Mediaeval Philosophy, Or, A Treatise of Moral and Metaphysical Philosophy from the Fifth to the Fourteenth Century

Frederick Denison Maurice, 1870 *Two Late Medieval Love Treatises* Leslie C. Brook, 1993 **A TREATISE OF CHRISTIAN LOVE** Hugh Binning, 2023-12-23

THIS treatise concerning Christian Love was composed by the pious and learned Mr Hugh Binning who was minister of the gospel at Govan near to Glasgow He was much celebrated and esteemed in this church for several practical treatises frequently printed for the benefit of the public but this is not inferior to any of them Though there have been many excellent discourses in late years on this divine subject yet considering that there never was a time wherein a treatise of this kind was more seasonable and necessary than the present when the love of many of too too many is waxed cold and this holy fire is almost extinguished this cannot be thought to be superfluous The author was a minister of a most pacific temper and this amiable grace and virtue did illustriously shine forth in him and in this discourse he breathes with a spirit of love in the most affecting and gaining manner so that I dare say that though it be above ninety years since he composed it it does not fall short of any performance of this kind that has since appeared in public This treatise with a great number of excellent sermons preached by this able minister of the gospel many of which have never been printed in a manuscript in folio was found in the late Rev Mr Robert Wodrow minister at Eastwood his library and all care has been taken to publish it faithfully without any alteration either by adding or diminishing any thing from it This divine subject of Christian love he lays a great stress upon he shows that there is a greater moment and weight in Christian charity than in the most part of those things for which some Christians bite and devour one another It is the fundamental law of the gospel to which all positive precepts and ordinances should stoop Unity in judgment is very necessary for the well being of Christians and Christ s last words persuade this that unity in affection is most essential and fundamental This is the badge that he left to his disciples if we cast away this upon every different apprehension of mind we disown our Master and disclaim his token and badge Mr Binning treats of this subject in a most sublime and pathetic strain he explains the nature of this grace discourses of the excellent properties and blessed effects and fruits of it in a ravishing and captivating manner There is such a variety of beauties in this treatise that they deserve to be noticed in this preface and particularly his admirable commentary on the 13th chapter of the First Epistle to the Corinthians wherein he outstrips all that went before him and in fine he enforces the exercise of this grace with the most convincing arguments and the most powerful motives And now not to detain the reader from the perusal it is earnestly wished that the end of the publication may by the blessing of God be obtained which is that Christians in our days may be as the primitive ones of one mind and of one heart and that they may love one another with a pure heart fervently [A Treatise on Lovesickness](#) Jacques Ferrand, 1990-02 Originally published in Toulouse in French in 1610 this translation of the 1623 edition of Ferrand s treatise *Of Lovesickness or Erotic Melancholy* A Scientific Discourse that teaches how to know the essence causes signs and remedies of this disease of the fantasy is a veritable summa on the topic of erotomania in the late Renaissance As both a philosopher and a practicing physician Ferrand saw his treatise as a medical book to help people indeed to cure them of the most frequent and most dangerous disease

which threatens mortals of both sexes In order to explore the nature and cure of the disease it was necessary for Ferrand to make frequent detours through chapters dealing with heredity astrology the interpretation of dreams incubi and succubi and love philters as they relate to the nature and diagnosis of erotic love Ferrand takes up questions concerning the diseases of women hysteria and satyriasis real and putative sex changes and the cures for sterility and impotence that can lead to marital breakdown In fact under the general heading of a history of lovesickness one can actually find in Ferrand five related histories medicine mental health psychiatry feminine sexuality and pharmacy all of which he documents copiously from over three hundred authors from classical sources to church fathers to naturalists In their exhaustive analysis of nearly two thousand marginal references the editors have identified and expanded Ferrand s sources many of which are either little known or relatively inaccessible today Their annotations and commentaries provide a goldmine of research materials for the specialist in medieval and Renaissance studies Combined with Ferrand s text this critical edition of a seventeenth century masterpiece presents erotic melancholy as one of the received ideas of the Renaissance and examines its place in the history of thought
