Joe R. Feagin

This Nonviolent Stuff'll Get Killed:

This Nonviolent Stuff'll Get You Killed Charles E. Cobb, 2014-06-03 Describes how the people most crucial to the success of the civil rights movement were nonviolent activists who carried firearms and discusses the role guns played in the Southern Freedom Movement

This Nonviolent Stuff'll Get You Killed Charles E. Cobb (Jr.), 2014 Visiting the parsonage of Martin Luther King Jr during the peak of the civil rights movement the journalist William Worthy began to ease himself into an armchair only to stop short Sitting on the cushion was a loaded pistol Just for self defense King assured Worthy It was not the only weapon that King kept for such a purpose Glenn Smiley a southern minister who advised King on the techniques of nonviolence during the Montgomery bus boycott remembered King's home as an arsenal Living under constant death threats King enlisted armed supporters to guard his home and family and even applied for a conceal and carry permit His application was denied but it like the rest of the evidence about King's gun ownership points to a side of the civil rights movement that has long been ignored by history In *This Nonviolent Stuff'll Get You Killed* award winning civil rights scholar Charles E Cobb Jr reveals the fundamental but long overlooked role that armed self defense played in the golden era of the civil rights movement

Setting Sights, 2018-01-01 Decades ago Malcolm X eloquently stated that communities have the legitimate right to defend themselves by any means necessary with any tool or tactic including guns This wide ranging anthology uncovers the hidden histories and ideas of community armed self defense exploring how it has been used by marginalized and oppressed communities as well as anarchists and radicals within significant social movements of the twentieth and twenty first centuries Far from a call to arms or a how to manual for warfare this volume offers histories reflections and questions about the role of firearms in small collective defense efforts and its place in larger efforts toward the creation of autonomy and liberation Featuring diverse perspectives from movements across the globe *Setting Sights* includes vivid histories and personal reflections from both researchers and those who participated in community armed self defense Contributors include Dennis Banks Kathleen Cleaver Mabel Williams Subcomandante Marcos Kristian Williams George Ciccariello Maher Ashanti Alston and many more

How Blacks Built America Joe R. Feagin, 2015-07-30 *How Blacks Built America* examines the many positive and dramatic contributions made by African Americans to this country over its long history Almost all public and scholarly discussion of African Americans accenting their distinctive societal position especially discussion outside black communities has emphasized either stereotypically negative features or the negative socioeconomic conditions that they have long faced because of systemic racism In contrast Feagin reveals that African Americans have long been an extraordinarily important asset for this country Without their essential contributions indeed there probably would not have been a United States This is an ideal addition to courses race and ethnicity courses

Building Peace in America Emily Sample, Douglas Irvin-Erickson, 2020-07-22 America may not be at war but it is not at peace Recent public and political rhetoric have revealed the escalation of a pervasive and dangerous us versus them ideology

in the United States This powerful book is motivated by the contributors recognition of continuing structural violence and injustice which are linked to long standing systems of racism social marginalization xenophobia poverty and inequality in all forms Calls to restore America s greatness are just the most recent iteration of dehumanizing language against minority communities The violation of the civil and human rights of vulnerable groups presents a serious threat to American democracy These deeply rooted and systemic inequities have no easy solutions and the destructive nature of today s conflicts in America threaten to impede efforts to build peace promote justice and inspire constructive social change Acknowledging the complexity of building peace in the United States this volume represents the first step in envisioning a more just peaceful country from the grassroots to the highest levels of leadership The editors have brought together a diverse group of scholars conflict resolution practitioners civil society leaders community peacebuilders and faith leaders who are committed to pro social change Collectively they examine how best to understand the current issues deescalate destructive public rhetoric undermine the us versus them polarity and support those currently working for positive change Together the contributors share experiences and perspectives on the past present and future of peacebuilding develop a vision for how we can collectively respond in our communities campuses and congregations and catalyze action during this pivotal moment in America

Wicked Problems Austin Choi-Fitzpatrick, Douglas Irvin-Erickson, Ernesto Verdeja, 2022 The ethics of changemaking and peacebuilding may appear straightforward advance dignity promote well being minimize suffering Sounds simple right Actually acting ethically when it really matters is rarely straightforward If someone engaged in change oriented work sets out to do good how should we prioritize and evaluate whose good counts And how ought we act once we have decided whose good counts Practitioners frequently confront dilemmas where dire situations may demand some form of response but each of the options may have undesirable consequences of one form or another Dilemmas are not merely ordinary problems they are wicked problems that is to say they are defined by circumstances that only allow for suboptimal outcomes and are based on profound and sometimes troubling trade offs Wicked Problems argues that the field of peacebuilding and conflict transformation needs a stronger and more practical sense of its ethical obligations For example it argues against posing false binaries between domestic and international issues and against viewing violence and conflict as equivalents It holds strategic nonviolence up to critical scrutiny and shows that do no harm approaches may in fact do harm The contributors include scholars scholar practitioners in the field and activists on the streets and the chapters cover the role of violence in conflict conflict and violence prevention and resolution humanitarianism community organizing and racial justice social movements human rights advocacy transitional justice political reconciliation and peace education and pedagogy among other topics Drawing on the lived experiences and expertise of activists educators and researchers Wicked Problems equips readers to ask and answer difficult questions about social change work

Aftershock John Feffer, 2017-11-15 In this unique panoramic account of faded dreams journalist John Feffer returns to Eastern Europe a

quarter of a century after the fall of communism to track down hundreds of people he spoke to in the initial atmosphere of optimism as the Iron Curtain fell from politicians and scholars to trade unionists and grass roots activists What he discovers makes for fascinating if sometimes disturbing reading From the Polish scholar who left academia to become head of personnel at Ikea to the Hungarian politician who turned his back on liberal politics to join the far right Jobbik party Feffer meets a remarkable cast of characters He finds that years of free market reforms have failed to deliver prosperity corruption and organized crime are rampant while optimism has given way to bitterness and a newly invigorated nationalism Even so through talking to the region s many extraordinary activists Feffer shows that against stiff odds hope remains for the region s future

CLA Journal ,2016 [Arkansas Review](#) ,2016 **This Light of Ours** Leslie G. Kelen,2012-01-05 This Light of Ours Activist Photographers of the Civil Rights Movement is a paradigm shifting publication that presents the Civil Rights Movement through the work of nine photographers who participated in the movement as activists with SNCC SCLC and CORE Unlike images produced by photojournalists who covered breaking news events these photographers lived within the movement primarily within the Student Nonviolent Coordinating Committee SNCC framework and documented its activities by focusing on the student activists and local people who together made it happen The core of the book is a selection of 150 black and white photographs representing the work of photographers Bob Adelman George Ballis Bob Fitch Bob Fletcher Matt Herron David Prince Herbert Randall Maria Varela and Tamio Wakayama Images are grouped around four movement themes and convey SNCC s organizing strategies resolve in the face of violence impact on local and national politics and influence on the nation s consciousness The photographs and texts of This Light of Ours remind us that the movement was a battleground that the battle was successfully fought by thousands of ordinary Americans among whom were the nation s courageous youth and that the movement s moral vision and impact continue to shape our lives

[May I Kill?](#) Jeffrey K. Mann,2018-09-28 Today we live in a world where we are less exposed to violence than at any other time in history However we also know that violence can come knocking on our door at any moment Preparing for this possibility means more than physical safety it means being clear with ourselves about the ethics of violence Can violence be justified When should we fight How should we fight And in situations when things have gone badly may we kill These questions are not only for politicians soldiers and police officers but are also important considerations for civilians whose lives do not normally intersect with violence Whether advocating for government policies marching in the streets or defending ourselves and loved ones a coherent moral framework is essential to good decision making May I Kill examines the efficacy of different approaches to non violence and Just War Theory By scrutinizing these ethical theories the reader is encouraged to critically examine occasions for the use of force from a moral perspective whether nations at war or violent encounters in our own neighborhoods We may then determine how best to develop ourselves body mind and spirit to respond effectively and make the world a safer place
