Transboundary Environmental Governance Inland Coastal And Marine Perspectives:

Transboundary Environmental Governance Robin Warner, Simon Marsden, 2012 *Transboundary Environmental Governance* Simon Marsden, 2016-02-24 Effective protection of the marine and terrestrial environment increasingly requires cooperation between neighbouring States international organizations government entities and communities within States This book analyses key aspects of transboundary environmental law and policy and their implementation in Asia Australasia and Australian offshore territories and surrounding areas beyond national jurisdiction including Antarctica It discusses the potential for implementing key transboundary environmental mechanisms such as the 1991 Convention on Environmental Impact Assessment in a Transboundary Context Espoo Convention and its 1997 Protocol on Strategic Environmental Assessment Kiev Protocol in Australia and Asia drawing on experience from other regions and the potential application of these agreements to all UN member states The book makes an innovative contribution to research in the area of transboundary environmental governance particularly as it applies to Asia Australasia and international areas supplementing similar research which has predominantly focused on Europe and North America

Transboundary Environmental Governance in Asia Simon Marsden, Elizabeth Brandon, 2015-04-30 A comprehensive overview of treaty implementation and compliance concerning transboundary environmental governance in Asia is provided in this timely book Recent United Nations Economic Commission for Europe UNECE membership by Asian states in the C Environmental Regimes in Asian Subregions Simon Marsden, 2017-03-31 Informed by international law international relations and environment management scholarship this interdisciplinary analysis of environmental regimes in Asian subregions proposes a new regime for the Himalayas and Tibetan Plateau based on China's cooperation with its south Asian neighbors

Conservation, Sustainability, and Environmental Justice in India Alok Gupta, 2020-12-03 Conservation Sustainability and Environmental Justice in India highlights the environmental challenges that India faces largely due to high population and limited natural resources and discusses the gap between the intent of environmental policies and the actualization of those policies Contributors posit that the protection of the environment poses a fundamental challenge to the nation's desire to industrialize and develop more quickly arguing that the conservation of biodiversity protection of wetlands prevention of environmental pollution and promotion of ecological balance are all crucial in enabling sustainable development This book poses the question of how large a role the judiciary system should play in the protection of the environment as a vital body that passes policies to promote conservation and sustainable development

Trans-jurisdictional Water Law and Governance Janice Gray, Cameron Holley, Rosemary Rayfuse, 2016-06-23 Governance of global water resources presents one of the most confounding challenges in contemporary natural resource governance With considerable government citizen and financial donor attention devoted to a range of international transnational and domestic laws and policies aimed at protecting managing and sustainably using fresh and coastal marine water resources this book proposes that sustainable water

outcomes require a trans jurisdictional approach to water governance Focusing on the concept of trans jurisdictional water governance the book diagnoses barriers and identifies pathways to coherent and coordinated institutional arrangements between and across different bodies of laws at local national regional and international levels It includes case studies from the European Union Australia New Zealand South Africa the United States and Southeast Asia Leading specialists offer insights into the pretence and the promise of trans jurisdictional water governance and provide readers including students practitioners policy makers and academics with a basis for better analysing articulating and synthesising standards of good trans jurisdictional water governance both in theory and in practice **An International Legal Framework for**

Geoengineering Haomiao Du, 2017-10-18 Geoengineering provides new possibilities for humans to deal with dangerous climate change and its effects but at the same time creates new risks to the planet This book responds to the challenges geoengineering poses to International Law by identifying and developing the rules and principles that are aimed at controlling the risks to the environment and human health arising from geoengineering activities without neglecting the contribution that geoengineering could make in preventing dangerous climate change and its impacts It argues first that the employment of geoengineering should not cause significant environmental harm to the areas beyond the jurisdiction of the state of origin or the global commons and the risk of causing such harm should be minimized or controlled Second the potential of geoengineering in contributing to preventing dangerous climate change should not be downplayed

Governance of Marine Fisheries and Biodiversity Conservation Serge M. Garcia, Jake Rice, Anthony Charles, 2014-07-15 *Governance of Marine Fisheries and Biodiversity Conservation* explores governance of the world's oceans with a focus on the impacts of two inter connected but historically separate streams of governance one for fisheries the other for biodiversity conservation Chapters most co authored by leading experts from both streams investigate the interaction of these governance streams from ecological economic social and legal perspectives with emphasis on policies institutions processes and outcomes on scales from the global to the local community and with coverage of a range of themes and regions of the world The book opens with chapters setting the historical context for the two marine governance streams and framing the book's exploration of whether as the streams increasingly interact there will be merger or collision convergence or co evolution The concluding chapter synthesizes the insights from throughout the book relative to the questions posed in the opening chapters It also draws conclusions about future needs and directions in the governance of marine fisheries and biodiversity vital to the future of the world's oceans With cutting edge chapters written by many leading international experts in fisheries management and biodiversity conservation and edited by three leading figures in this crucially important subject *Governance of Marine Fisheries and Biodiversity Conservation* is an essential purchase for fisheries scientists economists resource managers and policymakers and all those working in fields of biodiversity conservation marine ecology and coastal livelihoods Libraries in all universities and research establishments where environmental and or marine studies conservation

ocean policy and law biological and life sciences and fisheries management are studied and taught should have copies of this most important book

Murray-Darling Basin, Australia Barry Hart, Neil Byron, Nick Bond, Carmel Pollino, Michael Stewardson, 2020-10-23 Murray Darling Basin Australia Its Future Management is a much needed text for water resources managers water catchment estuarine and coastal scientists and aquatic ecologists The book first provides a summary of the Murray Darling River system its hydrology water related ecological assets land uses particularly irrigation and its rural and regional communities and management within the Basin including catchments and natural resources water resources irrigation environment and monitoring and evaluation Additionally the recent major water reforms in the Basin are discussed with a focus particularly on the development and implementation of the Basin Plan Murray Darling Basin Australia Its Future Management then provides an analysis of the next set of policy and institutional reforms environmental social cultural and economic needed to ensure the Basin is managed as an integrated system including its water resources catchment and estuary capable of adapting to future changes Six major challenges facing the Basin are identified and discussed particularly within the context of predicted changes to the climate leading to an increased frequency of drought and a hotter and dryer future Finally a road map or blueprint to achieve more integrated management of the Basin is provided together with some key lessons of relevance to others involved in the management of multijurisdictional river Basins Provides a consolidated account of the Murray Darling Basin system an area of global relevance to those interested in rebalancing river systems where the water resources have been over allocated Offers a detailed analysis of the current system and its management with a focus on water and ecosystem management Discusses a number of key challenges particularly those related to climate change facing future reforms to the Murray Darling Basin Plan Provides a blueprint for changes needed to ensure the Basin is managed as an integrated whole from catchment to coast

The Law of the Sea and the Polar Regions Erik J. Molenaar, Alex G. Oude Elferink, Donald R. Rothwell, 2013-08-15 The Law of the Sea and the Polar Regions Interactions between Global and Regional Regimes analyzes of the contemporary law of the sea and related areas of international law in Antarctica and the Arctic with a particular focus upon the interaction of global and regional regimes The global component of the international law of the sea principally the United Nations Convention on the Law of the Sea applies to the entire marine domain in both polar regions but explicitly requires regional implementation or acknowledges its usefulness This volume critically examines regional regimes for the Arctic and Antarctic on science maritime security fisheries and shipping by means of common research questions thus enabling an overall synthesis and identification of trends differences and similarities
