

THE TROUBLE WITH PASSION

POLITICAL THEORY
BEYOND THE REIGN OF REASON

Cheryl Hall

The Trouble With Passion Political Theory Beyond The Reign Of Reason

Michael L. Frazer

The Trouble With Passion Political Theory Beyond The Reign Of Reason:

The Trouble with Passion Cheryl Ann Hall, 2005 Political theorists have long argued that passion has no place in the political realm where reason reigns supreme But is this dichotomy between reason and passion sustainable Does it underestimate the indispensable role of passion in a fully democratic society Drawing upon Plato Rousseau and contemporary feminist theorists Cheryl Hall argues that passion is an essential component of a just political community and that the need to educate passion together with reason is paramount *Trouble with Passion* provides a compelling defense of the crucial place of passion in politics

Political Theory and the Enlarged Mentality Stephen Acreman, 2017-10-20 In this book Stephen Acreman follows the development and reception of a hitherto under analyzed concept central to modern and postmodern political theory the Kantian *erweiterte Denkungsart* or enlarged mentality While the enlarged mentality plays a major role in a number of key texts underpinning contemporary democratic theory including works by Arendt Gadamer Habermas and Lyotard this is the first in depth study of the concept encompassing and bringing together its full range of expressions A number of attempts to place the enlarged mentality at the service of particular ideals the politics of empathy of consensus of agonistic contest or of moral righteousness are challenged and redirected In its exploration of the enlarged mentality the book asks what it means to assume a properly political stance and in giving as the answer facing reality together it uncovers a political theory attentive to the facts and events that concern us and uniquely well suited to the ecological politics of our time

Bringing the Passions Back In Rebecca Kingston, Leonard Ferry, 2008-05-20 The rationalist ideal has been met with cynicism in progressive circles for undermining the role of emotion and passion in the public realm By exploring the social and political implications of the emotions in the history of ideas contributors examine new paradigms for liberalism and offer new appreciations of the potential for passion in political philosophy and practice *Bringing the Passions Back In* draws upon the history of political theory to shed light on the place of emotions in politics it illustrates how sophisticated thinking about the relationship between reason and passion can inform contemporary democratic political theory

Methods in Analytical Political Theory Adrian Blau, 2017-05-02 This is the first book to explain how to use key methods in analytical political theory The methods discussed include contractualism reflective equilibrium positive political theory thought experiments and ideological analysis Many discussions of political theory methods describe and justify these methods with little or no discussion of their application emphasizing what is and why do over how to This book covers all three Each chapter explains what kinds of problems in political theory might require researchers to use a particular method the basic principles behind the method being proposed and an analysis of how to apply it including concrete principles of good practice The book thus summarizes methodological ideas grouped in one place and made accessible to students and it makes innovative contributions to research methods in analytical political theory

The Enlightenment of Sympathy Michael L. Frazer, 2010-08-18 *The Enlightenment of Sympathy* reclaims the sentimentalist theory of reflective autonomy as a

resource for enriching social science normative theory and political practice today The sentimentalist description of the reflective process is more empirically accurate than the competing rationalist description and can guide scientists investigating the processes by which the mind formulates moral and political principles Yet the theory is much more than merely descriptive and can also contribute to the philosophical project of finding principles including principles of justice that wield genuine normative authority Enlightenment sentimentalism demonstrates that emotion is necessarily central to our civic life and shows how our reflective sentiments can counterbalance the unreflective feelings that might otherwise lead our political principles astray

Empathy and Democracy Michael E. Morrell, 2015-09-10 Democracy harbors within it fundamental tensions between the ideal of giving everyone equal consideration and the reality of having to make legitimate binding collective decisions Democracies have granted political rights to more groups of people but formal rights have not always guaranteed equal consideration or democratic legitimacy It is Michael Morrell's argument in this book that empathy plays a crucial role in enabling democratic deliberation to function the way it should Drawing on empirical studies of empathy including his own Morrell offers a process model of empathy that incorporates both affect and cognition He shows how this model can help democratic theorists who emphasize the importance of deliberation answer their critics

The Environmental Politics of Sacrifice Michael Maniates, John M. Meyer, 2010 An argument that the idea of sacrifice with all its political baggage opens new paths to environmental sustainability

New Books on Women and Feminism, 2006

Researching Media, Democracy and Participation Nico Carpentier, 2006

Nach der Entzauberung Adrian Paukstat, 2025-11-20 Im liberalen Denken gilt Metaphysik oft als verwunden als irrationales Erbe vormoderner Weltbilder und Gefahr totalitärer Wahrheitsansprüche Doch gegenwärtige politische Krisen erzählen eine andere Geschichte Der Aufstieg irrationalistischer Politik religiöser Fanatismus und verschwörungsideologisches Denken zeigt dass metaphysische Sinnbezüge nicht von der Politik zu trennen sind und destruktive Züge annehmen können wenn sie nicht kritisch reflektiert werden Vor diesem Hintergrund entwirft Adrian Paukstat eine politische Metaphysik die das Politische als spannungsvolle Vermittlung von Immanenz und Transzendenz begreift und dafür eintritt die metaphysische Herausforderung politischer Geltungsgründe bewusst anzunehmen anstatt sie zu verdrängen Im Zentrum stehen materialistisch metaphysische Konzepte von Adorno Bloch und Benjamin deren Denken als kritische Aneignung jüdisch-theologischer Traditionen gelesen wird Der Autor verbindet Ideengeschichte mit systematischer Theorie und plädiert für eine politische Wiederaneignung von Hoffnung Glaube und Fantasie jenseits liberaler Nüchternheit
