The Unlikely Buddhologist Jason Clower, 2010-07-14 Mou Zongsan 1909 1995 was such a seminal polymathic figure that scholars of Asian philosophy and religion will be absorbing his influence for at least a generation Drawing on expertise in Confucian Buddhist Daoist and modern Western thought Mou built a system of New Confucian philosophy aimed at answering one of the great questions What is the relationship between value and being However though Mou acknowledged that he derived his key concepts from Tiantai Buddhist philosophy it remains unclear exactly how and why he did so In response this book investigates Mou's buddhological writings in the context of his larger corpus and explains how and why he incorporated Buddhist ideas selectively into his system Written extremely accessible it provides a comprehensive unpacking of Mou's ideas about Buddhism Confucianism and metaphysics with the precision needed to make them available for critical appraisal

Thinking Through Confucian Modernity Sébastien Billioud, 2011-10-14 Mou Zongsan 1909 1995 was one of the major Chinese philosophers of the twentieth century whose entire intellectual enterprise consisted of rethinking the relevance in the modern age of Chinese thought in general and Confucianism in particular Although his seminal work is now a reference point everywhere in the Chinese world research on the topic in English remains scarce This book explores a pivotal dimension of Mou's philosophy that is his project of reconstructing a moral metaphysics based largely on a dialogue between reinterpreted Chinese thought and Kantism It provides the reader with direct access to Mou Zongsan's thought by introducing translated excerpts of his work and thoroughly explores a number of his most paradigmatic concepts

Differentiating the Pearl from the Fish-Eye: Ouyang Jingwu and the Revival of Scholastic Buddhism Eyal Aviv, 2020-08-17 In *Differentiating the Pearl from the Fish Eye* Eyal Aviv offers an account of Ouyang Jingwu 1871 1943 a leading intellectual who revived the Buddhist scholastic movement during the early Republican period in China Ouyang believed that authentic Indian Buddhism was an alternative to the prevalent Chinese Buddhist doctrines of his time Aviv shows how Ouyang's rhetoric of authenticity won the movement well known admirers but also influential critics This debate shaped modern intellectual history in China and has lost none of its relevancy today

Buddhist Trends in Southeast Asia Trevor Ling,1993 There is more than one sort of Buddhism even within Southeast Asia The word Buddhism in an unspecified sense has very little heuristic value and can be a source of confusion in comparative studies within the Southeast Asian region Buddhisms are in most cases country specific Where regularities in Buddhist polity and Buddhist social action are found in a given cultural region these may have to be accounted for not simply by being ascribed to one Buddhist tradition but by similarities of social organization and culture within the region Major differentiations occur at national levels that is at the level of the various countries of Southeast Asia From the earliest period of Buddhism's history it appears that a certain tension existed between Buddhist practitioners and political rulers It is with some of these major national or local variant forms of Buddhism in Southeast Asia that the present work is concerned Front book flap *The Journal of Asian Studies* ,1994 *The Memoirs of a Modern Gnostic: Life and letters* Edward Conze,1979
