Boyer, 1995 In this sequel to *Political Radicalism in Late Imperial Vienna*, John Boyer picks up the history of the Christian Social movement after founder Karl Lueger's rise to power in Vienna in 1897 and traces its evolution from a group of disparate ward politicians through its maturation into the largest single party in the Austrian parliament by 1907 to its major role in Imperial politics during the First World War. Boyer argues that understanding the unprecedented success that this dissident bourgeois political group

had in transforming the basic tenets of political life is crucial to understanding the history of the Central European state and the ways in which it was slowly undermined by popular electoral politics. The movement's efforts to save the Austrian Empire by trying to create an economically integrated but ethnically pluralistic state are particularly enlightening today in the shadow of ethnic violence in Sarajevo where began the end of the Austrian Empire in 1914. The most comprehensive account of any mass political movement in late nineteenth century Central Europe this two volume work is crucial reading for anyone interested in Hapsburg history, German history or the history of social democracy.

Historical Sketch of the German-English Independent School of Indianapolis Theodore Stein, 1914 *The Cambridge Companion to Popper* Jeremy Shearmur, Geoffrey Stokes, 2016-06-24 Karl Popper was one of the most influential philosophers of the twentieth century. His criticism of induction and his falsifiability criterion of demarcation between science and non science were major contributions to the philosophy of science. Popper's broader philosophy of critical rationalism comprised a distinctive philosophy of social science and political theory. His critique of historicism and advocacy of the open society marked him out as a significant philosopher of freedom and reason. This book sets out the historical and intellectual contexts in which Popper worked and offers an overview and diverse criticisms of his central ideas. The volume brings together contributors with expertise on Popper's work including people personally associated with Popper such as Jarvie, Miller, Musgrave, Petersen and Shearmur, specialists on the topics treated, Bradie Godfrey Smith and Jackson, and scholars with special interests in aspects of Popper's work. Was sind gute Schulen? Teil 1 Klaus Moegling, Gabriel Hund-Göschel, Swantje Hädeler, 2016-08-19 Der erste von vier Teilbänden zur Frage Was sind gute Schulen beinhaltet grundsätzliche und konzeptionelle Überlegungen sowie die durchaus kontroversen Diskussionen zu dieser zentralen Frage nach der Qualität von Schule. Ist eine gute Schule eine Schule in der durchgehend gut unterrichtet wird? Oder ist das Profil, das Atmosphäre, die Rhythmisierung, die Transparenz und das Selbstverständnis einer Schule entscheidend? Was hat Priorität: die Erfüllung gesellschaftlicher Erwartungen oder die Zufriedenheit der Lernenden mit ihrer Schule? Welche Rolle spielen hierbei institutionelle Strukturen sowie das Verhalten der einzelnen schulischen Akteure in diesen Strukturen? Der erste Band versucht diese Fragen zu bearbeiten und zu diskutieren um auf die nächsten drei Teilbände vorzubereiten. *Statistische Monatschrift. Herausgegeben Vom Bureau Der K. K. Statistischen Central-Commission, Etc. Jahrg. 1-21* AUSTRIA. Oesterreichisches Statistisches Zentralamt, 1880. Teaching the Empire Scott O. Moore, 2020-05-15 Teaching the Empire explores how Habsburg Austria utilized education to cultivate the patriotism of its people. Public schools have been a tool for patriotic development in Europe and the United States since their creation in the nineteenth century. On a basic level this civic education taught children about their state while also articulating the common myths, heroes and ideas that could bind society together. For the most part historians have focused

on the development of civic education in nation states like Germany France and the United Kingdom There has been an assumption that the multinational Habsburg Monarchy did not or could not use their public schools for this purpose Teaching the Empire proves this was not the case Through a robust examination of the civic education curriculum used in the schools of Habsburg from 1867 1914 Moore demonstrates that Austrian authorities attempted to forge a layered identity rooted in loyalties to an individual's home province national group and the empire itself Far from seeing nationalism as a zero sum game where increased nationalism decreased loyalty to the state officials felt that patriotism could only be strong if regional and national identities were equally strong The hope was that this layered identity would create a shared sense of belonging among populations that may not share the same cultural or linguistic background Austrian civic education was part of every aspect of school life from classroom lessons to school events This research revises long standing historical notions regarding civic education within Habsburg and exposes the complexity of Austrian identity and civil society deservedly integrating the Habsburg Monarchy into the broader discussion of the role of education in modern society

Intercultural Education and the Transformation of the World Society LIT Verlag, 2024-11-01

Under the heading of Intercultural Education and the Transformation of the World Society, the 2022 Franz Fischer Symposium opened the floor to fruitful discussions. Franz Fischer once stated: "In profection, parents reach out to their children and create a childly world for them." Many of our discussions revolved around this motto. We asked how pedagogy may provide for a childly and future-oriented world. We explored the possibilities of creating pedagogical intercultural spaces and their potential role in mediating between the domains of philosophy, theology, and politics. In accordance with Franz Fischer's thoughts on the concept of conscience, we also asked how such a personal disposition can be mediated.
