Transforming Tales Transforming Tales:

Transforming Tales Miranda Griffin, 2015-08-27 *Transforming Tales* argues that the study of transformation is crucial for understanding a wide range of canonical work in medieval French literature From the *lais* and Arthurian romances of the twelfth and thirteenth centuries through the *Roman de la Rose* and its widespread influence to the fourteenth century *Ovide moralis* and the vast prose cycles of the late Middle Ages metamorphosis is a recurrent theme resulting in some of the best known and most powerful literature of the era *Transforming Tales* is the first book in English to explore in detail the importance of ideas of metamorphosis in French literature from the twelfth to the fifteenth centuries This book's purpose is twofold it traces a series of figures the werewolf the snake woman the nymph the magician amongst others as they are transformed within individual texts and it also examines the way in which the stories of transformation themselves become rewritten during the course of the Middle Ages Griffin's approach combines close readings and comparisons of literary texts with readings informed by modern critical theories which are grounded in many of the ideas raised by medieval metamorphosis the body gender identity and categories of life Literary depictions and reworkings of transformation raise questions about medieval understandings of the differences between human and animal man and woman God and man life and death these are the questions explored in *Transforming Tales*

Stone,2008 In this enjoyable volume Kay Stone has selected writings from her scholarly articles and books spanning 1975 2004 that contain reflections on the value of fairy tales as adult literature The title *Some Day Your Witch Will Come* twists a Walt Disney lyric to challenge the typical fairy tale framework and is a nod to Stone s innovative and sometimes unconventional perspective As a whole this collection is a fascinating look at both the evolution of a career and the recent history of fairy tale scholarship

Transforming Talk Susan E. Phillips,2011-04-01 In recent decades scholars have shown an increasing interest in gossip s social psychological and literary functions The first book length study of medieval gossip *Transforming Talk* shifts the current debate and argues that gossip functions primarily as a transformative discourse influencing not only social interactions but also literary and religious practices Known as jangling in Middle English gossip was believed to corrupt parishioners disturb the peace and cause civil and spiritual unrest But gossip was also a productive cultural force it reconfigured pastoral practice catalyzed narrative experimentation and restructured social and familial relationships *Transforming Talk* will appeal to a diverse audience including scholars interested in late medieval culture religion and society Chaucer and women in the Middle Ages

Textual Transformations in Children's Literature Benjamin Lefebvre,2013 This book offers new critical approaches for the study of adaptations abridgments translations parodies and mash ups that occur internationally in contemporary children s culture It follows recent shifts in adaptation studies that call for a move beyond fidelity criticism a paradigm that measures the success of an adaptation by the level of fidelity to the original text toward a methodology that considers the adaptation to be always already in conversation with the adapted text This book visits children s literature and culture in order to consider the generic pedagogical and ideological underpinnings that drive both the process and the product Focusing on novels as well as folktales films graphic novels and anime the authors consider the challenges inherent in transforming the work of authors such as William Shakespeare Charles Perrault L M Montgomery Laura Ingalls Wilder and A A Milne into new forms that are palatable for later audiences particularly when for perceived ideological or political reasons the textual transformation is not only unavoidable but entirely necessary Contributors consider the challenges inherent in transforming stories and characters from one type of text to another across genres languages and time offering a range of new models that will inform future scholarship

Race, Language, and Culture Franz Boas,1982 Anthropology is often held to be a subject that may satisfy our curiosity regarding the early history of mankind but of no immediate bearing upon the problems that confront us This view has always seemed to me erroneous In the following pages I have collected such of my writings as I hope will prove the

African Traditional And Oral Literature As Pedagogical Tools In Content Area

Classrooms Lewis Asimeng-Boahene, Michael Baffoe, 2013-12-01 For a long time many American educators and educational stakeholders have drawn their ideas for educational reforms from ideas generated in Europe and Asia for the changing demographics of America's diverse classrooms. This book is therefore motivated by a bold attempt at advocating for the revision of existing pedagogic fora and the creation and addition of new fora that would provide for the inclusion of thoughts, perspectives, and practices of African traditional oral literature in the pedagogical tools of content area classrooms, especially in North America. The articles that are presented in this book provide theoretical frameworks for using African traditional oral literature and its various tenets as teaching tools. They bring together new voices of how African literature could be used as a helpful tool in classrooms. Rationale for agitating for its use as an ideal pedagogic tool is the recurrent theme throughout the various articles presented. The book explores how educators, literacy educators, learners, activists, policy makers, and curriculum developers can utilize the powerful yet untapped gem of African oral literature as pedagogical tools in content area classrooms to help expand educators' repertoire of understanding beyond the conventional wisdom of their pedagogic creed. It is a comprehensive work of experienced and diverse scholars, academicians, and educators who have expertise in multicultural education, traditional oral literature, urban education, children's literature, and culturally responsive pedagogy that have become the focus of U.S. discourses in public education and teacher preparation. This anthology serves as part of the quest for multiple views about our global village, emphasizing the importance of linking the idea of diverse knowledge with realities of global trends and development. Consequently, the goal and the basic thrust of this anthology is to negotiate for space for non-mainstream epistemology to share the pedagogical floor with the mainstream template to foster alternative vision of reality for other knowledge production in the academic domain. The uniqueness of this collection is the idea of bringing the content and the pedagogy of most of the genres of African oral arts under one umbrella and thereby offering a practical acquaintance and appreciation with different African cultures. It therefore introduces the world of African mind and thoughts to the readers. In summary, this anthology presents an academic area which is now gaining its long overdue recognition in the academia.
