Handbook of Personal Security Patrick J. Carroll, Robert M. Arkin, Aaron L. Wichman, 2015-04-24 The issue of psychological security within an increasingly unstable interconnected world has become a defining challenge of modern individual and cultural life The terror attacks of September 11 2001 and the global financial crisis that unfolded in 2008 have intensified a sense of global and personal insecurity This concern with psychological insecurity is reflected in contemporary culture politics the business world consumer behavior the arts and other areas Within this context the psychological sciences have kept pace vigorously investigating these issues This handbook features the latest theory and research examining cognitive emotional and behavioral responses to security threats It expands the conceptual focus from specific security threats to the broader range of antecedents processes and consequences of psychological security insecurity The chapters are organized into four content areas personal security in individual contexts personal security in interpersonal contexts

personal security with cultural and health contexts and interdisciplinary analyses of personal security They represent a new and vibrant area of research unified by the common goal of understanding the factors that shape a sense of personal security Together these provocative chapters provide specific starting points that will shape future theory policy and practice on this dominant social issue of the 21st Century and more importantly offer opportunities to connect social and personality psychology to its scientific kin

The Rhetoric of Emotions Robert Perinbanayagam, 2017-07-05 Kenneth Burke founder of the critical method of dramatism believed that motives and attitudes are constantly generated by individuals as they encounter social situations and material objects in the course of their everyday lives In *The Rhetoric of Emotions* Robert Perinbanayagam proposes that by analysing individuals experiences especially through their interaction with creative outlets we can come to a deeper understanding of how the human mind systematically approaches the emotive process The author maintains that individuals use spoken language and all other forms of symbolism including art and literature to elicit social cooperation and emotional understanding both in regard to the world around them and within themselves Rhetoric and culture are mechanisms for managing values behaviour and emotions In order to ground this philosophical viewpoint Perinbanayagam strategically discusses famous novels and paintings to show how individuals construct emotional responses to the rhetorical objects at their disposal In addition to the ideas of Burke and George Herbert Mead the ideas of Max Weber Georg Simmel Charles Sanders Peirce Edmund Husserl Alfred Schutz and Erving Goffman are also reflected in this provocative analysis

Free Spirit Sundance Burke, 2008-02 *Free Spirit* speaks as freedom which is our Consciousness the sweet essence of our lives The freedom spoken here is an inner knowing We cannot realize this liberation by catering to our bodies emotions or minds No this freedom is spiritual an altitude of perception that only arises when we are lighter than our surroundings We can realize this lightness of being if we are willing to abide as Awareness and let go of the ego the one who suffers mind For this enlightenment to happen a quiet mind is all we need Why do anything for this when only our stillness will suffice Be silent be still be free Within this book you will find answered and unanswered questions humor poetic prose experimentation with consciousness and passages that illuminate the sense that we are more than our thoughts emotions senses body and energy Every word is sourced by the power of silent Truth Without contradicting this source the writing inspires our active participation in the realization of Spirit as only our direct experience is of value to this awakening For those of us who desire to be free the author takes us by the hand and walks with us through the entire landscape of the egoic mind until we reach its outer boundary Here we are invited to take a leap of Self faith into simply being who we are right now *Free Spirit*

Transcending Fear Victoria M. Reynolds, 2012-06-20 Religion and Spirituality are like peanut butter and honey They have been sandwiched together for so long that most people do not realize they are two separate and very distinct flavors Far too many of us go through life afraid to move forward or hesitant to try what we have always dreamed of We are often unknowingly trapped in fear guilt and shame as a result of the beliefs that were placed upon us as children

Although these fear based beliefs may not be consciously visible they profoundly yet subtly prevent us from finding inner joy and real genuine success In *Transcending Fear* Victoria shares the process she used to overcome the pain of her past and the subconscious remnants of her childhood fundamentalist religion By freeing herself physically mentally emotionally and spiritually she found the joy and fulfillment that is every human s birthright This story of liberation is shared in a simple step by step process that anyone can use to free themselves from the pain of the past and step into the future with greater confidence and enthusiasm Show Me The Harmony Mark Worthington,2023-08-03 All of us lead We lead our own lives We may lead our families friends and work colleagues Some of us lead large teams of people Whatever the form or scale leadership comes with great responsibilities for in leading we hold our own lives and the lives of others in our hands We can shape those lives and in turn shape the world for the better Isn t it therefore the responsibility of all leaders to guide the world towards a more harmonious way of living With eight billion unique souls on Earth many of us today feel disconnected from collectives where we might otherwise find acceptance and love We need leaders who are truly self aware authentic and integrated and who can help us expand and grow together through creativity and truth This ground breaking book attempts to stretch paradigms of leadership shining a light on the forgotten powers that will generate unprecedented levels of unity productivity and success in our lives Infinite possibilities greater harmony and wealth await us all Join the new chorus that is heralding a more natural way of leading Song of Freedom Judith K. Moore,2002-01-01 Judith Moore knew she had bene brought up by loving parents Before age 40 she had no memory of childhood trauma although she knew she had bene sick a lot mor ethan most peoople but it wasn t until she joinged an incest survivors group to help her adopted daughter that the memories began surfacing In this brave and groundbreaking work Judith Moore shares her shattering revelations of the reality of HIGH LEVEL MIND CONTROL She opens the pages of her journal and the innermost feelings of her heart to share with the reader her JOUNREY TO WHOLENESS and to healing Her early environment rich in NATIVE AMERICAN FOLK LORE helps her in her quest With the help of caring preffessionals she researces travels investigates and meditates in an effort to set herself free to reclaim her very sense of herself a sa person Her search leads her into terrifying unknown territory and ILLUMINATING DISCVOERIES about her own psyche and that of today s society as a whole **Freedom Of Being** Taty Smith, The book *Freedom of Being* is the sharing of Taty Smith s battles and victories showing that no human being is immune to feelings involving pain fear and inadequacies The aim of the book is to help people of all social classes to have a better quality of life through self knowledge self care and art culture using the author s story A book with a high content of affection and identification with the reader She says I wasted many years of my life precious moments because I couldn t handle the feelings that saddened me I almost took my life for not understanding and not knowing what to do with so much pain sadness and insecurity But thanks to a greater force and my desire to live in a fuller happier and safer way I found self knowledge Human development self knowledge spirituality art life histories interpersonal relationships motivational
