Andrews,2019-04-05

Blending critical theory conjunctural cultural studies and assemblage theory Making Sport Great Again introduces and develops the concept of uber sport the sporting expression of late capitalism s conjoined corporatizing commercializing spectacularizing and celebrityizing forces On different scales and in varying spaces the uber sport assemblage is revealed both to surreptitiously reinscribe the neoliberal preoccupation with consumption and to nurture the individualized consumer subject Andrews further probes how uber sport normalizes the ideological orientations and associate affective investments of the Trump assemblage s authoritarian populism Even as it articulates the regressive politicization of sport Making Sport Great Again serves also as a call to action how might progressives rearticulate uber sport in emancipatory and actualizing political formations *How Trump Happened* Steven E. Schier,Todd E. Eberly,2020-03-09

The stunning 2016 election and presidency of Donald Trump was decades in the making Three trends since the 1960s created the conditions for his triumph First a growing popular discontent with government long evident in public opinion created a widespread distrust of established leaders and institutions Second America underwent the rise of professional government Governing professionals are an elite built on merit through occupational accomplishment They now dominate interest groups the bureaucracy courts presidency and Congress Many government professionals perceive little need to mobilize the public in the way parties did in previous eras This has furthered the sense of disconnect among the public and created a self reinforcing chain Third political parties and governing institutions are now polarized into rival teams of ideological partisan elites The intense battles between these divergent teams often result in government gridlock These conditions produce ripe opportunities for outsider candidates to mount popular movements against politics as usual How did Donald Trump leverage his outsider status into a 2016 electoral victory Four factors propelled him into the White House First Trump s long career as a public celebrity gave him an identity and brand widely known to the public and which generated massive free media coverage as a candidate Second Trump and his campaign ably used social media to further amplify his message Third decades of polarized political elites governmental professionalism and mounting popular discontent made an outsider message attractive to millions of voters in 2016 Fourth Trump was blessed with a political opponent Hillary Clinton who represented the polarized and professional governing class that Trump rightly saw as an inviting target for his outsider message and demeanor That is how Trump happened Think Big, Grow Big, In Business and In Life!
