The Trial Process J. Alexander Tanford,1993 *The Trial Process* J. Alexander Tanford,2002 *The Trial Process* J. Alexander Tanford,2002 **The Trial Process** J. Alexander Tanford,1986 **Case Preparation and Presentation: A Guide for Arbitration Advocates and Arbitrators** Jay E. Grenig,Rocco M. Scanza,2013-06-01 A Publication of the American Arbitration Association and the Scheinman Institute on Conflict Resolution Cornell University Arbitration advocates uniformly place great emphasis on case preparation Case Preparation and Presentation A Guide for Arbitration Advocates and Arbitrators can be used to help prepare parties and their advocates in a wide range of arbitration cases including labor employment and commercial arbitrations and will provide lawyers and non lawyers alike with the focus and direction to maximize their chances of obtaining a good result in arbitration In this book readers will find coverage on the following topics Developing a case theory and case theme Commencing the arbitration process Selecting an arbitrator and scheduling the hearing Evaluating and presenting evidence Preparing for the arbitration hearing Conducting the arbitration hearing Making and responding to objections Examination and cross examination of witnesses **The Opening Statement of the Prosecution in International Criminal Trials** Sofia Stolk,2021-04-20 This book addresses the discursive importance of the prosecution s opening statement before an international criminal tribunal Opening statements are considered to be largely irrelevant to the official legal proceedings but are simultaneously deployed to frame important historical events They are widely cited in international media as well as academic texts yet have been ignored by legal scholars as objects of study in their own right This book aims to remedy this neglect by analysing the narrative that is articulated in the opening statements of different prosecutors at different tribunals in different times It takes an interdisciplinary approach and looks at the meaning of the opening narrative beyond its function in the legal process in a strict sense discussing the ways in which the trial is situated in time and space and how it portrays the main characters It shows how perpetrators and victims places and histories are juridified in a narrative that whilst purporting to legitimise the trial the tribunal and international criminal law itself is beset with tensions and contradictions Providing an original perspective on the operation of international criminal law this book will be of considerable interest to those working in this area as well as those with relevant interests in International Transnational Law more generally Critical Legal Studies Law and Literature Socio Legal Studies Law and Geography and International Relations *From Truth to Technique at Trial* Phil Gaines,2016 In this first ever discourse analysis of advocacy advice texts manuals handbooks and other how to guides written by lawyers for lawyers Philip Gaines takes an intriguing look at how advice authors have historically discussed the metavalues of truth and justice in their advocacy texts and how that discussion has changed from 1600 to the present day **The Trial Process** J. Alexander Tanford,2002 **Law on Display** Neal Feigenson,Christina Spiesel,2009-10-01 Visual and multimedia digital technologies are transforming the practice of law how lawyers construct and argue their cases present evidence to juries and

communicate with each other They are also changing how law is disseminated throughout and used by the general public What are these technologies how are they used and perceived in the courtroom and in wider culture and how do they affect legal decision making In this comprehensive survey and analysis of how new visual technologies are transforming both the practice and culture of American law Neal Feigenson and Christina Spiesel explain how when and why legal practice moved from a largely words only environment to one more dependent on and driven by images and how rapidly developing technologies have further accelerated this change They discuss older visual technologies such as videotape evidence and then current and future uses of visual and multimedia digital technologies including trial presentation software and interactive multimedia They also describe how law itself is going online in the form of virtual courts cyberjuries and more and explore the implications of law s movement to computer screens Throughout Law on Display the authors illustrate their analysis with examples from a wide range of actual trials
