The Affordable Housing Reader Elizabeth Mueller, J. Rosie Tighe, 2022-07-14 This second edition of *The Affordable Housing Reader* provides context for current discussions surrounding housing policy emphasizing the values and assumptions underlying debates over strategies for ameliorating housing problems experienced by low income residents and communities of color The authors highlighted in this updated volume address themes central to housing as an area of social policy and to understanding its particular meaning in the United States These include the long history of racial exclusion and the role that public policy has played in racializing access to decent housing and well serviced neighborhoods the tension between the economic and social goals of housing policy and the role that housing plays in various aspects of the lives of low and moderate income residents Scholarship and the COVID 19 pandemic are raising awareness of the link between access to adequate housing and other rights and opportunities This timely reader focuses attention on the results of past efforts and on the urgency of reframing the conversation It is both an exciting time to teach students about the

evolution of United States housing policy and a challenging time to discuss what policymakers or practitioners can do to effect positive change This reader is aimed at students professors researchers and professionals of housing policy public policy and city planning

New Mobilities Todd Litman,2021-06-17 In New Mobilities Smart Planning for Emerging Transportation Technologies transportation expert Todd Litman examines 12 emerging transportation modes and services that are likely to significantly affect our lives bike and carsharing micro mobilities ridehailing and micro transit public transit innovations telework autonomous and electric vehicles air taxis mobility prioritization and logistics management Public policies around New Mobilities can either help create heaven a well planned transportation system that uses new technologies intelligently or hell a poorly planned transportation system that is overwhelmed by conflicting and costly unhealthy and inequitable modes His expert analysis will help planners local policymakers and concerned citizens to make informed choices about the New Mobility revolution

Unique Urbanity? Tara Brabazon,2014-11-21 This book investigates small cities cities and towns that are not well known or internationally branded but are facing structural economic and social issues after the Global Financial Crisis They need to invent develop and manage new reasons for their existence The strengths and opportunities are often underplayed when compared to larger cities These small cities do not have the profile of New York London Tokyo or Cairo or second tier cities like San Francisco Manchester Osaka or Alexandria This book traces the current state of the creative industries literature after the GFC but with a specific focus The specific and worsening conditions in third tier cities are logged The social and economic challenges within these regions are great particularly with regard to health and health services education employment social mobility and physical activity This is not a study that merely diagnoses problems but raises strategies for third tier cities to create both a profile and growth The current research field is synthesized to reveal how cities are defined constituted developed and in many cases suffering decline There is an imperative to build relationships with other urban environments The book enters these under discussed locations and reveal the scarred layering of injustice signified by depopulation dis investment economic decline and a reduction in public services for health transportation and education while also developing specific and innovative models for improvement The vista summoned in Unique Urbanity is international with strong attention to trans local strategies that offer wide relevance currency and opportunities for policy makers While third tier cities are often hidden marginalized invisible or demeaned Unique Urbanity shows that innovation imagination and creativity can emerge in small places

Motor Vehicles, the Environment, and the Human Condition Hans A. Baer,2019-10-09 The world now has more than a billion motor vehicles and this number continues to increase as developing countries imitate developed societies in their adoption of the culture of automobility This book explores the political ecology of motor vehicles in an era of growing social disparities and environmental crises the latter of which are most manifest in anthropogenic climate change to which motor vehicles constitute a major contributor A political ecological perspective recognizes that motor vehicles perhaps more than any other

machine embody the social structural cultural and environmental contradictions of the capitalist world system In addition to highlighting many of the environmental social and health environmental consequences of humanity s increasing reliance on motor vehicles particularly private automobiles this book argues that ultimately we need as a species to move beyond motor vehicles as much as possible but that such an effort will have be part and parcel of creating an alternative world system based on social justice democratic processes environmental sustainability and a safe climate one termed democratic eco socialism *Democratic Eco-Socialism as a Real Utopia* Hans A. Baer,2017-10-01 As global economic and population growth continues to skyrocket increasingly strained resources have made one thing clear the desperate need for an alternative to capitalism In Democratic Eco Socialism as a Real Utopia Hans Baer outlines the urgent need to reevaluate historical definitions of socialism commit to social equality and justice and prioritize environmental sustainability Democatic eco socialism as he terms it is a system capable of mobilizing people around the world albeit in different ways to prevent on going human socio economic and environmental degradation and anthropogenic climate change
