Veiled Warriors Christine E. Hallett,2014-08-28 Caring for the wounded of the First World War was tough and challenging work demanding extensive knowledge technical skill and high levels of commitment Although allied nurses were admired in their own time for their altruism and courage their image was distorted by the lens of popular mythology They came to be seen as self sacrificing heroines romantic foils to the male combatant and doctors handmaidens rather than being appreciated as trained professionals performing significant work in their own right Christine Hallett challenges these myths to reveal the true story of allied nursing in the First World War one which is both more complex and more absorbing Drawing upon evidence from archives across the world *Veiled Warriors* offers a compelling account of nurses wartime experiences and a clear appraisal of their work and its contribution to the allied cause between 1914 and 1918 on both the Western and the Eastern Fronts Nurses believed they were involved in a multi layered battle Primarily they were fighting for the lives of their patients on the second battlefield of casualty clearing stations transports and military hospitals Beyond this they were an integral component of the allied military machine putting their own lives at risk in field hospitals close to the front lines on board hospital ships vulnerable to enemy submarine attack and in base hospitals subject to heavy bombardment As working women in a sometimes hostile chauvinistic world allied nurses were also fighting to gain recognition for their profession and political rights for their sex For them military nursing might help to win not only the war itself but also a more powerful voice for women in the post war world **Journal of the American Medical Association** American Medical Association,1918

Mulheron,Albert Brown Lyons,1918 **Long Island Medical Journal** ,1918 **Nurses of Passchendaele** Christine E. Hallett,2017-11-30 The Ypres Salient saw some of the bitterest fighting of the First World War The once fertile fields of Flanders were turned into a quagmire through which men fought for four years In casualty clearing stations on ambulance trains and barges and at base hospitals near the French and Belgian coasts nurses of many nations cared for these traumatized and damaged men Drawing on letters diaries and personal accounts from archives all over the world *The Nurses of Passchendaele* tells their stories faithfully recounting their

experiences behind the Ypres Salient in one of the most intense and prolonged casualty evacuation processes in the history of modern warfare Nurses themselves came under shellfire and were vulnerable to aerial bombardment and some were killed or injured while on active service Alongside an analysis of the intricacies of their practice the book traces the personal stories of some of these extraordinary women revealing the courage resilience and compassion with which they did their work
