Voices Of The Movement The Anti Elite Series :

The Changing Voice of the Anti-Abortion Movement Paul Saurette, Kelly Gordon, 2016-04-06 When journalists academics and politicians describe the North American anti abortion movement they often describe a campaign that is male dominated aggressive and even violent in its tactics religious in motivation anti women in tone and fetal centric in arguments and rhetoric Are they correct In *The Changing Voice of the Anti Abortion Movement* Paul Saurette and Kelly Gordon suggest that the reality is far more complicated particularly in Canada Today anti abortion activism increasingly presents itself as pro women using female spokespersons adopting medical and scientific language to claim that abortion harms women and employing a wide range of more subtle framing and narrative rhetorical tactics that use traditionally progressive themes to present the anti abortion position as more feminist than pro choice feminism Following a succinct but comprehensive overview of the two hundred year history of North American debate and legislation on abortion Saurette and Gordon present the results of their systematic five year quantitative and qualitative discourse analysis supplemented by extensive first person observations and outline the implications that flow from these findings Their discoveries are a challenge to our current assumptions about the abortion debate today and their conclusions will be compelling for both scholars and activists alike

Voice and Vote Stephanie McNulty, 2011-05-04 This book investigates a recent Peruvian decentralization reform that is considered to be one of the most participatory in Latin America

Anti-Neoliberal Populisms in Comparative Perspective Enrico Padoan, 2020-11-15 In this book Enrico Padoan proposes an original middle range theory to explain the emergence and the internal organisation of anti neoliberal populist parties in Latin America and Southern Europe and the relationships between these parties and the organised working class Padoan begins by tracing the diverging evolution of the electoral Lefts in Latin America and Southern Europe in the aftermath of economic crises and during the implementation of austerity measures within many of these nations A causal typology for interpreting the possible outcomes of the realignments within the electoral Lefts is proposed Hereafter the volume features five empirical chapters four of which focus on the rise of anti neoliberal populist parties in Bolivia Argentina Spain and Italy while a fifth offers an analysis on four shadow cases in Venezuela Uruguay Portugal and Greece Scholars of Latin America and Comparative Politics will find *Anti Neoliberal Populisms in Comparative Perspective* a highly valuable resource offering a distinctive perspective on the impact of different populisms on party systems and on the challenges that such populisms posed to syndicalism and to traditional left of centre parties

Voice of the People Corey Gibson, 2015-06-16 Though Henderson is a major figure in Scottish cultural history his reputation is largely maintained in anecdote and song This study describes the ambitious moral intellectual programme to reintegrate the artist in society at the heart of all of his endeavors

Media Relations of the Anti-War Movement Ian Taylor, 2017-01-06 In this book Ian Taylor examines how a social movement the anti Iraq War movement in the UK engaged with the media as a part of their campaigning against the invasion and occupation of Iraq Moving beyond content analysis to

draw upon interviews with locally based journalists and activists Taylor examines how locally based anti war groups engaged with their local press as well as how those groups were reported on by the local press in their respective areas In the process of exploring these ideas the book takes on questions like How did local journalists assess the legitimacy of the anti war movement How why and to what extent did opponents of the war pursue local press coverage What bearing did the social composition of the movement have on the way they set about engaging with the media How did the local press handle the controversy surrounding opposition to military action against Iraq Media Relations of the Anti War Movement makes a unique contribution to research on the interactions between social movements and the media and plugs a major gap in the literature on the Iraq War and the media *The Great Church Crisis and the End of English Erastianism, 1898-1906*

Bethany Kilcrease,2016-12-08 This book traces the history of the Church Crisis a conflict between the Protestant and Anglo Catholic Ritualist parties within the Church of England between 1898 and 1906 During this period increasing numbers of Britons embraced Anglo Catholicism and even converted to Roman Catholicism Consequent fears that Catholicism was undermining the Protestant heritage of the established church led to a moral panic The Crisis led to a temporary revival of Erastianism as protestant groups sought to stamp out Catholicism within the established church through legislation whilst Anglo Catholics who valued ecclesiastical autonomy opposed any such attempts The eventual victory of forces in favor of greater ecclesiastical autonomy ended parliamentary attempts to control church practice sounding the death knell of Erastianism Despite increased acknowledgment that religious concerns remained deep seated around the turn of the century historians have failed to recognize that this period witnessed a high point in Protestant Catholic antagonism and a shift in the relationship between the established church and Parliament Parliament s increasing unwillingness to address ecclesiastical concerns in this period was not an example advancing political secularity Rather Parliament s increased reluctance to engage with the Church of England illustrates the triumph of an anti Erastian conception of church state relations *The Right*

against Rights in Latin America Leigh A. Payne,Julia Zulver,Simón Escoffier,2023-03-02 The book examines a new wave of anti rights movements in Latin America devoted to blocking rolling back and reversing the rights of historically excluded groups *Base Towns* Claudia Junghyun Kim,2023-01-10 In *Base Towns* Claudia Junghyun Kim addresses how local

populations respond to the U S military bases they host by investigating the contentious politics surrounding twenty U S bases across Korea and Japan Drawing on fieldwork interviews participant observation and protest event data from 2000 2015 Kim shows that activists in base towns successfully build broad based anti base movements when they take advantage of quotidian disruption adopt culturally resonant movement frames and ally with local political elites In examining activist actions strategies and dilemmas this book sheds light on marginalized actors in domestic and international politics who sometimes manage to complicate the operations of America s military behemoth **Education and Elitism** Conrad

Hughes,2021-04-26 *Education and Elitism* discusses polemical debates around privilege private schools elitist universities

equal access to education and underlying notions of fairness The overarching question that runs through the book is about the future of education worldwide how can schools and universities tread the tightrope between access and quality This book investigates the philosophical positions that characterize elitism and anti elitism to establish three types meritocratic plutocratic and cultural These types of elitism and their counter positions are used as reference points throughout the book s analysis of successive educational themes The conclusion leads to suggestions that bridge the worlds of elitism and egalitarianism worldwide The book covers critical questions related to the sociology and philosophy of education with particular focus on contemporary disruptors to education such as the COVID 19 pandemic and protest movements for social justice With an attempt to offer readers an objective overview this book will be an excellent compendium for students academics and researchers of the sociology of education education policy and comparative education It will also be of interest to school leaders university provosts and professionals working in curriculum design
