

VOICES OF SILENCE

Lives of the Trappists Today

FRANK BIANCO

In 1948 Thomas Merton introduced Americans to the mysterious inner life of twentieth-century Trappist monks who live according to the fifth-century rule of St. Benedict. Merton's meditations reached outward from the heart of a small, cloistered community in Kentucky to those rushing about in a hectic, materialistic society. But Merton's eloquence was fettered, not only by the traditional reticence of monastic authorities, but also by his own years of habituation to the very details of monastic life.

Now, Frank Bianco, with the sharp eyes and inquisitive nature of a photojournalist, has sensitively illuminated the mysterious personal terrain that Trappist monks have always held

BOOK JACKET

Fraternal Relations in Monasteries Mikaela Sundberg,2022-10-31 This is a book about the tensions between Christian ideals of love and the concrete realities of everyday monastic life Based on a study of Cistercian monasteries in France it develops a novel conceptualization of fraternal relations and addresses how monks and nuns strive to accomplish such relationships within their communities By focusing on the main interaction contexts of monasteries as a form of voluntary total institution the book shows how attempts to generate collective solidarity relate to other members as equals and avoid preferential relations conflict with practices of everyday life Although fraternal ideals are similar for monks and nuns the analysis reveals significant gender differences regarding the legitimacy of different forms of interaction and relationships as well as how to control them The book appeals to readers with an interest in total institutions sociology of religion sociology of friendship sociology of intimacy and also to scholars with an interest in theology of love and practical

theology **An Introduction to the Desert Fathers** Jason Byassee, 2007-08-15 The desert fathers wanted to get away from a church co-opted by empire and a Christian faith grown cold and listless. They retreated to the desert to do battle against demons and against their own worst desires. They had no intention of being famous yet ironically their Sayings have inspired millions of imitators over the centuries. This guide is meant to accompany a reading of the Sayings of the Desert Fathers in hopes that readers with lives quite different than those third and fourth century dwellers of the Egyptian desert might nevertheless come to imitate their lives of poverty, chastity, and obedience and more importantly that readers might grow more imaginative and passionate in their following of the same Lord.

Organization outside Organizations Göran Ahrne, Nils Brunsson, 2019-07-18 The book explores how various social settings are partially organized even when they do not form part of a formal organization. It also shows how even formal organizations may be only partially organized. Professors Göran Ahrne and Nils Brunsson first established the concept of partial organization in 2011 and in doing so opened up a groundbreaking new field of organizational analysis. An academic community has since developed around the concept and Ahrne and Brunsson have edited this collection to reflect the current state of inquiry in this burgeoning subject and to set an agenda for future research. Its chapters explain how organization is a salient feature in many social settings including markets, interfirm networks, social movements, criminal gangs, internet communication, and family life. Organization theory is much more relevant for the understanding of social processes than previously assumed. This book provides a new understanding of many social phenomena and opens up new fields for organizational analysis.

Good News Clifford G. Christians, John P. Ferré, P. Mark Fackler, 1993-06-03 Mass media ethics and the classical liberal ideal of the autonomous individual are historically linked and professionally dominant yet the authors of this work feel this is intrinsically flawed. They show how recent research in philosophy and social science together with a longer tradition in theological inquiry insist that community, mutuality, and relationship are fundamental to a full concept of personhood. The authors argue that persons in community provides a more defensible grounding for journalists' professional moral decision making in crucial areas such as truth-telling, privacy, organizational culture, and balanced coverage. With numerous examples drawn from life as well as from theory, this book will interest journalists, editors, and professionals in media management as well as students and scholars of media ethics, reporting, and media law.

Another World William Claassen, 2007-10-15 *Another World* explores day to day life in a small Trappist monastery tucked away in the Ozark foothills. Interweaving memoir with conversations with the monks, observations of community life, and relationships with other visitors, Claassen provides a window into contemporary monastic life. Each chapter describes a day in the monastery. The reading experience is like spending time away from the world in a real community that is very human and gently inspiring. Eighteen black and white photos by the author further evoke the experience.
