts are presented in a modern competent edition with clarifying commentaries The reader can become acquainted with the Teachings of Jesus Christ and Buddha with the fundamentals of Quran and Sunna with the concept of Agni Yoga with the spiritual knowledge of Native Americans with the Teachings of contemporary Divine Messiahs Sathya Sai Baba and Babaji from Haidakhan One may see that in all times God has been teaching people the same though in slightly different words depending on concrete cultural traditions and political situations He teaches us what He wants us to

THE LIGHT OF SELF: The Secret of Luminosity in Life, Death, and Beyond Laing Z. Matthews, 2025-11-09 The Light of Self Awakening the Inner Radiance of Consciousness By Laing Z Matthews There are books that tell you what to believe and books that teach you how to see The Light of Self belongs to the second kind Written as both revelation and reflection this seminal work explores light as the living essence of consciousness not as symbol or metaphor but as the original condition of existence itself Drawing from Daoist internal alchemy Hermetic cosmology Buddhist clear light meditation and modern physics Laing Z Matthews unveils the luminous continuum between cosmic radiance and human awareness The Structure of Illumination Divided into four movements The Mystery of Light The Anatomy of Luminosity Living in the Light and The Return to Source the book moves from cosmogenesis to embodiment guiding the reader through the physics and metaphysics of awakening Each chapter unfolds as a contemplative rhythm rather than argument blending philosophy neuroscience and sacred poetry into a single act of remembrance that light does not come from the sun or stars but from the awareness that perceives them Key Insights The cosmological birth of light how darkness gives rise to illumination The Daoist anatomy of body breath and spirit as mirrors of Heaven and Earth The heart as the furnace of Dao where energy refines into virtue and compassion The alchemy of emotion sexuality and mortality into radiant consciousness Meditative methods for perceiving the white born of emptiness without leaving the body The final recognition that the light within the reader is the same light that reads these words A New Science of Seeing Like The Tao of Physics The Secret of the Golden Flower and The Radiance Sutras this work dissolves the boundary between mysticism and science Matthews language is both precise and devotional each page a mirror polished to reflect stillness itself The Light of Self can be read linearly or opened at random like scripture its rhythm is its message This is not a book of doctrine but of direct perception an

experiment in awareness The Trilogy of Light The Light of Self stands as the first volume in Laing Z Matthews Trilogy of Light followed by The Light of the Worlds and The Womb of Light Together they form a modern cosmology of consciousness light not merely seen but lived **Loving the Light Within** Caroline Coulombe, 2016-12-14 Loving the Light Within is about spiritual journeying and channeling as a path to illumination and happiness The first part focuses on the authors initiation as a medium and how she evolved as a professional channel and teacher of the art of channeling The second part is a practical guide to become present really present to oneself others and the Divine It is necessary to work on all dimensions of life to master channeling and if that is not your goal then simply to be happier Detailed exercises are offered throughout the book for the readers to acquire a greater connection to their Higher Self and the spiritual world
