## **War Patrols Of The Uss Trigger Ss237 Submarine Combat Patrol Reports Book 1:**

**Red Scorpion** Peter Sasgen, 2012-04-15 The USS Rasher had an extraordinary record in World War II she sank 18 enemy ships and destroyed 99 901 tons the second highest tonnage of the war Her fifth war patrol is the stuff of legends In August 1944 during a single night surface attack on a Japanese convoy off the Philippines she sank the escort carrier Taiyo and three marus and later during that same patrol she sank another ship Reading more like a novel than an operational history this book covers all aspects of the Rasher s combat history in a way that both the general reader and veteran submariner will appreciate Author Peter Sasgen is the son of a Rasher crew member and from his father s perspective he follows the sub from the builder s way through eight action packed patrols to war s end His richly detailed descriptions of submarine operations include lively commentary by former shipmates and excerpts from patrol reports along with a close examination of patrol procedures communications life guarding and other topics rarely covered in such detail Sasgen also explores the essence of submarine combat aggressive leadership and its role in the Rasher s success

**U.S.S. Cod (SS-224)** J. T. **American Submarine War Patrol Reports U. S. S. Wahoo (SS-238)** J. T. *Subs on the Hunt* Richard Sheffield, 2009-05-12 On December 7 1941 the order was issued to the U S Navy EXECUTE UNRESTRICTED AIR AND SUBMARINE WARFARE AGAINST JAPAN On that order the subs flooded out of Pearl Harbor and towards the Japanese Empire Those that returned came back with tales of unbelievable heroism hard won victory crushing defeats faulty equipment deadly mistakes unexpected humor and haunting decisions Starting with the story of the brave little S 44 It was

very questionable as to whether or not she would even survive the crossing to Japanese waters Despite the fact that she left a continuous oil slick wherever she went she carried the fight to the enemy and sunk the 8800 ton Kato the first Japanese warship to be sunk by a lone submarine Continuing with stories from the Silversides Wahoo Trigger Harder Bowfin and finishing with all five war patrols of the unmatched Tang here are all the details and insights straight from the men who fought the battles     U.S.S. Wahoo (SS-283) J. T. McDaniel,2005     U.S.S. Barb (SS-220) Everett P. Weaver,J. T. McDaniel,2006 Among the most successful of all American fleet type submarines U S S Barb made a total of twelve war patrols During the course of the war Barb was credited with sinking a total of 26 enemy ships including the escort aircraft carrier Unyo During her final five war patrols under the command of Eugene B Fluckey Barb set a record for innovation and aggressiveness unmatched in the submarine service In a series of rocket attacks during Patrol 12 Barb became the first American submarine to launch rockets in combat During the same patrol volunteer saboteurs slipped ashore and blew up a coastal train in the process becoming the only Americans to invade Japan during the war An incursion into Namkwan Harbor on the China coast during the eleventh war patrol earned the Medal of Honor for Fluckey This volume contains the complete text of the 12 war patrol reports filed by Barb s wartime commanding officers Also included is a Foreword by former Barb officer Everett P Weaver an Introduction and extensive notes     *Nothing Friendly in the Vicinity ...* Claude C. Conner,2013-09-25 As chronicled in Silent Victory Clay Blair s monumental history of United States submarine operations in World War II the submarine war against Japan was a relatively little known war within a war It was waged by an initially small but expanding force of boats that eventually made more than 1 400 war patrols and sank almost 1 400 Japanese merchant ships and naval vessels Many American submarines carved out enviable records including USS Guardfish the subject of Claude Conner s remarkable memoir of service aboard a US fleet boat as an enlisted man Conner who served as a Radar Technician weaves a compelling tale of his service during several war patrols in the Pacific Theater against the Japanese His firsthand account spans the spectrum in detail and emotion describing everything from humorous personal incidents to the boat s bone crushing battle against the sea the thrill of sending an enemy ship to the bottom of the deathly terror of being trapped in a flooding conning tower A significant portion of Conner s reminiscence describes the friendly fire sinking of USS Extractor which came about when Guardfish s skipper mistook the ship for a Japanese submarine Along with the tragic sinking Conner offers important information about Extractor and her crew several detailed firsthand recollections of survivors and an engrossing account of the Court of Inquiry that followed and for which Conner testified as a witness *Nothing Friendly in the Vicinity* is a fresh and compelling account of an enlisted man s experiences during the hellish submarine war against Japan and recognized today as a classic of the genre     *War Patrols of the USS Flasher* ,1994 Inside view of the costly war conducted by America s silent service which sacrificed 52 submarines and most of their crews in the war s single most effective campaign aganst the Japanese Dust jacket     **U.S. Submarine War Patrol Reports, 1941-45**

Rasher* Peter T. Sasgen,1993      First Patrol Philip L Munck,Michael J Pastore,2020-11-16 Follow a patrol of one of the earliest ballistic missile submarines FIRST PATROL chronicles a crew s experiences during the three month period of duty in a strategic submarine patrol cycle The events occurred in the early 1960 s Their submarine is one of the first five boats carrying 16 nuclear warhead Fleet Ballistic Missiles The 60 day patrol at sea starts after a month of upkeep in Scotland The story is told through the eyes of the author a young naval officer on his first submarine patrol after he had completed lengthy nuclear power and submarine training He reports to the off crew offices of his boat on the Submarine Base in Groton CT and is anguished to find he will be the Supply Officer instead of being assigned to a job operating the nuclear power plant He learns that Adm Rickover is replacing the non nuclear trained officers on submarines with nuclear officers His concern is that he has no training in overseeing crew meals and spare parts nor does it give him the experience he needs to become a chief engineer But the job gives him daily access and insight to the crew This is a true story about a unique way of life where watch standing mixes with the human conflicts that occur when 125 men are locked in a steel tube for 60 days Starting with the first midwatch on patrol and continuing until just hours before returning to Holy Loch it is a voyage filled with equipment malfunctions including a reactor coolant leak Mission orders forbade radioing for advice and the Captain must choose between performing a complex repair or aborting the patrol The book is written in a non technical manner using first person narrative and crew member interactions to explain complex events in human terms As the author receives engineering and conning officer watch training he shows how the fledgling submariner acquires the skills and knowledge of his trade At the conclusion of the central story epilogues describing complications in trying to return home from Scotland and some of the experiences of his subsequent four patrols An extensive set of notes covering some of the technical details of nuclear submarine operations for the reader interested in exploring the subject more deeply and a glossary of terms and expressions Besides the unprecedented first day of patrol incident that put the entire mission at risk there were other major equipment failures including a reactor coolant leak loss of trim and drain pumps galley fire flooding loss of the trash ejection tube and failure of the navigation star periscope required for navigation Isolating the coolant leak required two reactor compartment entries and operating the diesel engine to provide power during the reactor shutdowns The crew performed at high levels during these crises and drills because of their intelligence and training During mundane daily routine human nature caused some to regress to frivolous actions There were many daily life situations where boredom drove some to seek to escape

tension that even the recreations committee s slot machine doesn t provideThe goat locker the senior enlisted men provided hilarious formal rites for Crossing the Arctic Circle and the Splice the Mainbrace party that involved the whole crew and all officers But these events only provided brief respites from patrol monotony Daily life was epitomized in the FBM submariner s mantra Patrol is 99% absolute boredom and 1% sheer terror
