War And Economy In The Third Reich:

War and Economy in the Third Reich R. J. Overy, 1994 When Hitler came to power in 1933 he had two aims for the economy a rapid recovery from the depths of the Great Slump and the creation of a vast economic foundation for Germany's renewed bid for world power These eleven essays explore the tension between Hitler's vision of an armed economy and the reality of German economic and social life Richard Overy argues that the German economy was much less crisis ridden in 1939 than its enemies supposed and that Hitler far from limiting his war effort tried to mobilize the economy for total war from 1939 onwards Only the poor organization of the Nazi state and the interference of the military prevented higher levels of military output Many of these essays challenge accepted views of the Third Reich In his introduction Richard Overy reflects on the issues the essays raise and the ways in which the subject is changing Often thought provoking always informed **War and Economy in the Third Reich** R. Yugoslavia Perica Hadzi-Jovancic, 2020-08-06 The Third Reich and Yugoslavia focuses on economic and political affairs between the Third Reich and Yugoslavia before Germany attacked in April 1941. It observes the relations between the two countries primarily from an economic perspective with the political dimension forming a backdrop within which the economy operated. Perica Hadzi Jovancic challenges the conventional scholarly wisdom which recognises economics as mainly being a tool of German foreign policy towards Yugoslavia. Instead, he successfully places economic dealings on both sides within the broader context of both the German economic and financial plans and policies of the 1930s as well as the existing trading ties between the two countries as they had been developing since the 1920s. At the same time, through detailed analysis of unpublished archival material, Hadzi Jovancic explores the shared political relations from a new perspective, one from which there is a much deeper understanding of Yugoslavia's motives and the resulting implications for the other great powers and the wider regional framework. The book concludes that, contrary to the traditional view in historiography and despite the dependency of Yugoslavia's foreign trade on the German market at the dawn of the Second World War, Yugoslavia maintained both its economic and political agency in the shadow of the Third Reich. It was only international political developments beyond Yugoslavia's control in the years ahead that led to a more receptive stance towards German demands.
