**Visualizing Theory** Lucien Taylor,2014-02-04 Visualizing Theory is a lavishly illustrated collection of provocative essays occasional pieces and dialogues that first appeared in Visual Anthropology Review between 1990 and 1994 It contains contributions from anthropologists from cultural literary and film critics and from image makers themselves Reclaiming visual anthropology as a space for the critical representation of visual culture from the naive realist and exoticist inclinations that have beleaguered practitioners efforts to date Visualizing Theory is a major intervention into this growing field

**The Politics of Death** Michael J. Blain,2001 This dissertation reports the results of a sociological analysis of the narrative form and functions of revolutionary discourse Chapter I poses two questions How do representations of death function in political processes How do signifiers of violent death function in the structure of revolutionary statements Chapter II reviews relevant sociological concepts and articulates a dramatistic political sociology of death concepts mainly derived from Emile Durkheim Robert Hertz and Arnold van Gennep on death and the sacred Max Weber on violence and politics and Burke Duncan and Edelman s view of politics as symbolic action Chapter III presents the results of a formal narrative and semiotic analysis of a large sample of revolutionary statements Saussure Levi Strauss Foucault Two symbolic complexes were clearly evident First revolutionaries employ a tragic narrative form employing the blood of innocent victims and heroic martyrs to construct the villainy of their enemies to provoke moral outrage and to legitimate acts of righteous retaliation against established authority Second metaphors of fire storm explosion and eruption are used to infuse revolutionary acts with powerful impersonal forces Chapter IV validates these results through an exploratory study of

political meanings employing Osgood's semantic differential technique Chapter V concludes that in revolutionary discourse at least revolutionary action is a form of tragic drama an violent appeal to a public audience made on behalf of powerless people a statement that one is willing to kill and die in the name of the ultimate principles of social order The results of the semantic differential analysis show that these meanings can be studied empirically employing this technique They also illustrate the validity and usefulness of the analytic framework suggesting future avenues of research Applied Language Learning ,2010

**Doppelgangers, Alter Egos and Mirror Images in Western Art, 1840-2010** Mary D. Edwards,2020-05-29 The notion of a person or even an object having a double has been explored in the visual arts for ages and in myriad ways portraying the body and its soul a woman gazing at her reflection in a pool or a man overwhelmed by his own shadow In this edited collection focusing on nineteenth and twentieth century western art scholars analyze doppelgangers alter egos mirror images double portraits and other pairings human and otherwise appearing in a large variety of artistic media Artists whose works are discussed at length include Richard Dadd Salvador Dali Egon Schiele Frida Kahlo the creators of Superman and Nicola Costantino among many others *A Director's Analysis and Production Script for Les Mouches (The Flies)* by Jean-Paul Sartre Gerald S. Horn,1961 *The Johns Hopkins Guide to Literary Theory and Criticism* Michael Groden,Martin Kreiswirth,Imre Szeman,2005 Publisher Description *Asian Theatre* James R. Brandon,Elizabeth Wichmann,1980 **Drama as Role-playing** Lowell Lyndon Manfull,1961 **Literature and Society** Roger J. Bresnahan,1977 **Theater Three** ,1990 **Corpus III** Jean-Luc Nancy,2023-01-17 A beautiful profound series of reflections on the body by one of the most prominent and consequential philosophers of continental Europe This landmark volume brings into English Jean Luc Nancy's last completed work and concludes his remarkable philosophical reflections on the body a project he began almost thirty years ago Taking the body as an intersection of pulsing life and destructive cruelty on a global scale Nancy's account becomes more vivid more physical than ever even as it ventures into language that is as lyrical as it is profound This vividness is manifest in blood as it flows in all its pulsing and forceful circulation and as it spills in the cruelty of existences confronted daily by countless destructions This can be described as sanguis and cruor the two Latin words for blood's intermingled but distinct aspects This distinction allows Nancy to highlight an almost mystical sense of the body yet one that remains soberly on this side of its manifest insistence alongside the cruelty that pervades our world a world whose very existence is threatened by its reduction to mere objects The exceptional writings brought together in *Corpus III* comprise a masterful work of philosophy that marries rigorous erudition on Freud Nietzsche and others with rich poetic language and an actual poem Nancy's thought opens the body onto its own unaccountable origins its plural singularities its enmeshed instantiations and its excessive irreducibles which are also the elusive excesses of language Whereas in earlier texts Nancy has referred to this excess as poetry here he performs it in the form of a poem in the extraordinary hymn entitled *Stoma* While the publication of a poem by Nancy is a notable event equally noteworthy is a

remarkable essay entitled *Scandalous Death* in which Nancy meditated on a subject that was to come to him too soon after  
 Above all the book is crucial for bringing into English Cruor the very last book Nancy completed before his death an  
 evocative meditation offered by a great thinker on the complex conditions of his own and our singular survival     **Semiotica**  
 ,1983     **Australasian Drama Studies** ,2001     Hispanic Journal ,1983     **The Vestibule of Hell** Hugh Graham,2001  
 The terms left and right have become ingrained in our minds in politics economics and social theory But as Hugh Graham  
 argues in this absorbing book these concepts have always distorted and limited the way we think about politics and ourselves  
 and this is true today more than ever Socialism versus capitalism collectivism versus individualism governmental programs  
 versus the free market all these oppositions add up to an obsolete world view Graham explores the past present and future of  
 left and right beginning with the French Revolution and taking readers through the Industrial Revolution communism and  
 fascism past the Cold War and into our current puzzling state of affairs And Graham offers powerful hope for a more mature  
 better rounded sense of community and individuality     **The Theater and the Dream: from Metaphor to Form in**  
**Renaissance Drama** Jackson I. Cope,1973     **A Semiotic Study of Three Plays by Plínio Marcos** Elzbieta Szoka,1995  
 This book introduces to English readers the work of Plinio Marcos one of the most controversial contemporary Brazilian  
 dramatists His work is examined in the context of Brazilian popular culture politics and artistic trends of the last forty years  
 Three different methods of analysis of the dramatic and performance texts in these plays are proposed and special emphasis  
 is given to the semiotic approach     **Paperbound Books in Print** ,1992
