War And Society In Britain 1899 1948 Seminar Studies:

War and Society in Britain 1899-1948 Rex Pope, 2014-01-14 Rex Pope reassesses the impact of war on the political and social structures of British society during the first half of the twentieth century and introduces the reader to current debates about the relationship between war and change

Evidence, History and the Great War Gail Braybon, 2004-12-01 In the English speaking world the Great War maintains a tenacious grip on the public imagination and also continues to draw historians to an event which has been interpreted variously as a symbol of modernity the midwife to the twentieth century and an agent of social change Although much common knowledge about the war and its aftermath has included myth simplification and generalisation this has often been accepted uncritically by popular and academic writers alike While Britain may have suffered a surfeit of war books many telling much the same story there is far less written about the impact of the Great War in other combatant nations Its history was long suppressed in both fascist Italy and the communist Soviet Union only recently have historians of Russia begun to examine a conflict which killed maimed and displaced so many millions Even in France and Germany the experience of 1914 18 has often been overshadowed by the Second World War The war's social history is now ripe for reassessment and revision The essays in this volume incorporate a European perspective engage with the historiography of the war and consider how the primary textual oral and pictorial evidence has been used or abused Subjects include the politics of shellshock the impact of war on women the plight of refugees food distribution in Berlin and portrait photography all of which illuminate key debates in war history

Poverty and Poor Law Reform in Britain David Englander, 1998 The Poor Law Amendment Act of 1834 is one of the most important pieces of social legislation ever enacted Its principles and the workhouse system dominated attitudes to welfare provision for the next 80 years This new Seminar Study explores the changing ideas to poverty over this period and assesses current debates on Victorian attitudes to the poor David Englander reviews the old system of poor relief he considers how the New Poor Law was enacted and received and looks at how it worked in practice The chapter on the Scottish experience will be particularly welcomed as will Dr Englander's discussion of the place of the Poor Law within British history

The Second World War in Europe S. P. Mackenzie, 1999 This introductory student guide to World War 2 provides a clear narrative of events and detailed analysis and includes sections on the strategic ideological economic and social dimensions of the war

The Inter-war Crisis 1919-1939 R. J. Overy, 1994 This Seminar Study takes the reader through the tumultuous uncertain years of the inter war period and examines why in Italy Spain Germany the Baltic States and the Balkans dictatorships came to supplant democracy as the world slid into war once again

The First World War Stuart Robson, 1998 Examines the historical and cultural events preceding during and following the First World War

Whitaker's Book List, 1991

Libraries of Light Alistair Black, 2016-10-04 For the first hundred years or so of their history public libraries in Britain were built in an array of revivalist architectural styles This backward looking tradition was decisively broken in the 1960s as many new libraries were

erected up and down the country In this new Routledge book Alistair Black argues that the architectural modernism of the post war years was symptomatic of the age s spirit of renewal In the 1960s public libraries truly became libraries of light and Black further explains how this phrase not only describes the shining new library designs with their open plan decluttered Scandinavian inspired designs but also serves as a metaphor for the public library s role as a beacon of social egalitarianism and cultural universalism A sequel to Books Buildings and Social Engineering 2009 Black s new book takes his fascinating story of the design of British public libraries into the era of architectural modernism *The Origins of the Cold War, 1941-1949* Martin McCauley,1995 The Origins of the Cold War Third Edition covers the formative years of the extraordinary struggle between the two superpowers the Soviet Union and the United States In a clear and concise manner Martin McCauley explains how the Cold War originated and developed and unravels some of the complex issues that gave rise to the Cold War BOOK JACKET **The Italian Risorgimento** Martin Clark,1998 This new Seminar Study will be welcomed by anyone studying the complexities of the Italian Risorgimento for the first time The aim is to provide students unfamiliar with the subject with an up to date account of what happened and why in as brief a span as possible Throughout the broader European context is emphasised and the subject is related to today s issues The author argues that despite appearances the Risorgimento was not a national insurrection and that any national sentiment was limited to a small educated urban minority

The Attlee Governments, 1945-1951 Kevin Jefferys,1992 In 1945 the Labour Government set about a major transformation of British society Dr Jefferys s analyses the main changes and relates them to debates within the Labour party on the nature of its aims and how best to achieve them *The Weimar Republic* John Hiden,1996 This text argues that the Weimar Republic was not doomed from its conception at the Treaty of Versailles and therefore it was a complex set of factors which allowed Hitler to rise to power This edition features an updated and extended bibliography and rev **The Scramble for Africa** Muriel Evelyn Chamberlain,1999 This study contrasts the Victorian image of Africa with what has been revealed by late 20th century research on the history of Africa In addition to the politics and diplomacy of Europe it gives equal attention to African history **The Renaissance** Alison Brown,1999 A study of the Renaissance considering the influence of classical ideas on Italy with a focus on the central role of Florence in the movement *The Glorious Revolution* John Miller,1997 Discusses the causes and effects of the revolution which assured the failure of Catholic absolutism and assured the continuation of parliamentary government and the rule of law in England **Whitaker's Books in Print** ,1998 *The Vietnam War* Mitchell K. Hall,2000 This is a concise and accessible introduction to the Vietnam war Books in this Seminar Studies in History series bridge the gap between textbook and specialist survey and consists of a brief Introduction and or Background to the subject valuable in bringing the reader up to speed on the area being examined followed by a substantial and authoritative section of Analysis focusing on the main themes and issues There is a succinct Assessment of the subject a generous selection of Documents and a detailed bibliography Begins by exploring the origins of the conflict and then focuses

on the war itself taking the story through to 1975 and North Vietnam's victory MARKET For those interested in US History the Vietnam War or Southeast Asian history Napoleon and Europe D. G. Wright, 1984 This study provides both an introduction to and an overview of Napoleon's impact on France and Europe It explores his origins and personality assesses his contribution to the crucial changes in the conduct of warfare during this period and examines the reasons for the ultimate defeat of his armies and the collapse of the Empire It concludes with a brief study of the Napoleonic legend and the historical controversies which surround it *Britain Before the Reform Act* Eric J. Evans, 1989 The birth of a new age is how Eric Evans describes the importance of the period 1815-1832 His study considers the tremendous forces of change operating after Britain's industrialisation **The British National Bibliography** Arthur James Wells, 2001
