professionals and students A Dictionary for the Modern Pianist is also accessible to more general readers as all of its topics are presented in clear readable expositions Drawing on the most recent research of numerous specialists author Stephen Siek emphasizes the piano s uniquely rich heritage giving pianists a renewed appreciation for the famous artists and teachers who have shaped their art Transcending simple alphabetical definitions the dictionary s careful attention both to legacy and detail make it an invaluable addition to any pianist s library Titles in the Dictionaries for the Modern Musician series offer novice and advanced musicians key information on the field of study and performance of a major instrument or instrument class Unlike other encyclopedic works contributions to this series focus primarily on the knowledge required by the contemporary musical student or performer From quick definitions of confusing terms to in depth overviews of history and tradition the dictionaries are ideal references for students professionals and music lovers of all kinds

The Pipe Organ
 James Mitchell, 2023 The organ is one of the oldest instruments in Western music and its sound has inspired many of the greatest composers from the past half a millennium from Bach through to Messiaen The full possibilities of the instrument however have often been overlooked Orchestration textbooks tend to mention the organ only in passing with little practical advice for the composer to latch onto Many organ books will explain technical jargon and how the organ is designed but do not discuss what should actually be written in the score This book on the other hand offers a practical guide for composers on how to write idiomatically for the instrument with the aim of helping them exploit the instrument s full timbral and technical potential It provides in depth advice not only on notation but also the full resources of the modern organ including dedicated chapters on registration writing for manuals and pedals and using the organ in ensembles among others Multiple musical examples are quoted from across the history of organ repertoire with a particular focus on contemporary composers and music There is advice tailored to non classical musicians such as guidance on virtual instruments The online companion website to this book provides video demonstrations chapter summaries sample organ stop lists and other useful further resources In summary the goal of this book is to show not just what organ music was or what it is but what it can be

The Musical Times ,1909 *The Etude* ,1900
