War Of The World Views:

War of the Worldviews Ham Menton, Bodie Hodge, 2005 There is a war being fought in our culture a war between two worldviews One view is based on a biblical understanding of history the other on pure naturalism We witness the battles and skirmishes in our schools our courts and our homes All around us are casualties of the warfare taken captive by an evolutionary philosophy

War of the World Views Ken Ham, Bodie Hodge, Carl Kerby, Dr. Jason Lisle, Stacia McKeever, Dr. David Menton, 2006-01-01 What do aliens dinosaurs and gay marriage have in common They are all part of the culture war a war between two worldviews One view is based on a biblical understanding of history the other on pure naturalism Our educational institutions and the media are on the frontlines of evolutionizing our culture From Biology 101 to World History from The Learning Channel to Sponge Bob subtle and not so subtle evolutionary messages bombard us We witness the battles and skirmishes of this war in our schools our courts and our homes All around us are casualties of the warfare Christians taken captive by an evolutionary philosophy The idea of the big bang and millions of years has duped many Christians and its effects include a deficient gospel and subjective morality How are we to respond when we hear of the latest argument for evolution How can we prepare our children to face the evolutionary indoctrination of our public schools and universities What are we to make of Christian organizations who teach the big bang and millions of years How can we build a truly biblical worldview In this powerful book you will find ammunition for the war answers to some of the most common arguments for evolution analyses of Christian compromise positions and a call for return to the true biblical authority

War of the Worldviews Deepak Chopra, M.D., Leonard Mlodinow, 2012-10-02 Two bestselling authors first met in a televised Caltech debate on the future of God one an articulate advocate for spirituality the other a prominent physicist This remarkable book is the product of that serendipitous encounter and the contentious but respectful clash of worldviews that grew along with their friendship In *War of the Worldviews* these two great thinkers battle over the cosmos evolution and life the human brain and God probing the fundamental questions that define the human experience How did the universe emerge What is the nature of time What is life Did Darwin go wrong What makes us human What is the connection between mind and brain Is God an illusion This extraordinary book will fascinate millions of readers of science and spirituality alike as well as anyone who has ever asked themselves What does it mean that I am alive

Worldviews and Theories of International Relations J. Gabriel, 1994-03-15 This book should be of interest to all students of international politics and of course especially to those interested in theory Kenneth N Waltz Ford Professor of Political Science University of California This book reviews classical and contemporary theories of international relations and it does so on the basis of four interrelated worldviews Worldviews are simple but basic devices they are characterized on the one hand by the duality of war and peace and on the other hand by the duality of anarchy and hierarchy Worldviews permit the isolation of concepts central to describing and analyzing international relations and are superior to such well known categories as the billiard ball
