Think Positively A Course For Developing Coping Skills In Adolescents:

Think Positively! Erica Frydenberg, 2010-03-03 Depression is experienced in epidemic proportions in many Western societies There is concern over the number of young people who are suffering sometimes to the extent of committing suicide This book will help prevent stress and depression by taking a positive approach to the promotion of health and wellbeing in young people giving them the skills to cope with the problems of everyday life Erica Frydenberg introduces the theory behind a cognitive behavioural approach to coping skills and offers a program of modules that can be used with young people to train them in coping skills The principle that underscores this program is that we can all do what we do better If we do not like how we cope in certain contexts we can learn new strategies It is possible to enhance one's coping if we have a framework within which to do so The program is universally applicable and can be taught in any group setting although instructors will be able to bring their own experience to adapt the sessions

Developing Everyday Coping Skills in the Early Years Erica Frydenberg, Kelly O'Brien, Jan Deans, 2012-02-02 This evidence based book will help parents and practitioners to develop children's coping skills through arts and language based strategies

Adolescent Coping Erica Frydenberg, 2018-06-12 How do young people cope with the multitude of difficult situations and scenarios that are associated with growing up like anxiety and depression as well as illness rejection and family breakdown How can we facilitate and encourage through a combination of health well being and positive mindset healthy development during adolescence and beyond With a substantial focus on the positive aspects of coping including an emphasis on developing resilience and the achievement of happiness Erica Frydenberg presents the latest developments in the field of coping Adolescent Coping highlights the ways in which coping can be measured and implemented in a wide range of circumstances and contexts with suggestions for the development of coping skills and coping skills training and it provides strong scholarly evidence for the concepts and constructs that it promotes as providing a pathway to resilience The work is framed as an ongoing interaction between individuals and their environments as represented by the psychosocial ecological model of Bronfenbrenner The major theories of coping are articulated that take account of the transactional model resources theories and proactive models of coping Areas of recent interest such as neuroscience and epigenetics are included alongside a new chapter Cyberworld which provides insights on new and relevant topics such as mindfulness and the impact of social media as they relate to coping in the contemporary context Adolescent Coping will be of interest to practitioners in psychology social work sociology education and youth and community work as well as to students on courses in adolescent development in these fields
