Rush, 2007 Going beyond the conventional three act structure and exploring more inventive approaches this text aims to challenge readers to take creative risks with genre tone character and structure *Hollywood's Cold War* Tony Shaw, 2007 Published at a time when American filmmakers are deeply involved in the War on Terror this authoritative and timely book offers the first comprehensive account of Hollywood's propaganda role during the defining ideological conflict of the 20th century the Cold War **The Cambridge Companion to American Crime Fiction** Catherine Ross Nickerson, 2010-07-08

This Companion examines the range of American crime fiction from execution sermons of the Colonial era to television programmes like *The Sopranos* **Crossing the Rubicon** Michael C. Ruppert, 2004-09-15 The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9 11 in this provocative expos The attacks of September 11 2001 were accomplished through an amazing orchestration of logistics and personnel Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum geopolitics narco traffic intelligence and militarism without which 9 11 cannot be understood In reality 9 11 and the resulting War on Terror are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale Peak Oil the beginning of the end for our industrial civilization is driving the elites of American power to implement unthinkable draconian measures of repression warfare and population control Crossing the Rubicon is more than a story of corruption and greed It is a map of the perilous terrain through which we are all now making our way **Three Days of the Condor** James Grady, 1970-07-01

The Political Thriller in Contemporary American Cinema Krešimir Bobaš, 2025-06-30 The Political Thriller in Contemporary American Cinema examines how political thriller films de construct and reflect the sociopolitical realities of the second half of the twentieth century as well as the first two decades of the twenty first century The book highlights the convergence between the cinematic narrative its underlying political discourse and the audience's perception of it Through a critical lens it analyzes how contemporary films utilize characterization narrative and suspense to examine topics of governance malfeasance and power dynamics By referring to films such as *The Manchurian Candidate* *Zero Dark Thirty* and *Snowden* this book traces the evolution of the political thriller questioning how its narratives mirror issues such as covert operations the erosion of democracy and governmental surveillance In turn the conspiratorial and underlying paranoid nature of these films serves as a reflection of societal anxieties and a metaphorization of the levers of power in America's modern day democracy Consequently this book serves as a contribution to the growing body of research on political cinema

and the way it simultaneously reflects and shapes political life through its role as a sociocultural phenomenon In doing so it invites readers to further delve into the exploration of these films which represent complex commentaries on the structures of corporations media and the military that are predominant in contemporary American society and cinema **Robert**

Redford and American Cinema Michael Allen,2021-03-25 Michael Allen s insightful study explores the long and diverse career of the actor and director Robert Redford from his early work in theatre and TV to his contemporary status as an iconic and enduring star Allen assesses Redford s importance to the American film industry during a period of great transformation as an influential industry player an award winning director and a committed political activist Allen considers Redford s individual achievements in the context of shifts and changes in the industry as a whole some of which benefited Redford s own progress and development some which he engineered himself as well as discussing Redford s star persona in relation to ageing and masculinity **The Taking of New York City** Andrew Rausch,2024-11-05 For a time in the 1970s New York City

seemed to many to be genuinely on the cusp of collapse Plagued by rampant crime graft catastrophic finances and crumbling infrastructure it served as a symbol for the plight of American cities after the convulsions of the 1960s This tale of urban blight was reinforced wherever one looked whether in the news media memorably captured in the infamous New York Daily News headline Ford to City Drop Dead or the countless movies that evoked the era s uniquely gritty sense of dread The Taking of New York City is a history of both New York and some of the decade s most definitive films including The French Connection 1971 the first two Godfather movies 1972 1974 Taxi Driver 1976 Serpico 1973 Dog Day Afternoon 1975 and many more It was also an era in which the city wrestled with the racial tensions still threatening to tear the nation apart never more so than in Blaxploitation classics such as Shaft 1971 and Super Fly 1972 These films depicted the city that never sleeps as a grim violent place overridden with muggers pimps and killers Projected at drive ins and inside their local movie houses rural America saw New York as a nightmare a vile dystopia where the innocent couldn t rely on the local law enforcement who were seemingly all on the take If one took Hollywood s word for it the only way a person was able to find justice in 1970s New York City was by grabbing a gun and meting it out themselves Author Andrew Rausch meticulously separates fact and fiction in this illuminating book Attentive to the ways that New York s problems were exaggerated or misrepresented it also gives an unvarnished look at just how bad things could get in the Rotten Apple and how movies told that story to the country and the world **The 1980s British Conspiracy Thriller** Paul Lynch,2022-08-29 In this book

Paul Lynch explores the genre of the British conspiracy thriller a confrontational and dark response to what novelists and filmmakers perceived as an increasingly Orwellian secret state in the political landscape of the time Through analyses of a variety of film and television productions Lynch examines the ways in which they were influenced by their Hollywood and European counterparts and the work of John le Carr conveying the real world practices of the British intelligence services that served as inspiration and evaluating the genre s effectiveness in providing meaningful political commentary to

mainstream audiences Lynch draws on extensive interviews with novelists film producers screenwriters and directors to form the basis of detailed and original case studies about films such as *Defence of the Realm* 1986 *The Whistle Blower* 1986 and *The Fourth Protocol* 1987 In addition to these case studies Lynch also includes declassified intelligence material and interviews with former members of the intelligence community to reveal the extent to which popular television and cinema accurately reflected the inner workings of the security services at that time Scholars of film studies cultural history political science and adaptation studies will find this book of particular interest

The CIA in Hollywood Tricia Jenkins, 2016-03-08 Jenkins's book raises serious ethical and legal questions about the relationship between the CIA and Hollywood and the extent to which we consume propaganda from one through the other Should the CIA be authorized to target American public opinion If our artists don't confront the question more directly and soon the Agency will only continue to infiltrate our vulnerable film and television screens and our minds Tom Hayden *Los Angeles Review of Books* The book makes a strong case that the CIA should not be in Hollywood at all but that if it is it cannot pick and choose which movies it wishes to support Well written and researched this study examines a subject that has not received enough scholarly or critical attention Highly recommended Choice A fascinating highly readable and original new work Incorporating effective illustrative case studies *The CIA in Hollywood* is definitely recommended to students of film media relations the CIA and U S interagency relations H Net Reviews

Crime and Spy Jazz on Screen Since 1971 Derrick Bang,2020-04-01 Henry Mancini s Peter Gunn theme Lalo Schiffrin s Mission Impossible theme Isaac Hayes theme from Shaft These iconic melodies have remained a part of the pop culture landscape since their debuts back when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents private detectives cops spies and heist minded criminals Hundreds of additional films and television shows made from the mid 1950s and beyond have been propelled by similarly swinging title themes and underscores many of which have undeservedly faded into obscurity This meticulously

researched book begins with Hayes game changing music for Shaft and honors the careers of traditional jazz composers who as the 1970s gave way to the 80s and beyond resolutely battled against the pernicious influx of synth jukebox scores and a growing corporate disinterest in lavish ensembles Fans frustrated by the lack of attention paid to jazz soundtrack composers including Mort Stevens Laurie Johnson Mike Post Earle Hagen David Shire Elmer Bernstein and many many others will find solace in these pages along with all the information needed to enhance one s music library But this is only half the story the saga s origins are discussed in this book s companion volume Crime and Action Jazz on Screen 1950 1970 *The Suspense Thriller* Charles Derry, 2010-06-21 This book is a comprehensive study of one of the most popular genres in the cinema From a perspective sympathetic to popular culture this study analyzes a large number of primarily American and European films by a variety of distinguished directors including Alfred Hitchcock Claude Chabrol John Frankenheimer Michelangelo Antonioni and Costa Gavras Indispensable to anyone interested in understanding how suspense thrillers work and what they mean this book provides insightful analysis of hundreds of memorable films while at the same time working as a virtual how to manual for anyone trying to write a Hitchcock like thriller The first section of the book is primarily theoretical It offers a bibliographical survey and then explains why we so profoundly enjoy these suspenseful films of murder and intrigue A chapter on Thrills or How Objects and Empty Spaces Compete to Threaten Us explores the psychological concept of the thrill and relates it to the psyche of the spectator To what extent does the suspense thriller represent a symbolic and vicarious experience of danger A chapter on Suspense That Makes the Spectator Take a Breath explores the crucial narrative concept of suspense and relates it to the psychological mechanisms of anxiety incited in the spectator Why do we like to be scared A final theoretical chapter offers a dynamic definition of the suspense thriller derived in part from Edgar Allan Poe and based primarily on content analysis The second section of the book is more of an historical survey and devotes one chapter to each of the suspense thriller s primary sub genres These chapters provide close readings of more than 150 major films and detailed analysis of the suspense thriller s conventions themes and recurrent iconography Sub genres include The Postman Always Rings Twice Body Heat The Manchurian Candidate The China Syndrome Missing The Passenger Spellbound Obsession Marathon Man and Blue Velvet A final chapter explores areas for further research and offers concluding insights
