David Brumble, 2018-04-10

*Street-Gang and Tribal-Warrior Autobiographies* is a study of the autobiographies of tribal warrior cultures in North America the Amazon the Orinoco Basin the highlands of Luzon the island of Alor of headhunters women Apaches New Guinea big men and a Yanomami captive The book also discusses tribal warrior autobiographies closer to home Colton Simpson's Inside the Crips Mona Ruiz's Two Badges Nathan McCall's Makes Me Wanna Holler and Sanyika Shakur's Monster autobiographies that remember gangbanging at a time when there were close to 500 gang related homicides a year in Los Angeles a time when gangbangers were so alienated from the larger society that they reinvented something very similar to the tribal warrior cultures right in the asphalt heart of American cities Grisly probing and resonant with the voices of generations of fighters *Street Gang and Tribal Warrior Autobiographies* is an unsettling work of cross disciplinary scholarship **The Warrior's Camera** Stephen Prince, 1999-11-14

The Japanese film director Akira Kurosawa who died at the age of 88 has been internationally acclaimed as a giant of world cinema *Rashomon* which won both the Venice Film Festival's grand prize and an Academy Award for best foreign language film helped ignite Western interest in the Japanese cinema *Seven Samurai* and *Yojimbo* remain enormously popular both in Japan and abroad In this newly revised and expanded edition of his study of Kurosawa's films Stephen Prince provides two new chapters that examine Kurosawa's remaining films placing him in the context of cinema history Prince also discusses how Kurosawa furnished a template for some well known Hollywood directors including Martin Scorsese Steven Spielberg and George Lucas Providing a new and comprehensive look at this master filmmaker *The Warrior's Camera* probes the complex visual structure of Kurosawa's work The book shows how Kurosawa attempted to symbolize on film a course of national development for post war Japan and it traces the ways that he tied his social visions to a dynamic system of visual and

narrative forms The author analyzes Kurosawa's entire career and places the films in context by drawing on the director's autobiography a fascinating work that presents Kurosawa as a Kurosawa character and the story of his life as the kind of spiritual odyssey witnessed so often in his films After examining the development of Kurosawa's visual style in his early work *The Warrior's Camera* explains how he used this style in subsequent films to forge a politically committed model of filmmaking It then demonstrates how the collapse of Kurosawa's efforts to participate as a filmmaker in the tasks of social reconstruction led to the very different cinematic style evident in his most recent films works of pessimism that view the world as resistant to change *Feminism and Global Chineseness: The Cultural Production of Controversial Women Authors*

Aijun Zhu, 2007 This book deconstructs the controversy of globally located Chinese women authors including Maxine Hong Kingston America Wei Hui Mainland China Li Ang Taiwan and Li Bihua Hong Kong It vividly shows how these authors are trapped in a dilemma between feminism nationalism and neocolonialism complicated by the powerful influences of global popular culture This book not only engages in the much debated major issues such as gender nation narration and globalization but more profoundly it also points out the cultural and political significance of literary and cultural criticism a much neglected area of research The author's detailed examination of Chinese nationalism from the perspectives of gender and globalization shows her sharp awareness of the changing geopolitical mapping of Chineseness Critics of Chinese literature and culture will benefit from this work in this era of social and political changes *The Silent Warrior* Evelyn J. Frazier, Penny G. Hicks, 2008

*The Birth of the FBI* Willard M. Oliver, 2019-07-16 Most people believe the Federal Bureau of Investigation began under J. Edgar Hoover in the 1920s or 1930s Many also naturally assume it was developed for the express purpose of fighting crime However the reality is very different The reality is it began years earlier in 1908 under President Theodore Roosevelt In *The Birth of the FBI* Teddy Roosevelt the Secret Service and the Fight Over America's Premier Law Enforcement Agency Willard Oliver details the political fight that led to the birth of America's premier law enforcement agency Roosevelt was concerned about conservation and one issue he wanted enforced were the fraudulent land deals being perpetrated by many people

including some members of Congress When he began using the Secret Service to investigate these crimes Congress blocked him from doing so The end result of this political spat was Roosevelt s creation of the FBI which heightened the political row between the two branches of government in the final year of Roosevelt s presidency The truth of the matter is the premier law enforcement agency in the United States was actually created because of a political fight between the executive and legislative branches of government The Birth of the FBI reveals the true story behind the birth of the FBI and provides some useful insight into an important part of our American history

**Transnational, National, and Personal Voices** Elisabetta Marino, 2004 The growing heterogeneity of Asian American and Asian diasporic voices has also given rise to variegated theoretical approaches to these literatures This book attempts to encompass both the increasing awareness of diasporic and transnational issues and more traditional analyses of Asian American culture and literature Thus the articles in this collection range from investigations into the politics of literary and cinematic representation to digging into the past through literary archeology or analyzing how consequential bodies can be in recent literature by Asian American and Asian diasporic women writers The book closes with an interview with critic and writer Shirley Lim where she insightfully deals with these transnational national and personal issues Elisabetta Marino is Assistant Professor of English literature at the University of Rome Tor Vergata Her main fields of interest are Asian American and Asian British literature children s literature Italian American literature Bego a Simal is Assistant Professor of English literature at the Universidade da Coru a Spain She has published critical work on both Asian American literature and comparative cross ethnic studies

Racial Ambiguity in Asian American Culture Jennifer Ann Ho, 2015-05-12 The sheer diversity of the Asian American populace makes them an ambiguous racial category Indeed the 2010 U S Census lists twenty four Asian ethnic groups lumping together under one heading people with dramatically different historical backgrounds and cultures In Racial Ambiguity in Asian American Culture Jennifer Ann Ho shines a light on the hybrid and indeterminate aspects of race revealing ambiguity to be paramount to a more nuanced understanding both of race and of what it means to be Asian American Exploring a variety of subjects and cultural artifacts Ho reveals how Asian American subjects evince a deep racial ambiguity that unmoors the concept of race from any fixed or finite understanding For example the book examines the racial ambiguity of Japanese American nisei Yoshiko Nakamura deLeon who during World War II underwent an abrupt transition from being an enemy alien to an assimilating American via the Mixed Marriage Policy of 1942 It looks at the blogs of Korean Taiwanese and Vietnamese Americans who were adopted as children by white American families and have conflicted feelings about their honorary white status And it discusses Tiger Woods the most famous mixed race Asian American whose description of himself as Cablinasian reflecting his background as Black Asian Caucasian and Native American perfectly captures the ambiguity of racial classifications Race is an abstraction that we treat as concrete a construct that reflects only our desires fears and anxieties Jennifer Ho demonstrates in Racial Ambiguity in Asian American Culture that seeing race as ambiguous puts us one step closer to a potential antidote to racism

The Greenwood Encyclopedia of Asian American Literature Guiyou Huang, 2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity. Monumental in scope, this encyclopedia surveys Asian American literature from its origins through 2007. Included are more than 270 alphabetically arranged entries on writers, major works, significant historical events, and important terms and concepts. Thus, the encyclopedia gives special attention to the historical, social, cultural, and legal contexts surrounding Asian American literature and central to the Asian American experience. Each entry is written by an expert contributor and cites works for further reading, and the encyclopedia closes with a selected general bibliography of essential print and electronic resources. While literature students will value this encyclopedia as a guide to writings by Asian Americans, the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds, including Afghans, Chinese, Japanese, Koreans, Filipinos, Iranians, Indians, Vietnamese, Hawaiians, and other Asian Pacific Islanders. The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature. In addition, it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience. **Crossing Oceans** Noella Brada-Williams, Karen Chow, 2004-01-01 With the increasing globalization of culture, American literature has become a significant body of text for classrooms outside of the United States. Bringing together essays from a wide range of scholars in a number of countries, including China, Japan, Korea, Singapore, and the United States, *Crossing Oceans* focuses on strategies for critically reading and teaching American literature, especially ethnic American literature within the Asia Pacific region. This book will be an important tool for scholars and teachers from around the globe who desire fresh perspectives on American literature from a variety of national contexts. The contributors use perspectives dealing with race, feminism, cultural geography, and structures of power as lenses through which to interpret texts and engage students' critical thinking. The collection is *crossing oceans* through the transnational perspectives of the contributors who come from and/or teach at colleges and universities in both Asia and the United States. Many of the essays reveal how narratives of and about ethnic Americans can be used to redefine and reconfigure not only American literary studies but also constructions of Asian and American identities.
