Thirty Days With My Father Finding Peace From Wartime Ptsd:

Thirty Days with My Father Christal Presley, 2012-11-01 When Christal Presley's father was eighteen he was drafted to Vietnam. Like many men of that era who returned home with post traumatic stress disorder PTSD he was never the same. Christal's father spent much of her childhood locked in his room gravitating between the deepest depression and unspeakable rage unable to participate in holidays or birthdays. At a very young age Christal learned to walk on eggshells doing anything and everything not to provoke him but this dance caused her to become a profoundly disturbed little girl. She acted out at school engaged in self mutilation and couldn't make friends. At the age of eighteen Christal left home and didn't look back. She barely spoke to her father for the next thirteen years. To any outsider Christal appeared to be doing well she earned a BA and a master's got married and traveled to India. But despite all these accomplishments Christal still hadn't faced her biggest challenge her relationship with her father. In 2009 something changed Christal decided it was time to begin the healing process and she extended an olive branch. She came up with what she called The Thirty Day Project a month's worth of conversations during which she would finally ask her father difficult questions about Vietnam. *Thirty Days with My Father* is a gritty yet heartwarming story of those thirty days of a daughter and father reconnecting in a way that will inspire us all to seek the truth even from life's most difficult relationships. This beautifully realized memoir shares how one woman and her father discovered profound lessons about their own strength and will to survive shedding an inspiring light on generational PTSD.

Vietnam & Beyond Jenny La Sala; Jim Markson, 2014-09-22 Vietnam and Beyond is a collection of wartime letters written home by Jim Markson from March 1967 to March 1968 Jim carried sadness and boxed up memories from Vietnam Perhaps if it were not for the general divided and oppositional public opinion of the Vietnam War at that time the soldiers returning home might have been able to open up and begin the healing process Instead those soldiers returning from Vietnam were afraid to tell their story These fears bound each soldier to the other We are very proud to embrace all veterans and include stories of veterans of all wars including WWII Korea Vietnam Iraq and Afghanistan to show the similarities of war and the soldier from one generation to another

Warrior's Return Edward Tick, Ph.D., 2014-11-01 War touches us all leaving visible and invisible wounds on the warriors who fight disrupting their families and communities and leaving lasting imprints on our national psyche In spite of billions spent on psychological care and reintegration programs we face an epidemic of combat related conditions such as PTSD Post Traumatic Stress Disorder With *Warrior's Return* Dr Edward Tick presents a powerful case for changing the way we welcome our veterans back from service a vision and a path for transforming the wounds of war into sources of wisdom honor and growth After more than 35 years of working with veterans Dr Tick has learned that our conventional ways of addressing the trauma and woundings of war fall far short usually focusing only on symptoms and temporary relief Drawing on lessons from cross cultural wisdom mythical archetypes and proven methods from psychology he offers this book as a valuable resource to help families caregivers and returning veterans understand and cope with the life changing effects of combat including Re examining PTSD why we must expand our understanding of the full psychological and spiritual impact of war's invisible wounds Archetype of the warrior service in combat as a journey to the underworld and why the return home is the most crucial stage The warrior's path timeless wisdom from tradition classical philosophy great leaders and religious and mythological sources How cultures around the world have welcomed home their returning warriors for centuries and what we can learn from them The warrior's initiation how the old self dies on the battlefield and a new more mature self evolves in its place Restoration methods for overcoming

disillusionment and soul fatigue to restore the warrior's sense of purpose, motivation and connection. Coming home specific steps for reintegrating our warriors back into our families and communities. Honor how a warrior can retain personal integrity and self respect even when they have participated in a war they don't believe in. Forgiveness, reconciliation and atonement ways for warriors to close the circle and begin healing what was destroyed. This is not a hopeless situation states Dr. Tick. Lifelong suffering after war is not inevitable if we understand war's impact on the heart and soul both for ourselves and our culture. For veterans and those who wish to support them, Warrior's Return offers step by step guidance for initiating our transformed warriors into valued members of our community with an essential map for the hero's journey home. CROW, 2014-08-15 Even as we celebrate the return of our military from wars in the Middle East we are becoming increasingly aware of the struggles that await veterans on the home front. Red, White and True offers readers a collection of voices that reflect the experiences of those touched by war from the children of veterans who encounter them in their fathers' recollections of past wars to the young men and women who fought in the deserts of Iraq and Afghanistan. The diversity of perspectives collected in this volume validates the experiences of our veterans and their families describing their shared struggles and triumphs while honoring the fact that each person's military experience is different. Leila Levinson's powerful essay recounts her father's experience freeing a POW camp during World War II. Pulitzer Prize winning author Tracy Kidder provides a chilling account of being a new second lieutenant in Vietnam. Army combat veteran Brooke King recounts the anguish of raising her young children by day while trying to distinguish between her horrific memories of IED explosions in Baghdad and terrifying dreams by night. These individual stories of pain and struggle along with twenty nine others illustrate the inescapable damage that war rends in the fabric of society and celebrate our dauntless attempts to repair these holes with compassion and courage. Schuring Donald Owen, Jean Bennett Owen, 2018-11-14 Schuring was a mantra I was given which restored my ability to reconnect with God and find purpose for my life. For many years after my Vietnam war experience I struggled to find peace. I have met other combat vets who also suffer from P T S D and the trauma of their wartime experience. I am sharing my meditations in the hopes that they will be used by other vets and their families who still suffer from the affects of combat. Whether currently in wartime active service or at home I pray these meditations will facilitate bringing vets closer to their estranged families, country and their God or what ever higher power they believe in. I chose the smaller size format to enable the book to be carried in the nap sack like a field journal. I have always believed in God and therefore my meditations address God as my higher power. It is not my intent to impose my personal beliefs upon others but instead to share my experience as a result of using these meditations in my daily life. The meditations can be used in any order. Since the meditations are short and only take up a portion of the page I encourage the person using them to take the extra space on each page to journal or to write thoughts or comments. In this way the meditations can become more alive.

and interactive I believe that the meditations while simple can be profound and encourage healing on many levels I have kept a daily journal and used the 3 x 5 cards I created for each meditation so that I could delve into deeper healing God bless my fellow veterans who have served or are still serving and their families May you find the peace you deserve Finding Peace with Ptsd Joanna Nunez,2018-07-26 No one ever has a perfect family life As a licensed clinical social worker Joanna begins working with Operation Enduring Freedom and Operation Iraqi Freedom veterans and learns about the in depth horrors of combat zone traumas and unforgettable memories Working with these men and women she is able to identify parallels in their interactions with their families and her family while growing up From an early age Joanna always wondered why her relationship with her father was so strained Wanting to break down the barriers that have always existed between them she asks her father to help her understand PTSD from the soldiers point of view Their work together soon grows into a memoir of her father s time in Vietnam her clinical viewpoint on how his trauma has affected their family life and a guideline for those that live with a combat veteran **Finding My Father** Marian H. The Enemy Within Gregory A. Helle, 2004 Why would you want to read this book There are several reasons First of all it is my hope that victims of all types of traumas whether war related or not can find some comfort in these pages If you are a victim of PTSD you need to know that there is hope for a better quality of life That is one of the core messages in this book There is no cure for PTSD but through medications and counseling it is possible to exercise more control over the illness But you must take the first step and be your own best advocate You will hear me say this more than once If you do not advocate for your own needs it is unlikely that you will achieve your goals I hope that some of the information in these pages will guide PTSD victims to seek the help they need I feel this book also has much to offer those who don't suffer from PTSD It is the story of how a normal eighteen year old farm boy from a small town in Iowa went to war and over thirty years later at the age of fifty two became totally disabled with PTSD It is my hope that this will help the public understand not only Vietnam vets but also vets from all wars as well as victims of other traumas such as I mentioned above There are so many fears that hold PTSD victims back from seeking help or even admitting to themselves that they need help Even though all those around them can see the changes in the victim it is hard for the victim to admit a problem They see themselves as having some kind of mental illness Victims are often paranoid and worry about what others are thinking or saying about them even those people who have no inkling that there is a problem Sometimes it can seem to the victim that everyone knows there is something wrong and that everyone is talking about him or her The public must become aware of the disease and offer compassion rather than rebuke Vietnam vets in particular have been a source of fear in the general public The media has exacerbated this situation by its frequent portrayal of the vet as an

imbalanced rage filled time bomb just waiting for the circumstances that will set him off Perhaps this has made for some entertaining movies but it has also kept many veterans from seeking the help they needed lest they find themselves branded with this ugliest of clichés Even if the victim knows there is a problem it is so difficult to ask for help especially from a government that loathes to acknowledge the existence much less the debilitating nature of this disorder It should come as no surprise then that many victims do not want anyone to know about their weakness Very simply it is time to end the silence and the shame I realize that parts of this book will be difficult for the public to read Reading a true account is not at all the same as watching violence on TV or at the movies In these situations the dead are not really dead and the cast is not really experiencing the events being portrayed It is much more difficult when the dead stay dead bodies are permanently mutilated and the effects of the war will stay forever with those who experienced them The violence presented in modern entertainment should be taken as it is intended though sometimes the level of violence in our entertainment is disturbing True violence should be taken very seriously because it can happen to any one of us at war or at home Where a particularly violent movie can leave one unsettled for a day or so actually living through a violent situation can produce a nightmare that lasts a lifetime I do not intend for this book to be political nor do I want it to be an attack on the Department of Veteran Affairs VA However I do believe that the policies enacted by the government have played a significant part in weaving the intricate web of my life Nor do I intend this to be a self help book

War Dad Julie Sands, 2010-01-12 Death doesn't always happen in combat it can also happen slowly after the soldier returns Julie Sands writes her first memoir and tells the true story of her father returning from the Vietnam War alive only to die a slow death on the streets of Los Angeles Ca In this book Julie Sands relives her life as a daughter of war and writes about the damage it caused on her father and her childhood as a result of her father's heroin addiction and alcoholism Although Sands recounts a story of a horrific childhood and what could have destroyed her she also brings hope for others who are suffering from the damages of war Emotional and raw War Dad takes you through a journey into the destruction of a spirit the dissolving of a girl's self esteem and the fight to survive as she witnesses her father's addictions life of crime domestic violence and prison Sands vividly describes the events which could have destroyed her but she also teaches how she was able to rise above her situation and live the life of her dreams It is said that over 300 000 soldiers suffer from post traumatic stress disorder War Dad uncovers the harsh after life of many soldiers and sheds light on the damaging effects war has on the families spouses and children of the soldier
