Build the Future is based on the course Thiel taught at Stanford University in 2012. It provides entrepreneurs with ideas on creating a successful startup company. This book encourages leaders and entrepreneurs to escape competition, discover untapped opportunities, and shape the future by building truly original ventures. Media, 2022-03-24T22:59:00Z. Please note: This is a companion version, not the original book. Sample Book Insights: 1. The act of creation is singular, as is the moment of creation, and the result is something fresh and strange. Unless American companies invest in the difficult task of creating new things, they will fail in the future. 2. The future should be available to everyone, not just students in Silicon Valley. Zero to One Peter A. Thiel, 2018. 1 NEW YORK TIMES BESTSELLER. If you want to build a better future, you must believe in secrets. The great secret of our time is that there are still uncharted frontiers to explore and new inventions to create. In Zero to One, legendary entrepreneur and investor Peter Thiel shows how we can find singular ways to create those new things. Thiel begins with the contrarian premise that we live in an age of technological stagnation, even if we're too distracted by shiny mobile devices to notice. Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you do something new, you go from 0 to 1. The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. Tomorrow's champions will not win by competing ruthlessly in today's marketplace. They will escape competition altogether because their businesses will be unique. Zero to One presents at once an optimistic view of the future of progress in America and a new way of thinking about innovation; it starts by learning to ask the questions that lead you to find value in unexpected places.
