Zimbabwe Investment Guide 2013:

Law & Investment in Africa Tinahse Kondo, 2021-04-19 Zimbabwe has had a chaotic foreign direct investment FDI regime This has created the need for a detailed volume on the most important developments around the protection and treatment of FDI at not only a domestic level but also at bilateral regional and international levels The author argues that while Zimbabwe has now harmonised previously scattered legislation under the Zimbabwe Investment and Development Agency Act Chapter 14:37 and taken measures to reverse to varying degrees controversial policies such as the land reform programme and the Indigenism and Economic Empowerment Policy scepticism still prevails over the investor friendliness of the FDI regime in Zimbabwe

Zimbabwe Investment and Business Guide Volume 1 Strategic and Practical Information IBP USA, 2013-08 Zimbabwe Investment and Business Guide Strategic and Practical Information

Economic Management in a Hyperinflationary Environment George Kararach, Raphael O. Otieno, 2016 This volume provides a political economy analysis of leadership and economic management in crises in developing economies based on Zimbabwe's experience

Grid-locked African Economic Sovereignty Victor Warikandwa, Artwell Nhemachena, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical

imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions **Evaluation of**

the Zimbabwe Livelihoods and Food Security Programme Food and Agriculture Organization of the United Nations,2022-06-24 This report presents the results of the evaluation of the Zimbabwe Livelihoods and Food Security Programme LFSP GCP ZIM 025 UK implemented by the Food and Agriculture Organization of the United Nations FAO between 2013 and 2021 The programme sought to contribute to poverty reduction by actively addressing the specific constraints that smallholder farmers particularly women faced in raising the productivity of their farms and participating in markets **The Future of Zimbabwe's Agrarian Sector** Grasian Mkodzongi,2022-06-24 This volume reflects on the

recent political developments in Zimbabwe and their current and future impact on the agrarian sector Utilising new empirical data gathered across Zimbabwe the contributors shed light on the liberalisation of agricultural policy after Mugabe Chapters examine how the adoption of neo liberal orthodoxy in agrarian policy making will affect the new agrarian structure looking at issues such as productivity the impact on vulnerable groups changing land tenure arrangements joint ventures and land grabbing Providing a new way of conceptualising Zimbabwe s agrarian futures this book will be of interest to researchers NGOs and policymakers interested in the politics of land and agriculture in Zimbabwe and southern Africa

facing countries Nor does it seek to provide a detailed template for replication across countries this would be impossible given the diversity of country situations Instead each chapter begins with an overview of the specific reform issue lists approaches and experiences from different countries and summarizes the references and good practices to be considered in designing country specific reform actions

Trade in Zimbabwe Richard Newfarmer,Martha Denisse Pierola,2015-05-26

In Zimbabwe trade has been a driver of economic growth rising incomes and progressive empowerment of Zimbabweans through rising standards of living and the promise of better jobs Since 1980 through good years and bad years increases in exports have been positively associated with increases in national income Zimbabwe s location and resource base together with a low cost but relatively well educated labor force have endowed it with a naturally high trade ratio built on a diversified base that facilitates using trade as an engine of growth While trade volumes have rebounded smartly from the deep recession of 2007 2008 these do not offset other worrisome longer term trends Export growth during the last decade has been lacklustre and failed to drive high growth Agricultural exports other than tobacco have lost their once dominant role in the region and are no longer a source of diversification Manufacturing has withered in a continuing secular decline Zimbabwe s export basket has become less diversified and more dependent on a narrow range of mineral and to a lesser extent agricultural products In short exports have become less diversified less technologically sophisticated and less labor intensive and ever more dependent on a few large mining activities to provide foreign exchange and employment This report traces the roots of this poor performance to several policy issues poor predictability of macroeconomic policy and economic governance has created an unfavorable climate for private investment and trade a tariff structure that dampens export profitability industrial policies indigenization policy in particular that undermine investor confidence and inhibits private investment and finally competition limiting policies toward services that limit connectivity of Zimbabweans and raise trade costs The good news arising from the study is that the remedies for these policy shortcomings lie in Zimbabwean hands If the government were to adopt reforms that reconfigure economy wide incentives and trade and industrial policies it could promote sustained growth economic diversification and empowerment of poor people

Coal Mark C. Thurber,2019-05-07 By making available the almost

unlimited energy stored in prehistoric plant matter coal enabled the industrial age and it still does Coal today generates more electricity worldwide than any other energy source helping to drive economic growth in major emerging markets And yet continued reliance on this ancient rock carries a high price in smog and greenhouse gases We use coal because it is cheap cheap to scrape from the ground cheap to move cheap to burn in power plants with inadequate environmental controls In this book Mark Thurber explains how coal producers users financiers and technology exporters drive this supply chain while fragmented environmental movements battle for full incorporation of environmental costs into the global calculus of coal Delving into the politics of energy versus the environment at local national and international levels Thurber paints a vivid picture of the multi faceted challenges associated with continued coal production and use in the twenty first century

2012 & 2013 Work Plans of the Government of Zimbabwe and UNICEF Country Programme of Cooperation, 2012-2015, 2012 Participation of Young People in Governance Processes in Africa Kurebwa, Jeffrey, Dodo, Obadiah, 2019-06-28

African Dept., 2014-11-21 This paper discusses Zimbabwe s Third Review Under the Staff Monitored Program SMP and the successor SMP Zimbabwe has succeeded in keeping macroeconomic conditions relatively stable despite difficult political and economic circumstances In particular the precarious external position improved somewhat with higher international reserves and a projected lower current account deficit in 2014 The SMP will cover a 15 month period October 2014 through December 2015 and will be monitored based on quantitative targets and structural benchmarks The IMF staff welcomes the authorities intention to continue to seek financing through grants or loans that are as concessional as possible and to limit contracting nonconcessional loans within the ceilings set under the program Large-Scale Land Investments in Least Developed Countries Luis Tomás Montilla Fernández, 2017-11-09 This book analyses large scale land investments for agricultural purposes in Africa s least developed countries from a law and economics perspective Focusing on the effects of foreign land investments on host countries local populations and the apparent failure of international law to create incentives to offset them it also examines the legal and economic mechanisms to hold investors accountable in cases where their investment leads to human rights violations Applying principal agent and contract theory it elucidates the

sources of opportunism and develops control mechanisms to ameliorate the negative effects It shows that although judicial mechanisms fail to deliver justice international law offers alternatives to safeguard against arbitrary and abusive state and investor conduct and also to effectuate human rights and thus tackle opportunistic behaviour
