The Innovation Mentality Glenn Llopis,2017-02-14 Companies in need of a fresh strategy for success realize that without it change is merely substitution not evolution Post pandemic the global workforce is different and business is becoming less about the business defining the individual and more about the individual defining the business As individuals creating shared cultures that drive change and foster growth people feel they are making contributions and connecting to leaders and their companies As a leader you need the wisdom and courage to turn the spotlight of accountability on yourself Problem is most of us have no idea how to do this Instead leaders continue to manage by using old templates and cannot evolve to become the leaders America needs because those templates stripped them of their identities leaving them insecure about who they are and how to face change To change the conversation we need diversity of thought to stimulate new growth attract new talent and generate new marketplace opportunities That's why Glenn Llopis's prescient advice rings true more than ever Featuring six ways to disrupt the status quo and reinvent the way we work The Innovation Mentality gives entrepreneurial and corporate leaders the tools they need to work with colleagues and employees to harness the power of positive change for the long term
