Lost Ecstasy June McDaniel,2018-06-26 This book is a study of religious ecstasy and the ways that it has been suppressed in both the academic study of religion and in much of the modern practice of religion It examines the meanings of the term how ecstatic experience is understood in a range of religions and why the importance of religious and mystical ecstasy has declined in the modern West June McDaniel examines how the search for ecstatic experience has migrated into such areas as war terrorism transgression sexuality drug use and anti institutional forms of spirituality She argues that the loss of religious and mystical ecstasy as both a religious goal and as a topic of academic study has had wide ranging negative effects She also proposes that the field of religious studies must go beyond criminalizing trivializing and pathologizing ecstatic and mystical experiences Both religious studies and theology need to take these states seriously as important aspects of lived human experience

The End of Grand Strategy Simon Reich,Peter Dombrowski,2018-01-15 In The End of Grand Strategy Simon Reich and Peter Dombrowski challenge this common view They eschew prescription in favour of describing and explaining what America s military actually does They argue that each presidential administration inevitably resorts to each of the six variant of grand strategy that they implement simultaneously as a result of a series of fundamental recent changes what they term calibrated strategies Reich and Dombrowski support their controversial argument by examining six major maritime operations stretching from America s shores to every region of the globe Each of these operations reflects one major variant of strategy They conclude that grand strategy as we know it is dead
