War Journalism Moguls Whistleblowers Freedom:

The War on Journalism Andrew Fowler, 2015-08-03 Racked by public distrust cowed by government surveillance and powerful corporations the mainstream media is in crisis Newspapers which flourished for centuries and TV networks that once ruled the world are failing Andrew Fowler's *The War on Journalism* tells how the media helped write its own epitaph Drawing on personal interviews and his background in investigative journalism Fowler traces the decline of the culture of truthbringing It's a tale of sackings cutbacks and self censoring editors deals threats and government standover tactics Alongside tabloids like the News of the World notorious for phone hacking giants like the BBC Australia's ABC The Washington Post and The New York Times The Guardian and Le Monde come under fire When first WikiLeaks and then Edward Snowden blew the whistle they did more than reveal explosive secrets they undermined establishment or insider media where governments leaked information to favoured reporters in return for sympathetic coverage Along with lawyer turned gonzo journalist Glenn Greenwald these outsiders challenged everyone from The Guardian on the left to Rupert Murdoch's global media empire on the right The establishment fought back with draconian laws to silence the new journalism From the UK to the US to Australia governments harass journalists threatening to jail both whistleblowers and those who publish their leaks Staying one move ahead of post 9 11 intelligence agencies is fraught Every cell phone is a mobile tracking device The public's right to know is a battleground At stake are the kind of journalism that survives and the kind of world in which we will live democratic or dominated by executive government unchallenged and unaccountable spying on its own citizens and producing fraudulent arguments to fight horrific wars The internet which promised people easy access to information and each other is now being used to produce a dark future This is a defining moment not just for journalism but for us all

The War on Journalism Andrew John Fowler, 2017 *The War on Journalism* is a harrowing story of megalomaniac press barons conspiracies sackings cutbacks and self censoring journalists cowed by what legendary investigative reporter Seymour Hersh called chicken shit editors When first Chelsea Manning and then Edward Snowden blew the whistle they did more than reveal extraordinary secrets they struck the first solid blows against centuries old traditions where journalism was played by agreed rules Governments leaked secret information to their favorite journalists in return for sympathetic coverage Now racked by public distrust the cash starved mainstream media is struggling to survive Newspapers which flourished for hundreds of years and TV networks that once ruled the world are in serious decline Andrew Fowler gives the inside story on how and why the media helped write its own epitaph

Hideout In the Apocalypse John Stapleton, 2016-11-10 Hideout in the Apocalypse is about surveillance and the crushing of Australia's larrikin culture In the last three years the Australian government has prosecuted the greatest assault on freedom of speech in the nation's history The government knew from international research that when it introduced the panopticon universal surveillance into Australia it would have a devastating impact on the culture When people know they are being watched they behave differently Dissent is stifled conformity becomes the norm This is the so called chilling effect Hideout in the Apocalypse in the great tradition of The Lucky Country takes Australia's temperature half a century on from Donald Horne's classic cautionary tale Now the future has arrived Forced by a plethora of new laws targeting journalists to use novelistic techniques in his latest book veteran news reporter John Stapleton confirms the old adage truth is stranger than fiction Hideout in the Apocalypse takes up the adventures of retired news reporter Old Alex first encountered in the book's predecessor Terror in Australia Workers Paradise Lost But as befits the times this book is more fantastical intimate and politically acerbic in its portrait of his beloved country Alex believes he has been under abusive levels of government surveillance since writing a book called Terror in Australia and as a natural empath can hear the thoughts of the surveillance teams on his track the so called Watchers on the Watch Alex also believes he is a cluster soul sent with others of his kind to help save the Earth from an impending apocalypse and has the capacity to channel some of history's greatest writers Australia might have the worst anti freedom of speech laws in the Western world but how can you sue a character like that Stapleton's essential theme a place which should have been safe from an impending apocalypse the quagmire of religious wars enveloping the Middle East is not safe at all Ideas are contagious and the Australian government is afraid of them Australia is a democracy in name only The war on terror has become a war on the people's right to know justifying a massive expansion of state power Alex's swirling head lifelong fascination with sociology literature and journalism and his deep distress over the fate of the Great Southern Land makes him the perfect character to tell a story which urgently needs to be told

War Reporters Under Threat Chris Paterson,2014-06-20 War Reporters Under Threat describes the threat of violence facing war reporters from the United States government and some of its closest allies Chris Paterson argues that what should have been the lesson for the press following the invasion of Iraq that they will be treated instrumentally by the US government has been mostly ignored As a result even nominally democratic states cannot be counted upon to protect journalists in conflict and urgent reform of legal protections for journalists is required War Reporters Under Threat combines critical scholarship with original investigation to assess the impact of the US government s obsession with information control and protection of its own troops While the press military relationship has been well researched this book is the first to elaborate the US government threat to journalists

Killing the Messenger Herbert N. Foerstel,2006-03-30 Killing the Messenger reveals the dangerous new face of war and journalism Covering armed conflicts has always been dangerous business but in the past press heroes like Ernie Pyle and Edward R Murrow faced only the danger of random bullets or bombs Today s war correspondent is actually in the cross hairs a target of combatants on all sides of conflicts In their own words correspondents describe the new dangers they face and attempt to explain why they are targeted Killing the Messenger reveals the dangerous new face of war and journalism Covering armed conflicts has always been dangerous business but in the past press heroes like Ernie Pyle and Edward R Murrow faced only the danger of random bullets or bombs Today s war correspondent is actually in the cross hairs a target of combatants on all sides of conflicts In this book correspondents describe the new dangers they face and attempt to explain why they are targeted Is it simply that modern combatants are more brutal than in the past or has journalism changed making correspondents players rather than observers in modern warfare Extended interviews with correspondents who have been abducted and tortured during Middle East conflicts shed chilling light on this new face of war These journalists who have paid dearly to bring first hand images of war to the public offer some surprising insights into the nature

and motivation of their kidnappers and the reasons why reporters are targeted They display no self pity and little inclination to blame anyone other than themselves At the same time they are candid in describing the violence within Iraq and without Ways to reduce the risks for reporters are discussed but these editors and correspondents suggest that short of withdrawing into isolated and protected enclaves they may be facing an indefinite escalation of violence against journalists

Guilty of Journalism Kevin Gosztola, 2023-03-07 From an acclaimed independent journalist this carefully documented analysis of the government's case against Julian Assange and its implications for press freedom acts as a crucial compelling guidebook to Assange's upcoming trial Guilty of Journalism is a joint production of The Censored Press and Seven Stories Press The legal action against Julian Assange is poised to culminate in a trial in the United States in 2023 and this book will help the public understand the proceedings The establishment media's coverage of WikiLeaks founder Julian Assange's extradition case has focused on his deteriorating health and what CBS News called his secret family but most of this coverage failed to detail the complex issues at stake against Assange Guilty of Journalism outlines how WikiLeaks exposed the reality of American wars the United States government's unprecedented indictment against Assange as a publisher and the media's role in persuading the public to shoot the messenger This new book by Kevin Gosztola who has spent the last decade covering Assange WikiLeaks and the wider war on whistleblowers tells the full story based on testimony from dozens of witnesses It examines abuses of power by the CIA and the FBI including a spying operation that targeted Assange's family lawyers and doctors Guilty of Journalism offers a balanced and comprehensive perspective on all the events leading up to what press freedom advocates have called the trial of the century

The First Casualty Phillip Knightley, 2004-10-05 The first casualty when war comes is truth said American Senator Hiram Johnson in 1917 In his gripping now classic history of war journalism Phillip Knightley shows just how right Johnson was From William Howard Russell who described the appalling conditions of the Crimean War in the Times of London to the ranks of reporters photographers and cameramen who captured the realities of war in Vietnam The First Casualty tells a fascinating story of heroism and collusion censorship and suppression Since Vietnam Knightley reveals governments have become much more adept at managing the media as highlighted in chapters on the Falklands War the Gulf War and the conflict between NATO and Serbia over Kosovo And in a new chapter on the post 9 11 wars in Afghanistan and Iraq Knightley details even greater degrees of government manipulation and media complicity as evidenced by the embedding of reporters in military units and the uncritical openly patriotic coverage of these conflicts The age of the war correspondent as hero he concludes appears to be over Fully updated The First Casualty remains required reading for anyone concerned about freedom of the press journalistic responsibility and the nature of modern warfare

Whistleblowing, WikiLeaks Renata Avila,Sarah Harrison,Angela Richter,2018-02-08 The most controversial activist organization of the 21st century WikiLeaks has attracted strong divergent opinions from across the political spectrum Lauded by its supporters for its indispensable role in holding governments corporations and human rights abusers to account its advocates and journalists have been excoriated by opponents as traitors threats to legitimate governments and misogynists Yet so much media attention is focused upon founder Julian Assange and his ongoing confinement in the Ecuadorian embassy in London that the broader dimensions of WikiLeaks are rarely aired Especially critical in these omissions is the role of women both in the organization and the more general struggle for information freedom Women

Whistleblowing WikiLeaks presents a conversation between three extraordinary advocates who have been at the forefront of such activity acclaimed journalist and human rights advocate Sarah Harrison Croatian German theater director activist and author Angela Richter and Renata Avila a celebrated Guatemalan human rights lawyer and digital rights expert Ranging widely from the dishonesty of the mainstream media and its contrasting treatment of Edward Snowden and Chelsea Manning to the terrifying monopolization of personal data under tech behemoths such as Facebook and Google this book is a crucial intervention in the ongoing debate around digital activism

Freedom Next Time John Pilger,2011-03-08 John Pilger is one of the world s pre eminent investigative journalists and documentary film makers His best selling books of reportage which include *Heroes and Hidden Voices* have in the words of Noam Chomsky been a beacon of light in often dark times In *Freedom Next Time* he looks at five countries in each of which a long struggle for freedom has taken place in each the people having shed blood and dreams are still waiting In Afghanistan Iraq and South Africa there has been the promise of hope and even an official freedom but the reality of these divided societies is that they are still waiting for real freedom In Palestine the cycle of violence continues with no resolution in sight And the island of Diego Garcia in the Indian Ocean is a microcosm of the ruthlessness of great powers The island was sold by the British to the American military in the 1960s The indigenous population descended from slaves were forcibly removed to the slums of Port Louis in Mauritius They have continued to fight for the return of their homeland ever since three years ago the High Court granted them the right of return but this has subsequently been blocked The island remains the US s third biggest military base a base from which they are able to launch attacks against the Middle East Once again John Pilger gives a voice to the people living through these momentous times and in gripping detail shows us the lives behind the headlines
