Author and Title Index* , 1975 Birth Control Allison Yarrow, 2023-07-18 Supported by ample data and suffused with anger an award winning journalist convincingly recasts this country s maternal health care system as needlessly dehumanizing New York Times Book Review Modern medicine should make pregnancy and childbirth safer for all But in Birth Control award winning journalist Allison Yarrow reveals how women are controlled traumatized injured and even killed because of the traditionalist practices of medical professionals and hospitals Ever since doctors stole control of birth from midwives in the 19th century women have been steamrolled by a male

dominated medical establishment that has everyone convinced that birthing bodies are inherently flawed and that every pregnancy is a crisis that it alone can solve Common medical practices and procedures violate human rights and the law yet take place daily Misogyny and racism not scientific evidence and support shape the overwhelming majority of America's four million annual births Drawing on extensive reporting expert interviews an original survey of 1 300 mothers and her own personal experiences Yarrow documents how modern maternal health care is insidiously purposefully designed to take power from women to the detriment of their physical and mental health not just during labor but for years after She then shows a better way exploring solutions both cutting edge and ancient to finally return power and control to birthing people Full of urgent insights and heartfelt emotion *Birth Control is an explosive call to action* *Oh, Baby* Lee Gutkind, Alice Bradley, 2015-05-01 In these 23 original stories mothers and fathers from all walks of life straight gay single surrogate biological adoptive explore the challenges and rewards of parenthood Here among other adventures parents fall hopelessly in love with newborns secretly fear having made huge mistakes race to finish birthing at home before the paramedics arrive struggle with the bureaucracy of international adoption despair of ever getting a one year old to nap are nearly broken by colic encounter other judgmental parents in birthing class learn how to parent children with special needs and more Together these thoughtful searing often hilarious essays map the grand and sometimes terrifying journey that begins with each new life
