Three Rivers The Yukon's Great Boreal Wilderness is a gorgeous coffee table book about a wilderness area so vast and so crucial to planetary survival it defies comprehension Previously unknown to the outside world the Yukon's Three Rivers watershed is emerging as an environmental issue of global importance a key piece of the boreal region The boreal forest is like a green banner draped around the northern hemisphere It is the world's largest expanse of intact forest covering nearly 11 percent of our planet's surface Every breath we take is in part a gift from this immense earth circling ecosystem Now the renewed Mackenzie Valley pipeline proposal the Alaska Pipeline and escalating energy and mineral exploration in the north all threaten this last world scale refuge of natural values and conservationists around the world are mobilizing to defend it Three Rivers focuses on one of the most strategic undisturbed regions left in the world an oceanic wilderness that is under threat from gas and mining development Packed with awe inspiring photography art and writings by such notables as Courtney Milne Margaret Atwood and John Ralston Saul this sumptuous volume offers an unforgettable tour of a natural wonderland so rich in grizzly bears wolves caribou peregrine falcons and wildflowers most will have difficulty believing such a place still exists Three Rivers is a prize to be cherished by anyone who appreciates great photography fine writing and untrammelled nature and a must have for anyone who takes an interest in the fate of our beleaguered but still awe inspiring planet *Three Rivers*, 2006 Proceedings RMRS., 1998 **Rafting the Snake** W. J. Becker, 2024-09-19 I am not a rugged adventurer and this is not the story of a journey that you could never do I brought only a reasonable degree of fitness to the Snake a camera at the ready and an open mind Experience the beauty and wonder of Canada's North through the reflections and photography of Werner J Becker He along with his wife and two teenage grandchildren embarked on a two week rafting tour of the Snake River Valley starting not far from the river's source and ending at its mouth on the Peel River From breathtaking views of majestic Mount Macdonald to a thundering waterfall and raging rapids this wilderness adventure is artfully captured in photos and prose Along the way stories of natural and human history are shared giving depth and context to the narrative A celebration of the beauty of the Yukon and a love letter to Canada's North Rafting the Snake is a timely encouragement for the protection of the environment and our planet It shows the interconnectedness of humans and nature and makes a strong case for preserving our northern wilderness *Representations and Rights of the Environment* Sandy Lamalle, Peter Stoett, 2023-04-06 Attending to the Cry of the Earth requires a critical appraisal of how we conceive our relationship with the environment and a clear vision of how to apprehend it in law and governance Addressing questions of participation responsibility and justice this collective endeavour includes marginalised and critical voices featuring contributions by leading practitioners and thinkers in Indigenous law traditional knowledge wild law the rights of nature theology public policy and environmental humanities Such voices play a decisive role in comprehending and responding to

current global challenges They invite us to broaden our horizon of meaning and action modes of knowing and being in the world and envision the path ahead with a new legal consciousness A valuable reference for students researchers and practitioners this book is one of a series of publications associated with the Earth System Governance Project For more publications see www.cambridge.org/earth-system-governance The George Wright Forum ,2006 *American Book Publishing Record* ,2005 **Canadian Book Review Annual** ,2007 *Stories of Our Great Rivers Part-2* Amrachs Hseham,2025-01-18 In the heart of North America the Mississippi River tells tales of exploration trade and the clash of cultures Further west the Columbia River winds through the rugged landscapes of the Pacific Northwest a witness to the struggles and triumphs of indigenous peoples and pioneers alike Across the Atlantic the Thames bears witness to the ebb and flow of London s history from Shakespearean theaters to modern financial districts As we navigate the stories of these great rivers one theme emerges an unspoken connection that binds the fates of those who dwell along their banks Whether it be the bustling metropolises that have grown on the fertile plains watered by these rivers or the remote villages where life unfolds at the pace of the current the threads of connection are woven into the very essence of these narratives *Alaska River Guide* Karen Jettmar,2008-06-28 The rich tapestry of Alaska is threaded together by 365 000 miles of waterways from cascading mountain streams to meandering valley rivers from the meltwaters of glaciers to broad rivers that empty into the sea This guide profiles a wide variety of rivers from all over Alaska concentrating on trips for intermediate boaters and including a few major expeditions for the experienced river runner A section on gear outlines what to take into the backcountry Wild and Scenic Rivers of America Tim Palmer,1993 A new vision is sweeping through ecological science The dense web of dependencies that makes up an ecosystem has gained an added dimension the dimension of time Every field forest and park is full of living organisms adapted for relationships with creatures that are now extinct In a vivid narrative Connie Barlow shows how the idea of missing partners in nature evolved from isolated curious examples into an idea that is transforming how ecologists understand the entire flora and fauna of the Americas This fascinating book will enrich and deepen the experience of anyone who enjoys a stroll through the woods or even down an urban sidewalk But this knowledge has a dark side too Barlow s ghost stories teach us that the ripples of biodiversity loss around us now are just the leading edge of what may well become perilous cascades of extinction **A Republic of Rivers** John A.
