War Stories Oliver North, 2012-03-28 The mainstream media are trying to discredit our victory in Iraq by saying there was no reason to take out Saddam But Oliver North knows better He was there Embedded with Marine and Army units for FOX News Channel during Operation Iraqi Freedom North himself a decorated combat veteran vividly tells the story his camera gave us glimpses of during the campaign to liberate Iraq This updated edition features a new chapter detailing the events after the end of major hostilities including the capture of Saddam Hussein and brand new action photos straight from the front line A Greater Freedom Sarah Ann Horn, Oliver North, 2004 A Greater Freedom takes you behind the major media scenes of the military and the people of Iraq right to the heart of where God is at work *They Gave Blood, Sweat and Tears* Bill Hall, 2011-06 American Heroes in the Fight Against Radical Islam Oliver North, 2008 What is a Hero New York Times best selling author Oliver North says Real heroes are selfless Those who serve America in harm s way in the war against radical Islam have that quality in abundance And so do their families and loved ones at home Yet they rarely get the attention or coverage they deserve Despite the way they are presented by too many in the press and politics the men and women in uniform today are overwhelmingly good I never cease to be amazed at the self discipline of these brave young Americans They can endure the adrenaline pumping violence of an enemy engagement and then just minutes later help school children get safely to their classes No nation ours included has ever had a military force better than the one we have today I m proud of them You should be too In American Heroes a New York Times Wall Street Journal and Washington Post best seller North offers an inspiring first hand account of the extraordinary men and women defending America against radical Islamic terror from his perspective as a forty year member of the United States military a member of the National Security Council staff and serving as the U S government s counter terrorism coordinator from 1983 1986 This patriotic book also pulls in new reports and exclusive full color photographs from War Stories the award winning FOX News Channel series hosted by North Endorsements Oliver North has spent his life among America s heroes This book with its moving words and powerful images will inspire patriots reassure the faint of heart and infuriate our nation s adversaries These are our heroes they deserve to have their story told and no one is better to tell it than Col North because when it comes to heroes it takes one to know one This book is a treasure Newt Gingrich former Speaker of the House of Representatives and New York Times bestselling author of Real Change Ollie North has been there done that with the American heroes who are winning the war against radical Islamic terror This book is a magnificent tribute to the warriors who defend us all Sean Hannity host of The Sean Hannity Show and FOX News Channel s Hannity Colmes **After Combat** Marian Eide, Michael Gibler, 2018-09-01 Approximately 2 5 million men and women have deployed to Iraq and Afghanistan in the service of the U S War on Terror Marian Eide and Michael Gibler have collected and compiled personal combat accounts from some of these war veterans In modern warfare no deployment meets the expectations laid down by stories of Appomattox Ypres Iwo Jima or Tet Stuck

behind a desk or the wheel of a truck many of today's veterans feel they haven't even been to war though they may have listened to mortars in the night or dodged improvised explosive devices during the day When a drone is needed to verify a target's death or bullets are sprayed like grass seed military offensives can lack the immediacy that comes with direct contact After Combat bridges the gap between sensationalized media and reality by telling war's unvarnished stories Participating soldiers sailors marines and air force personnel retired on leave or at the beginning of military careers describe combat in the ways they believe it should be understood In this collection of interviews veterans speak anonymously with pride about their own strengths and accomplishments with gratitude for friendships and adventures and also with shame regret and grief while braving controversy misunderstanding and sanction In the accounts of these veterans Eide and Gibler seek to present what Vietnam veteran and writer Tim O'Brien calls a true war story one without obvious purpose or moral imputation and independent of civilian logic propaganda goals and even peacetime convention

Drawing the Past, Volume 1 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Lawrence Abrams Dorian L. Alexander Max Bledstein Peter Cullen Bryan Stephen Connor Matthew J. Costello Martin Flanagan Michael Fuchs Michael Goodrum Bridget Keown Kaleb Knoblach Christina M. Knopf Martin Lund Jordan Newton Stefan Rabitsch Maryanne Rhett and Philip Smith History has always been a matter of arranging evidence into a narrative but the public debate over the meanings we attach to a given history can seem particularly acute in our current age Like all artistic mediums comics possess the power to mold history into shapes that serve its prospective audience and creator both It makes sense then that history no stranger to the creation of hagiographies particularly in the service of nationalism and other political ideologies is so easily summoned to the panelled page Comics like statues museums and other vehicles for historical narrative make both monsters and heroes of men while fueling combative beliefs in personal versions of United States history Drawing the Past Volume 1 Comics and the Historical Imagination in the United States the first book in a two volume series provides a map of current approaches to comics and their engagement with historical representation The first section of the book on history and form explores the existence shape and influence of comics as a medium The second section concerns the question of trauma understood both as individual traumas that can shape the relationship between the narrator and object and historical traumas that invite a reassessment of existing social economic and cultural assumptions The final section on mythic histories delves into ways in which comics add to the mythology of the US Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world

Understanding War Christian P. Potholm, 2016-08-03 The third book in Professor

Christian Potholm's war trilogy which includes *Winning at War* and *War Wisdom* *Understanding War* provides a most workable bibliography dealing with the vast literature on war and warfare. As such it provides insights into over 3000 works on this overwhelmingly extensive material. *Understanding War* is thus the most comprehensive annotated bibliography available today. Moreover, by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these, *Understanding War* enables the reader to access and understand the broadest possible array of materials across both time and space, beginning with the earliest forms of warfare and concluding with the contemporary situation. Stimulating and thought provoking, this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures.

The Criminalization of Christianity Janet Folger, 2009-02-19 There is a war going on for the future of our country. Most people know that. What they may not know is that if Christians lose, the result won't merely be enduring public policy we disagree with; it will be a prison sentence for those who oppose it. We've all seen the attack coming. First the Supreme Court said kids can't pray in school. Then the Ten Commandments were ripped from the classrooms. Now pastors are being removed from their pulpits and put in jail for speaking out against homosexuality. Sweden: And things are only getting worse. How in the world did we get to this place? And why is it that Christians are singled out in this assault on morality? Serving as a wake up call for America, this book will expose the truth that Christianity is being criminalized and that we must stand up against it now. People in New York are fired from their jobs. Kids in California are suspended from school. Pastors in Sweden are sentenced to prison. Their crime involves nothing more than exercising their religious freedoms. At first the attacks against Christianity were subtle. The Supreme Court ruled that children can't pray in school. The Ten Commandments were removed from our classrooms and later our courtrooms. Now pastors are being imprisoned for speaking out against homosexuality from their own pulpits. How in the world did we get to this place in a free and civilized society? And how far will it go? While headlines reveal a gradual undermining of moral values in our society, the truth between those lines silently screams that our very freedom is at stake. Now this provocative book exposes the attack on values for what it is: a pointed war being waged against Christians and the faith they profess. A frequent guest on such programs as *20/20*, *Hannity* and *Colmes Hardball* and *Inside Politics*, conservative advocate Janet Folger uncovers the hidden anti-Christian agendas that are driving public policy, key court decisions, public school regulations, political correctness in the media, and modern day censorship. The question is: how will you respond? At a time when upholding traditional values has somehow become synonymous with intolerance, will you rise up and defend your religious freedoms before it's too late?

The Arab Lobby and US Foreign Policy Khalil Marrar, 2008-10-27 The US foreign policy stance on Israel/Palestine has shifted considerably in recent years, from a position of Israel only to one which embraces both Israel and Palestine in a call for peace. This volume assesses why the US stance has evolved in the way that it has, concluding that while international factors cannot be overlooked, developments within the United States itself are also crucial.

After years of vacillating on Palestinian national aspirations the majority of Americans the author notes have come to favor the establishment of an independent Palestinian state on the West Bank and the Gaza strip Considering what accounts for changes in US policy on Israel Palestine this volume delivers a thorough assessment of the role of international and domestic factors in shaping US policy in this area considers how US policy has evolved from the Camp David negotiations of the 1970s up to the occupation of Iraq in the mid 2000s explores the significance of American public opinion and the pro Israel and Arab lobbies in the evolution of US policy The Arab Lobby and US Foreign Policy will be of interest to students and scholars of Foreign Policy and Political Science Current Affairs and American Studies Khalil M Marrar is Professor at DePaul University USA He has served in editorial positions at the Arab Studies Quarterly and the Association of Arab American University Graduates

The A to Z of the Reagan-Bush Era Richard S. Conley,2009-09-28 The 1980s and early 1990s were remarkable for the triumph of conservatism in the United States and its closest allies The victories of Presidents Ronald Reagan and George H W Bush in the United States were complemented by the electoral successes of Margaret Thatcher in the United Kingdom and Brian Mulroney in Canada The relationship between Reagan and Bush and their conservative counterparts was particularly important in providing a united front on foreign policy whether the target was the Soviet Union Communist insurgencies in Africa or Latin America or Iraqi dictator Saddam Hussein The Reagan Bush era witnessed some of the most dramatic events of the latter half of the 20th century the collapse of the Soviet Union a presidential assassination attempt political scandal a stock market crash military invasions and the explosion of the space shuttle Challenger The A to Z of the Reagan Bush Era relates these events and provides extensive political economic and social background on this era through a detailed chronology an introduction appendixes a bibliography and several hundred cross referenced dictionary entries on important

persons events institutions policies and issues Special Operations Forces in the 21st Century Jessica Glicken Turnley, Kobi Michael, Eyal Ben-Ari, 2017-08-09 This book sets out the major social scientific approaches to the study of Special Operations Forces Despite consistent downsizing over the past two decades the armed forces of the industrial democracies have seen a huge growth in Special Operations Forces SOF Through increasing numbers of personnel and more frequent deployments SOF units have wielded considerable influence in conflicts around the world with senior SOF officers having led major strategic operations This increased presence and unprecedented expansion for SOF is largely a result of the new kinds of conflicts that have emerged in the 21st century At the same time even with this high profile in the military policy and media and popular cultural arenas there is relatively little social scientific research on SOF This volume aims to fill this gap by providing a series of studies and analyses of SOF across the globe since the end of World War II Analysing SOF at the micro mezzo and macro levels provides broad and diverse insights Moreover the volume deals with new issues raised by the use of such forces that include emerging modes of civilian control innovative organizational forms and the special psychological characteristics necessitated by SOF operatives It concludes with a discussion of a question which continues to be debated in today's militaries what makes SOF special Filling a clear gap in the literature this book will be of much interest to students of strategic studies civil military relations irregular warfare security studies and international relations U.S. Navy True Stories Jessica Gunderson, 2014-07-01 Provides gripping accounts of Navy servicemen and servicewomen who showed exceptional courage during combat Call Sign "Dustoff" Darrel D. Whitcomb, 2011 Explores the conceptualization of the initial attempts to use aircraft for evacuation reviews its development and maturity through conflicts and focuses on the history of the MEDEVAC post Vietnam through Hurricane Katrina Provided by publisher **Wounded** Ed Hrivnak, 2013-05-21 Wounded is an eloquent gritty account of the ordeal suffered by injured American servicemen seen through the eyes of an aeromedical crew There are valiant accounts of battle followed by the reality of life altering injuries and how troops persevere Wounded is the human aspect of war by everyday Americans and how we were unprepared for the strain of caring Wounded begins with the start of the Iraqi Freedom and ends with the lasting results This memoir encourages life after war Historical Dictionary of the Reagan-Bush Era Richard S. Conley, 2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett's classic play Waiting for Godot many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of Historical Dictionary of the Reagan Bush Era contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues

This book is an excellent resource for students researchers and anyone wanting to know more about this era
