Waste Management And Sustainable Consumption Reflections On Consumer Waste:

Waste Management and Sustainable Consumption Karin Ekström, 2014-12-17 The accelerated pace of global consumption over the past decades has meant that governments across the world are now faced with significant challenges in dealing with the dramatically increased volume of waste While research on waste management has previously focused on finding technological solutions to the problem this book uniquely examines the social and cultural views of waste shedding new light on the topic by emphasising the consumer perspective throughout Drawing on a wide variety of disciplines including environmental economic social and cultural theories the book presents philosophical reflections practical examples and potential solutions to the problem of increasing waste It analyses and compares case studies from countries such as Sweden Japan the USA India Nigeria and Qatar bringing out valuable insights for the international community and generating a critical discussion on how we can move towards a more sustainable society This book will be of great interest to post graduate students and researchers in environmental policy waste management social marketing and consumer behaviour as well as policymakers and practitioners in consumer issues and business Unmaking Waste in Production and Consumption Robert Crocker, Christopher Saint, Guanyi Chen, Yindong Tong, 2018-09-13 This book provides scholars working in the many disciplines that relate to the concept of the Circular Economy with a cross disciplinary forum looking at areas such as Theory Policy and Contexts Improving Resource Efficiency and Reducing Waste Changing Consumption and Behaviour by Design and Transforming Technologies of Production Walkable Cities Carlos J. L. Balsas, 2019-10-01 Examines how cities of various sizes on both sides of the Atlantic Ocean are making walkability improvements a part of their overall urban revitalization strategy Walkable precincts have become an important component of urban revitalization on both sides of the Atlantic In Walkable Cities Carlos J L Balsas examines a range of city scales and geographic settings on three continents focusing on the Iberian Peninsula Spain and Portugal Latin America Brazil and Mexico and the United States Phoenix and New York City He explains how this pedestrianization of Main Street approach to central locations downtowns and midtowns has contributed to strengthening various urban functions such as urban vitality pedestrian and bicyclist safety tourism and more However it has also put pressure on less affluent peripheral and fragile areas due to higher levels of consumption and waste generation Balsas calls attention to the need to base urban revitalization interventions on more spatially and socially just interventions coupled with sustainable consumption practices that do not necessarily entail high growth levels but instead aim to improve the quality of city life The notion of commercial urbanism is both novel and engaging since much of the vibrancy of cities comes from commerce consumption and entertainment The idea itself is a major contribution of the book Tridib Kumar Banerjee University of Southern California **Inside Management** David Vickers, 2020-12-12 This pivot includes a series of inside ethnographic accounts and stories about managerial practices and processes providing a critical account of managerial and HR practices It seeks to advance thinking in the theoretical areas of

strategy as practice SasP Actor Network Theory human resource management practices and safety as practice Offering a unique insider insight to decision making and strategy within an organization the chapters demonstrate how practices are constructed and implemented for a range of systems and policies Employing an ethnographic approach also gives an opportunity to assess the interpretation and deployment of procedures policies and practices in order to control and achieve conformity to organizational goals It satisfies a demand for richer descriptions of managerial practices in situ that can be used to challenge and critique traditional approaches and guide researchers to apply an SasP and ANT perspective in other organizational settings

Prosperity without Growth Tim Jackson,2016-12-08 What can

prosperity possibly mean in a world of environmental and social limits The publication of Prosperity without Growth was a landmark in the sustainability debate Tim Jackson s piercing challenge to conventional economics openly questioned the most highly prized goal of politicians and economists alike the continued pursuit of exponential economic growth Its findings provoked controversy inspired debate and led to a new wave of research building on its arguments and conclusions This

substantially revised and re written edition updates those arguments and considerably expands upon them Jackson demonstrates that building a post growth economy is a precise definable and meaningful task Starting from clear first principles he sets out the dimensions of that task the nature of enterprise the quality of our working lives the structure of investment and the role of the money supply He shows how the economy of tomorrow may be transformed in ways that protect employment facilitate social investment reduce inequality and deliver both ecological and financial stability Seven years after it was first published Prosperity without Growth is no longer a radical narrative whispered by a marginal fringe but an essential vision of social progress in a post crisis world Fulfilling that vision is simply the most urgent task of our times

Environmental Politics and Policy John McCormick,2017-10-18 This book provides systematic coverage of the key concepts in the study of environmental politics the evolution of environmental thinking the national and international actors involved in environmental policy and a selection of specific environmental problems including their causes the challenges and results of addressing them to date

Marketing Fashion Karin M. Ekström,2023-06-16 Fashion as a societal phenomenon has fascinated scholars in different disciplines such as history sociology anthropology psychology and marketing often from an interdisciplinary perspective Fashion mirrors societal changes cultural norms and values over time It can be interpreted as mundane everyday practices constructions of identity and status as well as being associated with the art world In this book the focus lies on marketing and the role of marketers when fashion permeates society in deliberate and subtle ways This edited collection critically reflects upon the power of fashion in contemporary society and the role marketing and marketers play in the process of defining creating and preserving fashion but also in divesting fashion that is no longer up to date It expands on existing knowledge to better understand the role marketers play as cultural agents in determining fashion and its markets Contributors to the book are international advanced scholars from a variety of disciplines such as anthropology marketing psychology and sociology who challenge traditional ways of thinking about marketing In a society where problems with overproduction and excessive consumption represent major challenges the critical perspective of the role fashion plays in contemporary society and what influence marketing has for shaping fashion are not merely relevant but necessary This cutting edge interdisciplinary book will appeal to scholars across a broad range of fields including fashion marketing fashion studies and consumer culture research It will also be valuable for students in advanced courses of study in a variety of disciplines besides marketing

of municipal waste management Covers recent developments in waste biorefinery thermal processes anaerobic digestion material recycling and landfill mining *Market Detachment* Helene Brembeck, Franck Cochoy, Gay Hawkins, 2022-03-23 While the dynamics of market attachments have been extensively analyzed the implied other to this market detachments have not This book addresses this imbalance and investigates economies of detachment or the processes whereby various elements or relations in markets are removed or severed Market organizations and dynamics involve myriad processes of attachment good and bad Recent work within the new economic sociology has documented how the arts of attachment are implicated in the technical organizational and social functions of markets This work highlights the complexities of market attachments as both material links and subjective or affective ties It also foregrounds attachment as a variable relation often dependent on its implied other detachment However while the first term of this relation is relatively well known the second is seriously under researched and deserves far more attention Key questions explored are what is detachment how does it work and what are the theoretical underpinnings and implications of this concept How do practices and strategies of detachment configure and re agence markets How do markets provoke attitudes and dispositions of detachment How do detachment strategies become qualified as political and with what consequences The authors in this unique collection explore these questions using an array of empirical cases ranging from fast fashion to food supply chains energy savings schemes to unpackaged food Working across economic sociology science and technology studies STS cultural studies politics and consumer research they highlight the complexities significance and impacts of letting go in market configurations The chapters in this book were originally published as a special issue of the journal Consumption Markets Culture **The SAGE Handbook of Consumer Culture** Olga Kravets, Pauline Maclaran, Steven Miles, Alladi Venkatesh, 2018-01-01 The question of consumption emerged as a major focus of research and scholarship in the 1990s but the breadth and diversity of consumer culture has not been fully enough explored The meanings of consumption particularly in relation to lifestyle and identity are of great importance to academic areas including business studies sociology cultural and media studies psychology geography and politics The SAGE Handbook of Consumer Culture is a one stop resource for scholars and students of consumption where the key dimensions of consumer culture are critically discussed and articulated The editors have organised contributions from a global and interdisciplinary team of scholars into six key sections Part 1 Sociology of Consumption Part 2 Geographies of Consumer Culture Part 3 Consumer Culture Studies in Marketing Part 4 Consumer Culture in Media and Cultural Studies Part 5 Material Cultures of Consumption Part 6 The Politics of Consumer Culture *Material Mobilities* Ole B. Jensen, Claus Lassen, Ida Sofie Gøtzsche Lange, 2019-11-05 Material Mobilities explores the material dimension of various forms of mobilities and its implications for society politics and everyday experiences as well as investigates how materials themselves are on the move Together the different contributions and perspectives on material mobilities illustrate how materialities are critical components within mobilities but also shape how mobilities are produced and consumed within contemporary mobile

societies This insight may potentially influence the ways disciplines of mobilities understand and approach mobilities in the future This book exemplifies how the new Mobilities turn may profit from foregrounding materials the material and materiality as a common pivot for social analysis During the last decade of research affiliated to the new mobilities turn the societal repercussions of intensive mobilities has been in focus The turn has documented the social environmental economic and cultural effects of the contemporary patterns of movement of people vehicles goods data and information In parallel with this work new ideas and concepts about the human non human and the material dimension of the social world has surfaced within a wide array of fields such as philosophy anthropology and cultural studies Material Mobilities offers a materially sensitive and focused attention to the new Mobilities turn The turn to the material opens up a new set of research questions related to how artefacts and technologies facilitating and affording mobilities are being designed constructed and instituted The new material interest furthermore points at new ways of comprehending the political and the power dimensions of mobilities and infrastructural landscapes The turn to the material furthermore problematizes the Modern binary distinctions between humans and non humans subjects and objects culture and nature

Subverting Consumerism Robert Crocker, Keri Chiveralls, 2018-07-24 There is now a widespread interest in reuse in many domains from opera houses built over old warehouses to vintage clothes and everyday goods incorporating repurposed materials or parts Despite its ubiquity this extensive creative work is typically seen in narrowly environmental terms as a means of reducing carbon resource use or waste However as this volume shows reuse also has aesthetic and cultural dimensions and a rich social currency invoked to consciously subvert the accelerated consumer culture responsible for our unfolding environmental crisis In three parts the essays in this book consider reuse in terms of values aesthetics and meaning its application in contemporary urban and spatial settings and the revival of social practices involving a more conscious recourse to reuse and repair These are bookended by the editors essays the first on the significant relationship between reuse and technological and social acceleration evident in the surrounding consumer society and the last on the multiple forms of reuse deployed in a contemporary alternative building practice and their contributions to presenting alternative ways of living in the world Challenging dominant understandings of waste and consumption Subverting Consumerism shows how reuse has become a means for many to creatively engage with the past and to discover a continuity and sense of place eroded by the accelerative regimes of contemporary consumerism Becoming a means of resistance and offering a range of aesthetic social and economic possibilities reuse can be found to subvert and challenge the obsessive quest for the new found in contemporary consumerism
