The Metaphysical City Rob Sullivan, 2019-01-15 The Metaphysical City examines the metaphorical existence of the city as an entity to further understand its significance on urban planning and geography It encourages an open minded approach when studying cities so as to uncover broader connecting themes that may otherwise be missed Case studies of New York Paris Cairo Mumbai Tokyo and Los Angeles explore a metaphor specific to each city This multidisciplinary analysis uses philosophical treatises geographical analysis and comparative literature to uncover how each city corresponds to the metaphor As such it allows the reader to understand the city from six differing points of view This book would be beneficial to students and academics of urban planning geography and comparative literature in particular those with an interest in a metaphysical examination of cities

Those Kids Deserve Water Too: A History of the Patoka Lake Regional Water and Sewer District David L. Dahl, 2019-06-10 Fifty years ago as America sent men to the moon thousands in southern Indiana relied on water supplies little changed from pioneer days cisterns or shallow wells often poor in quality high in sulfur or otherwise contaminated During droughts when tanks ran dry and wells failed water for drinking cooking and bathing was trucked from springs or nearby towns For decades local leaders struggled to quench their communities thirst In 1975 that all changed with the creation of the Patoka Lake Regional Water and Sewer District which provides drinking water to thirty three water utilities and thousands of residential and commercial customers scattered across eleven counties in southwestern Indiana an area that uniquely lacked readily available water A new generation has grown accustomed to a ready supply of clean water In Those Kids Deserve Water Too author David L. Dahl tells how the district changed life for thousands of Hoosiers
