Toward Quality Leadership in Kenya* Kimani Njogu, 2007-03-15 Using Kenya as a case study to mirror other African countries this book interrogates the phenomenon of leadership within and without the political domain **Social-Cultural Anthropology** George Allan Phiri, 2009-09-01 Effective communication with the African society in the field of missions church planting and social development work has been and continues to be a great challenge particularly to people from western cultural and language orientation Africans are a we rather than I and a depended on rather than independent of society The worldview of a traditional African in terms of society relationships and communication is communal Certainly the African perception of communalism affects how they communicate with the people of different cultural orientation Africa has several cultures and people differ in their communication depending on their cultural orientation However there are universal African cultures that act as a framework for understanding key aspects of communication with Africans for successful missions church planting and social development work This book therefore provides a strategy of understanding communication with the African society The discussions in this book provide readers with different cultural orientations unique perception of the African society as s he may be planning to communicate with the African society for missions church planting and social development work even doing humanitarian ministry in African society Although literacy levels have improved tremendously in most African countries most of Africa is not a reading society It is imperative to understand that most Africans still communicate orally and are not time conscious Hence effective communication in African societies ought to be based on

storytelling rather than literature distribution although this is in transition In fact Africans are oratory and good listeners Thus this book provides an understanding to people of different cultural orientations when they plan to communicate with the people in Africa

Leadership or Servanthood? Hwa Yung,2021-10-06 The world is obsessed with leaders identifying them training them becoming them Even in the church this preoccupation is all too apparent Jesus however is not interested in developing

leaders Rather he is interested in the formation of servants In this powerful reflection on leadership and servanthood Dr Hwa Yung addresses the overemphasis on leadership development within the church Challenging a culture of hubris ambition and self seeking he reminds us that ministry is not a call to position and power but to service and obedience He draws us back to the example of Christ who came as a servant of God and of his kingdom who lived in submission to the Father and who rooted himself in his identity as the incarnate Son of God Linking spiritual authority to these three characteristics Hwa Yung offers examples from both Scripture and church history to demonstrate that it is in fact the faithful practice of servanthood that leads to leadership impact
