

The World's Indigenous Peoples

1 'Indigenous Peoples' has no official definition by the UN due to diverse identities and histories. Instead, organizations utilize a modern understanding of traits including self-identification, historical continuity with pre-settler societies, distinct systems and culture, and a commitment to preserve heritage and environments.

Here's a look at the latest available population distribution of the estimated 470 million Indigenous Peoples around the world.

While Indigenous Peoples comprise 8% of the world's population, their lands and territories constitute at least 25% of the global land surface including unique ecosystems and vital biodiversity.

Indigenous Population by Country/Territory

0-100,000 100,000-1M 1M-5M 5M-20M 20M-50M >50M Not data

Besides the State of Finland, Sweden and Norway, many of Europe's Indigenous Peoples did not have recent data available, including the Romany and Crimean Tatars.

China recognizes 51 ethnic minorities in addition to the Han Chinese majority, who form 95% of their population. These minorities form the largest ethnic group in the world.

Over 200 ethnic groups in India are officially recognized as "Scheduled Tribes" and referred to as Adivasi (literally translates to Indigenous Peoples).

Located mainly in northeastern Nigeria and parts of southern Niger, the Hausa constitute the largest ethnic group in West Africa, with an estimated population of 70 million.

Country/Territory with the Largest Share of Indigenous Peoples

Third World In The First Development And Indigenous Peoples

Rachel Bezner Kerr, Isaac Luginaah

Third World In The First Development And Indigenous Peoples:

Third World in the First Elspeth A. Young,1995 **Third World in the First** Elspeth Young,2013-04-03 European colonisation has marginalised the first peoples in industrialised countries such as Australia and Canada In remote regions still the homes of large Aboriginal Indian and Inuit populations this legacy remains strong Modernisation the boom and bust model of state and private development and the partial and biased assistance provided by the state have eroded many communities through their disregard for socio economic structures and the beliefs which underpin them Third World in the First explores the past present and future of these peoples their treatment by the West and the alternative strategies of development which might be available to them Population Mobility and Indigenous Peoples in Australasia and North America Martin Bell,John Taylor,2003-12-25 Focusing on the four New World countries Australia New Zealand Canada and the United States this book explores key themes and issues in indigenous mobility *Minorities, Minority Rights and Development* Roger Ridell,2002-11-30 Minorities minority rights and development an issues paper is part of a 3 4 year programme of work which MRG is beginning with partners to improve the access to development opportunities of poor and marginalized minority communities Four research papers of which this is the first will be combined with country communities case studies and studies documenting particular minority perspectives on recent development activities This detailed research will form the basis for a concerted lobbying effort involving minority communities themselves as well as MRG staff and targeting donor Non Governmental Agencies Inter Governmental Agencies and Governments **Adat and Indigeneity in Indonesia** Hauser-Schäublin, Brigitta,2013-11-11 A number of UN conventions and declarations on the Rights of Indigenous Peoples the Protection and Promotion of the Diversity of Cultural Expressions and the World Heritage Conventions can be understood as instruments of international governance to promote democracy and social justice worldwide In Indonesia as in many other countries these international agreements have encouraged the self assertion of communities that had been oppressed and deprived of their land especially during the New Order regime 1966 1998 More than 2 000 communities in Indonesia who define themselves as masyarakat adat or indigenous peoples had already joined the Indigenous Peoples Alliance of the Archipelago AMAN by 2013 In their efforts to gain recognition and selfdetermination these communities are supported by international donors and international as well as national NGOs by means of development programmes In the definition of masyarakat adat culture or adat plays an important role in the communities self definition Based on particular characteristics of their adat the asset of their culture they try to distinguish themselves from others in order to substantiate their claims for the restitution of their traditional rights and property namely land and other natural resources from the state The authors of this volume investigate how differently structured communities socially politically and religiously and associations reposition themselves vis vis others especially the state not only by drawing on adat for achieving particular goals but also dignity and a better future **Transnational Corporations and Human**

Rights J. Frynas, S. Pegg, 2003-06-09 Bringing together a diverse group of contributors this collection addresses the impact of transnational corporations on human rights Topics covered include corporate social responsibility the impact of corporations on internal conflicts and codes of conduct Case studies range from the negative effects of the Nigerian oil industry to the positive engagement by a logging company with the Nuu chah nulth people in Canada The book uniquely combines the discussion of conceptual issues with an in depth examination of specific corporations and industries **The Routledge Handbook of Language and the Global South/s** Sinfree Makoni, Anna Kaiper-Marquez, Lorato Mokwena, 2022-08-25 This Handbook centers on language s in the Global South s and the many ways in which both language and the Global South are conceptualized theorized practiced and reshaped Drawing on 31 chapters situated in diverse geographical contexts and four additional interviews with leading scholars this text showcases Issues of decolonization Promotion of Southern epistemologies and theories of the Global South s A focus on social applied linguistics An added focus on the academy A nuanced understanding of global language scholarship It is written for emerging and established scholars across the globe as it positions Southern epistemologies language scholarship and decolonial theories into scholarship surrounding multiple themes and global perspectives *Managing Diversity through Non-Territorial Autonomy* Tove H. Malloy, Alexander Osipov, Balázs Vizi, 2015-07-23 Non territorial autonomy NTA is a statecraft tool that is increasingly gaining importance in societies seeking to accommodate demands by ethno cultural groups for a voice in cultural affairs important to the protection and preservation of their identity such as language education and religion As states recognize the specific rights of identity minorities in multicultural and multi ethnic societies they are faced with a need to improve their diversity management regimes NTA offers policy makers a range of options for institutional design adaptable to specific circumstances and historical legacies It devolves degrees of power through legal frameworks and institutions in specific areas of ethno cultural life while maintaining social unity at the core level of society Throughout Europe and North America NTA exists and is implemented at a state regional and local level Much has been written about the concept of autonomy and its usage as a statecraft tool in states facing regional division but little literature addresses its non territorial institutional and public administration functions This edited volume seeks to fill this gap *Managing Diversity through Non Territorial Autonomy Assessing Advantages Deficiencies and Risks* carves a space for contextual knowledge production on NTA in law as well as social and political sciences Contextual knowledge involves a description of institutions and their functionality as well as of the institutional and legal frames protecting these What are the institutions bodies and functions that ethno cultural groups can draw on when seeking to have a voice over their own affairs as well as over issues in society related to their identity production How are these entities incorporated and empowered to have a voice What degree of voice do they have and how are they designed to project this voice Thus contextual knowledge also involves critical assessment and risk analysis as well as penetrating insights as to the unintended consequences and hidden agendas that may inform NTA policies This volume is

to provide both policy makers and ethno cultural groups with a tool kit that promotes social cohesion while respecting diversity This is the first volume in a series of five which will examine the protection and representation of minorities through non territorial means **Development and Local Knowledge** Alan Bicker,Paul Sillitoe,Johan Pottier,2004-07-31 This book

illustrates the growing need for real understanding of local knowledge strategy and its power to assist in positive change

Towards Negotiated Co-management of Natural Resources in Africa L. B. Venema,1999 Within the field of management of natural resources this book focuses on the various approaches of policy formulation and implementation The question central to this book is how to co operate with people the various categories of residents as well as non residents in the rural areas in a top down a participatory or a contractual co management way On the basis of a comparative analysis of 12 case studies in the book these three approaches are thoroughly discussed and their internal and external constraints examined The book starts with an editorial chapter discussing the recent administrative and political developments in Africa as well as the new opportunities which they offer for policies in the field of environment and development The question is brought up whether the recent processes of decentralization democratization and empowerment of local organizations have indeed created new opportunities or that they have only superficially changed the political culture of the countries concerned In the concluding chapter of the book the approaches are contrasted to each other as logical models each with its own potentiality and limitations Conclusions are formulated why the top down approach must result in improvisation to escape from failure and why the participatory approach risks to end up into a mixed balance Special attention is given to the conditions and the prospects for the contractual or co management approach which has been introduced into Africa only recently Under certain conditions this approach seems rather promising **Native Games** Chris Hallinan,Barry Judd,2013-07-19 Research on

Indigenous participation in sport offers many opportunities to better understand the political issues of equality empowerment self determination and protection of culture and identity This volume compares and conceptualises the sociological significance of Indigenous sports in different international contexts **Aluminum Ore** Robin S. Gendron,Mats

Ingulstad,Espen Storli,2013-09-28 As the key component in aluminum production bauxite became one of the most important minerals of the last one hundred years But its effects on people and economies varied broadly for some it meant jobs progress or a political advantage over rival nations but for many others it meant exploitation pollution or the destruction of a way of life Aluminum Ore explores the often overlooked history of bauxite in the twentieth century and in doing so examines the forces that shaped the time from the mineral s strategic development in the First World War and throughout the Cold War to its role in the globalization of markets as companies from the northern hemisphere vied for the resources of the south In this wide ranging collection scholars from around the world consider multiple international perspectives on this history from Guinea to Nazi Germany to Jamaica all while examining the central place of one commodity in a time of change

Ethnic Realignments Matthew Hoddie,2006-01-01 Ethnic Realignments offers a fresh look at the phenomenon of

rapidly changing ethnic identity claims By focusing on the countries of Australia China Malaysia and India Matthew Hoddie provides a comparative study arguing that government policies designed to favor one ethnic group over another can influence individuals among the disfavored group to change their identities and recast themselves as members of the favored group Hoddie employs a statistical methodology to lay out the conditions and factors that lead to these ethnic identity changes thereby contributing to the ongoing debate concerning the malleability of ethnic identity Ethnic Realignment is a significant work for scholars interested in the politics of ethnicity and the effectiveness of affirmative action policies

Geographies of Health and Development Rachel Bezner Kerr, Isaac Luginaah, 2016-03-03 The geographies of health and development is an emerging sub discipline tying in with many of the conceptual theoretical and practical components of other disciplines working in health health care economics and international development Spatially and theoretically grounded in geography this collection offers a fresh perspective on the dialectic relationships between health and development Health problems in a developing context take on much higher rates of prevalence as a result of the varied cultural structural and economic vulnerabilities of the people they impact This book begins by exploring some of the circumstances surrounding the distinctive health inequities currently facing many developing countries including malaria maternal mortality and HIV AIDS This is followed by a discussion of how matters of physical access and human resource issues and perhaps most importantly the challenges of financing together shape the access and utilization of health care Examining how the environment interacts to influence the health of the people that live there the next section includes discussion around challenges of food in security and the importance of clean and uncontaminated water for health Finally the book explores the influence of globalization on health specifically within the urban environment against the backdrop of global health policy

Development of Aboriginal People's Communities Peter Douglas Elias, 1991 This study examines the historical context of aboriginal Indian M tis Inuit socio economic development in Canada depicts current trends and future developments offers models for the formulation of successful development strategies and looks at longterm prospects and serves as a text for those studying the field for the purpose of professional training

The Cambridge Encyclopedia of Hunters and Gatherers Richard B. Lee, Richard Heywood Daly, Richard Daly, 1999-12-16 Hunting and gathering is humanity s first and most successful adaptation Until 12 000 years ago all humanity lived this way Surprisingly in an increasingly urbanized and technological world dozens of hunting and gathering societies have persisted and thrive worldwide resilient in the face of change their ancient ways now combined with the trappings of modernity The Encyclopedia is divided into three parts The first contains case studies by leading experts of over fifty hunting and gathering peoples in seven major world regions There is a general introduction and an archaeological overview for each region Part II contains thematic essays on prehistory social life gender music and art health religion and indigenous knowledge The final part surveys the complex histories of hunter gatherers encounters with colonialism and the state and their ongoing struggles for

dignity and human rights as part of the worldwide movement of indigenous peoples **International Development** Bruce Currie-Alder, Ravi Kanbur, David M. Malone, Rohinton Medhora, 2014-02-27 Thinking on development informs and inspires the actions of people organizations and states in their continuous effort to invent a better world This volume examines the ideas behind development their origins how they have changed and spread over time and how they may evolve over the coming decades It also examines how the real life experiences of different countries and organizations have been inspired by and contributed to thinking on development The extent to which development works depends in part on particular local historical or institutional contexts General policy prescriptions fail when the necessary conditions that make them work are either absent ignored or poorly understood There is a need to grasp how people understand their own development experience If the countries of the world are varied in every way from their initial conditions to the degree of their openness to outside money and influence and success is not centred in any one group it stands to reason that there cannot be a single recipe for development Each chapter provides an analytical survey of thinking about development that highlights debates and takes into account critical perspectives It includes contributions from scholars and practitioners from the global North and the global South spanning at least two generations and multiple disciplines It will be a key reference on the concepts and theories of development their origins evolution and trajectories and act as a resource for scholars graduate students and practitioners Qualitative Urban Analysis Paul J. Maginn, S. Thompson, Matthew Tonts, Christopher Pole, 2008-02-18 Advocates a pragmatic renaissance within qualitative research a systematic approach to conducting qualitative research and representing the findings This book includes chapters that showcase the utility of qualitative research by providing theoretical methodological and empirical insights into real life research *The Arctic* Jack D. Ives, Roger G. Barry, 2019-09-18 Originally published in 2000 The Arctic provides a comprehensive overview of the region s rapidly changing physical and human dimensions and demonstrates the importance of communication between natural scientists social scientists and local stakeholders in response to the tremendous challenges and opportunities facing the Arctic It is an essential resource for all Arctic researchers particularly those developing multidisciplinary projects It provides an overview of key areas of Arctic research by renowned specialists in the field and each chapter forms a detailed varied and accessible account of current knowledge Each author introduces the subject to a specialist readership while retaining intellectual integrity and relevance for specialists Overall the richness of the material presented in this volume reflects the ecological and cultural diversity of this vast and environmentally critical part of the globe International Encyclopedia of Human Geography , 2009-07-16 The International Encyclopedia of Human Geography provides an authoritative and comprehensive source of information on the discipline of human geography and its constituent and related subject areas The encyclopedia includes over 1 000 detailed entries on philosophy and theory key concepts methods and practices biographies of notable geographers and geographical thought and praxis in different parts of the world This groundbreaking project covers every

field of human geography and the discipline's relationships to other disciplines and is global in scope involving an international set of contributors. Given its broad inclusive scope and unique online accessibility, it is anticipated that the International Encyclopedia of Human Geography will become the major reference work for the discipline over the coming decades. The Encyclopedia will be available in both limited edition print and online via ScienceDirect featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options, and availability, visit http://info.sciencedirect.com/content/books/ref_works. Coming Available online on ScienceDirect and in limited edition print format. Broad interdisciplinary coverage across human geography: Philosophy, Methods, People, Social, Cultural, Political, Economic, Development, Health, Cartography, Urban, Historical, Regional. Comprehensive and unique: the first of its kind in human geography.
