Transitions And Learning Through The Lifecourse:

Transitions and Learning Through the Lifecourse Kathryn Ecclestone, Gert Biesta, Martin Hughes, 2009-10-16

Transition has numerous everyday and conceptual meanings yet while certain transitions are unsettling and difficult for some people risk challenge and even difficulty might also be important factors in successful transitions for others *Researching the Lifecourse* Nancy Worth, Irene Hardill, 2016-06-01 The lifecourse perspective continues to be an important subject in the social sciences *Researching the Lifecourse* offers a distinctive approach in that it truly covers the lifecourse childhood adulthood and older age focusing on innovative methods and case study examples from a variety of European and North American contexts This original approach connects theory and practice from across the social sciences by situating methodology and research design within relevant conceptual frameworks This diverse collection features methods that are linked to questions of time space and mobilities while providing practitioners with practical detail in each chapter

Practical Wisdom and Democratic Education Samantha Broadhead, Margaret Gregson, 2018-02-20 This book explores the development of practical wisdom or phronesis within the stories of four mature students studying for degrees in art and design Through an analysis informed by the ideas of Basil Bernstein and Aristotle the authors propose that phronesis or the ability to deliberate well should be an intrinsic part of a democratic education As a number of vocational and academic disciplines require deliberation and the ability to draw on knowledge character and experience it is essential that no student feels their experience puts them at a disadvantage The authors argue that democratic education should allow each participant to feel enhanced included and able to participate in order to create a constructive and reciprocal dialogue This work will be of value to students and scholars interested in democratic education the experiences of non traditional students and the sociology of education *Universities in Transition* Heather Brook, 2014-12 Universities are social universes in their own right They are the site of multiple complex and diverse social relations identities communities knowledges and practices At the heart of this book are people enrolling at university for the first time and entering into the broad variety of social relations and contexts entailed in their coming to know at of and through university For some time now the terms transition to university and first year experience have been at the centre of discussion and discourse at and about Australian universities For those university administrators researchers and teachers involved this focus has been framed by a number of interlinked factors ranging from social justice concerns to the hard economic realities confronting the contemporary corporatising university In the midst of changing global economic conditions affecting the international student market as well as shifting domestic politics surrounding university funding the equation of dollars with student numbers has remained a constant and has kept universities attention on the current three Rs of higher education recruitment retention reward and in particular on the critical phase of students entry into the tertiary institution environment By recasting the transition to university as simultaneously and necessarily entailing a transition of university indeed universities and of their many and

varied constitutive relations structures and practices the contributors to this book seek to reconceptualise the first year experience in terms of multiple and dynamic processes of dialogue and exchange amongst all participants They interrogate taken for granted understandings of what the university is and consider what universities might yet become

Higher Education and Student Mobilities from the Global South Carola Bauschke-Urban, Dorina Dedgioni, 2025-03-06 This interdisciplinary collection explores student mobilities from the Global South focusing on how class ethnicity and gender influence decisions experiences and outcomes in studying abroad Featuring post colonial perspectives from Brazil Indonesia Ghana and India the collection highlights the unique challenges and opportunities faced by these students It includes personal narratives that add a qualitative dimension illustrating the individual agency and resilience of international students The role of educational institutions and policies in shaping mobility is also addressed including a discussion of how universities and governments create opportunities or barriers Overall this collection provides valuable insights into the interplay of class ethnicity and gender in shaping educational trajectories from the Global South By centering student perspectives it examines national transnational and institutional factors that either promote or inhibit mobility It will be of interest to students lecturers researchers ministries and NGOs working on higher education research and migration studies

Vocational Education and Training in Times of Economic Crisis Matthias Pilz, 2016-12-20 This book brings together a broad range of approaches and methodologies relevant to international comparative vocational education and training VET Revealing how youth in transition is affected by economic crises it provides essential insights into the strengths and weaknesses of the various systems and prospects of VET in contexts ranging from North America to Europe e g Spain Germany or the UK to Asia such as China Thailand and India Though each country examined in this volume is affected by the economic crisis in a different way the effects are especially apparent for the young generation In many countries the youth unemployment rate is still very high and the job perspectives for young people are often limited at best The contributions in this volume demonstrate that VET alone cannot solve these problems but can be used to support a smooth transition from school to work If the quality of VET is high and the status and job expectations are good VET can help to fill the skills gap especially at the intermediate skill level Furthermore VET can also offer a realistic alternative to the university track for young people in many countries
