Samuel Rawson Gardiner

The Thirty Years War 1618 1648:

The Thirty Years War Samuel Gardiner, 2018-04-14 It was the misfortune of Germany in the sixteenth and seventeenth centuries that with most of the conditions requisite for the formation of national unity she had no really national institutions There was an emperor who looked something like an English king and a Diet or General Assembly which looked something like an English Parliament but the resemblance was far greater in appearance than in reality The Emperor was chosen by three ecclesiastical electors the Archbishops of Mentz Treves and Cologne and four lay electors the Elector Palatine the Electors of Saxony and Brandenburg and the King of Bohemia In theory he was the successor of the Roman Emperors Julius and Constantine the ruler of the world or of so much of it at least as he could bring under his sway More particularly he was the successor of Charles the Great and Otto the Great the lay head of Western Christendom The Emperor Sigismund on his death bed had directed that his body should lie in state for some days that men might see that the lord of all the world was dead We have chosen your grace said the electors to Frederick III as head protector and governor of all Christendom Yet it would be hard to find a single fragment of reality corresponding to the magnificence of the claim *The Thirty Years War 1618-1648* Samuel Rawson Gardiner, 2024-01-28 Reprint of the original first published in 1875 *The Thirty Years' War, 1618-1648* Samuel Rawson Gardiner, 1886 *The Thirty Year's War 1618-1648* Samuel Rawson Gardiner, 1877 A comprehensive history of the great conflict that arose from religious strife between Protestants Catholics Draws on original German source material Illus Maps *The Thirty Years' War, 1618-1648* Samuel Rawson Gardiner, 2021-04-26 In *The Thirty Years War 1618 1648* Samuel Rawson Gardiner masterfully chronicles one of Europe's most devastating conflicts offering a comprehensive analysis of its root causes major battles and the cataclysmic consequences Gardiner employs a meticulous narrative style blending rich historical detail with vivid character studies which illuminates the complex political and religious underpinnings of the war His work stands as a pivotal contribution to the historiography of early modern Europe providing readers with a nuanced understanding of how this protracted struggle influenced the trajectory of nations and shaped the principles of statecraft Samuel Rawson Gardiner a renowned British historian and a prominent figure in the field of English history was inspired by his extensive research into the English Civil War and its connections to broader European conflicts His academic background and fervent interest in 17th century Europe lend depth to his analysis as he intertwines political narratives with social dynamics reflecting the tumultuous nature of a continent in upheaval This book is a must read for historians and enthusiasts of military and political history alike Gardiner's engaging prose and thorough scholarship not only inform but also fascinate making this work essential for anyone seeking to grasp the intricacies of one of history's most pivotal periods *Scotland and the Thirty Years' War* Steve Murdoch, 2001 This volume deals with the entanglement of Scotland in the Thirty Years War 1618 1648 discussing the diplomatic and military aspects of the conflict that were interwoven with the fate of the Scottish princess Elizabeth of Bohemia the famous Winter Queen *The Thirty Years' War: A*

Brief History, 1618-1648 Samuel R Gardiner, 2024-04-18 A concise history of a cataclysmic European conflict in the 17th century The Thirty Years War was fought between 1618 1648 and is widely recognised as being one of the most destructive wars ever fought More people lost their lives in this conflict as a percentage of the total population at the time than in the conflicts of the twentieth century Fought principally in central Europe and mostly over terrain now in modern day Germany the war involved more than fifteen nation states Forces were divided broadly on religious grounds between Protestants and their allies and the Catholics of the Holy Roman Empire and Spain but also with elements of the Ottoman Turkish Empire Self evidently this was a long bloody conflict the causes of which were many and complex Dynasties were born in its tumult great men were brought to the fore and some like Gustavus Adolphus of Sweden would perish before its conclusion The campaigns and battles of the Thirty Years War have inspired historians across the centuries to the present day to write about them and many highly regarded works concerning the war have been published This concise book takes a different approach it sets out to give an understanding of the events and personalities involved and is an ideal overview for both specialists and those new to the subject Print ed

The Thirty Years' War 1618-1648 Richard Bonney, 2014-06-06 More than three and a half centuries have passed since the Peace of Westphalia ended the Thirty Years War 1618 48 but this most devastating of wars in the early modern period continues to capture the imagination of readers this book reveals why It was one of the first wars where contemporaries stressed the importance of atrocities the horrors of the fighting and also the sufferings of the civilian population The Thirty Years War remains a conflict of key importance in the history of the development of warfare and the military revolution

Coping with Life during the Thirty Years' War (1618-1648) Sigrun Haude, 2021-08-30 At its core Coping with Life during the Thirty Years War 1618 1648 explores how people tried to survive the Thirty Years War on what resources they drew and how they attempted to make sense of it A rich tapestry of stories brings to light contemporaries trauma as well as women and men s unrelenting initiatives to stem the war s negative consequences Through these close ups Sigrun Haude shows that experiences during the Thirty Years War were much more diverse and often more perplexing than a straightforward story line of violence and destruction can capture Life during the Thirty Years War was not a homogenous vale of gloom and doom but a multifaceted story that was often heartbreaking yet at times also uplifting

The Thirty Years' War, 1618-1648 (Classic Reprint) Samuel Rawson Gardiner, 2017-12-14 Excerpt from The Thirty Years War 1618 1648 IF the present work should appear to be written for more advanced students than those for whom most if not all the other books of the series are designed the nature

Of the subject must be pleaded in excuse The mere fact that it relates exclusively to Continental history makes it unlikely that junior pupils would approach it in any shape and it is probably impossible to make the very complicated relations between the German states and other European nations interesting to those who are for the first time or almost the first time attempting to acquire historical knowledge Every history to be a history must have a unity of its own and here we have no unity of national life such as that which is reflected in the institutions of England and France not even the unity of a great race of sovereigns handing down the traditions of government from one generation to another The unity of the subject which I have chosen must be sought in the growth of the principle of religious toleration as it is adopted or repelled by the institutions under which Germany and France the two principal nations with

The Thirty Years War, 1618-1648 Georges Pagès, 1970

The Thirty Years' War 1618--1648 Samuel Gardiner, 2015-08-28 One of the most complete histories of this inter Christian war fought mainly in the heartland of present day Germany in which up to 40 percent of the population was killed Written not as a dry history but rather as a highly engrossing story this classic work which set the standard for all later histories starts with an explanation of the religious conflict between Catholic and Protestant in Germany and explains how this dispute then spiralled out of control into what became the most devastating European war of all time It shows how the first violent act committed by Protestants in Prague against Catholic officials was followed by a general Protestant uprising Although they initially gained a number of victories against a hastily assembled Catholic army the Protestants fell into a dispute between their Calvinist and Lutheran components This dissension allowed the Catholics to gain the upper hand and drive the Protestants out of Bohemia killing all men of weapon bearing age in the process an act which set the standard for the rest of the bloody conflict As the book relates foreign powers both Protestant and Catholic sent invading armies to support their allied religious factions and soon troops from Denmark Sweden the Netherlands Spain and France were involved The war carried on for 30 years exacting a toll which utterly devastated Germany For example W rtemberg lost three quarters of its population during the war while Brandenburg lost half The male population was even more deeply affected about half of all German men were killed Outrages of unspeakable atrocity were committed everywhere Human beings were driven naked into the streets their flesh pierced with needles or cut to the bone with saws Others were scalded with boiling water or hunted with fierce dogs The horrors of a town taken by storm were repeated every day in the open country Even apart from its excesses the war itself was terrible enough When Augsburg was

besieged by the imperialists after their victory at Nördlingen it contained an industrious population of 70 000 souls After a siege of seven months 10 000 living beings wan and haggard with famine remained to open the gates to the conquerors The losses of the civil population were almost incredible In a certain district of Thuringia which was probably better off than the greater part of Germany there were before the war cloud burst 1 717 houses standing in nineteen villages In 1649 only 627 houses were left And even of the houses which remained many were untenanted The 1 717 houses had been inhabited by 1 773 families Only 316 families could be found to occupy the 627 houses Completely reformatted reset and indexed Fifteen new illustrations

The Thirty Years War Stephen J. Lee,2013-10-11 The period 1618 1648 was one of the most complex in European history Religion interacted with rebellion and dynastic rivalry in a series of conflicts in central Europe known collectively as the Thirty Years War This book guides the reader through the period by surveying the narrative of events and establishing the essential chronological framework In addition Stephen Lee looks at such key issues as the motives of the participants their gains and losses as well as at the religious military social and economic aspects of the War Each section in the book incorporates the most recent research

The Thirty Years' War, 1618-1648, by Samuel Rawson Gardiner. Samuel Rawson Gardiner,2006-09-01

The Thirty Year's War Samuel Rawson Gardiner,2022-04-22 A striking and engrossing account of one of the most devastating religious wars to ever befall Europe the great Catholic Protestant clash which saw at least 40 percent of the population of Germany killed The work's written style makes this book not a dry history but a dramatic and attention holding story starting with an account of the origin of the conflict and how these differences spiraled out of control into what became the possible one of Europe's most devastating wars of all time The study also reveals how divisions within the Protestant forces between Calvinists and Lutherans allowed the Catholic forces to gain the upper hand and how foreign powers both Protestant and Catholic sent invading armies to support their allied religious factions By the end of the war armies from Denmark Sweden the Netherlands Spain and France had tramped across Germany Outrages of unspeakable atrocity were committed everywhere Human beings were driven naked into the streets their flesh pierced with needles or cut to the bone with saws Others were scalded with boiling water or hunted with fierce dogs The horrors of a town taken by storm were repeated every day in the open country Even apart from its excesses the war itself was terrible enough When Augsburg was besieged by the imperialists after their victory at Nördlingen it contained an industrious population of 70 000 souls After a siege of seven months 10 000 living beings wan and haggard with famine remained to open the gates to the conquerors The losses of the civil population were almost incredible In a certain district of Thuringia which was probably better off than the greater part of Germany there were before the war cloud burst 1 717 houses standing in nineteen villages In 1649 only 627 houses were left And even of the houses which remained many were untenanted The 1 717 houses had been inhabited by 1 773 families Only 316 families could be found to occupy the 627 houses This new edition has been completely reformatted reset indexed and contains fifteen new illustrations

Catholics x Protestants: The Thirty Years War (1618-1648) Norberta de Melo,2020-06-10 It was the second decade of the 17th century Europe was divided On the one hand the Catholic Church which for almost 1 300 years ruled the minds of the Europeans alone and now faced splits On the other several different churches generically called evangelical or Protestant if we want to use a more historical name Since the 16th century when Luther wrote his 95 theses where he questioned Catholic dogmas Protestants had expanded Lutherans this is the church that emerged from Luther's teachings and it is the first of all in Northern Germany Sweden Norway Denmark Calvinists church founded by Calvin in the Netherlands south eastern France half of Switzerland and much of England The Anglicans a church founded by the King of England Henry VIII primarily in his own country had been smaller but equally active churches This religious division early on caused turmoil swept and changed concepts completely reshaped European politics and the European economy created conflicts and further divided the already divided Europe In a society where religion and politics mingled where Christianity was an intrinsic part of the mindset of Europeans and where each church spoke the true and pure doctrine of Jesus Christ accepting little of the others war would be possible and unfortunately inevitable but not even the most pessimistic could imagine that the religious divisions of European Christendom could cause the greatest of all religion wars in the history of the continent and one of the largest in the world the Thirty Years War which took place from 1618 to 1648 In this war where virtually every European power has clashed we find it all betrayal political Machiavellianism contradiction cruelty patriotism rebellion for freedom ambition and religiosity All of these ingredients are an integral part of this gigantic military conflict that would forever change the course not only of Europe but of the planet
