argues that the intransigent opposition to the cult of the da va was the ancient Indo Iranian gods is the root of the development of the two central doctrines of Zoroastrianism cosmic dualism and eschatology fate of the soul after death and its passage to the other world The da va cult as it appears in the G th s the oldest part of the Zoroastrian sacred text the Avesta had eschatological pretensions The poet of the G th s condemns these as deception The book critically examines various theories put forward since the 19th century to account for the condemnation of the da vas It then turns to the relevant G thic passages and analyzes them in detail in order to give a picture of the cult and the reasons for its repudiation Finally it examines materials from other sources especially the Greek accounts of Iranian ritual lore mainly in the context of the mystery cults Classical Greek writers consistently associate the nocturnal ceremony of the magi with the mysteries as belonging to the same religious cultural category This shows that Iranian religious lore included a nocturnal rite that aimed at ensuring the soul s journey to the beyond and a desirable afterlife Challenging the prevalent scholarship of the Greek interpretation of Iranian religious lore and proposing a new analysis of the formation of the Hellenistic concept of magic this book is an important resource for students and scholars of History Religion and Iranian Studies *The Routledge Companion to Death and Dying* Christopher Moreman, 2017-05-18 Few issues apply universally to people as poignantly as death and dying All religions address concerns with death from the handling of human remains to defining death to suggesting what happens after life The Routledge Companion to Death and Dying provides readers with an overview of the study of death and dying Questions of death mortality and more recently of end of life care have long been important ones and scholars from a range of fields have approached the topic in a number of ways Comprising over fifty two chapters from a team of international contributors the companion covers funerary and mourning practices concepts of the afterlife psychological issues associated with death and dying clinical and ethical issues philosophical issues death and dying as represented in popular culture This comprehensive collection of essays will bring together perspectives from fields as diverse as history philosophy literature psychology archaeology and religious studies while including various religious traditions including established religions like Christianity Judaism Islam Hinduism and Buddhism as well as new or less widely known traditions such as the Spiritualist Movement the Church of Latter Day Saints and Ra lianism The Routledge Companion to Death and Dying is essential reading for students and researchers in religious studies philosophy and literature *Parsis in India and the Diaspora* John Hinnells, Alan Williams, 2007-10-22 The Parsis are India s smallest minority community yet they have exercised a huge influence on the country As pioneers in education in nineteenth century India and as leading figures in banking and commerce medicine law and journalism they were at the forefront of India s industrial revolution Parsis were also at the heart of the creation of the Indian National Congress in the nineteenth century and contributed some of the great leaders through into the twentieth century This book written by notable experts in the field explores various key aspects of the Parsis It spans the time from their arrival in India to the twenty first century All contributions are based on original

research and most of them use hitherto unexplored primary sources The first part of the book analyzes the topic of Parsi migration from very different points of view the second part presents leading Parsi personalities of the nineteenth and twentieth centuries The final part is a set of studies of the Parsi traditional community in Bombay and an examination of three different diasporas The concluding chapter by John R Hinnells shows the range of contributions of Parsis to modern India and also in the diasporas where the Zoroastrian religion is practiced in more countries around the globe than at any time in its history of more than 3 000 years **Conceptualizing Iranian Anthropology** Shahnaz R.

Nadjmabadi, 2010-01-01 During recent years attempts have been made to move beyond the Eurocentric perspective that characterized the social sciences especially anthropology for over 150 years A debate on the anthropology of anthropology was needed one that would consider other forms of knowledge modalities of writing and political and intellectual practices This volume undertakes that challenge it is the result of discussions held at the first organized encounter between Iranian American and European anthropologists since the Iranian Revolution of 1979 It is considered an important first step in overcoming the dichotomy between peripheral anthropologies versus central anthropologies The contributors examine from a critical perspective the historical cultural and political field in which anthropological research emerged in Iran at the beginning of the twentieth century and in which it continues to develop today *From Daēnā to Dīn* Christine Allison, Anke Joisten-Pruschke, Antje Wendtland, 2009 Die Festschrift enthält insgesamt 30 Beiträge zu verschiedenen Bereichen der Iranistik Es handelt sich sowohl um Artikel zu Forschungsschwerpunkten von Ph G Kreyenbroek wie dem Zoroastrismus der kurdischen Literatur und Religion insbesondere die der Yeziden und Ahl e Haqq aber auch um Beiträge zur iranischen Philologie der Zeit der Achameniden sowie der Geschichte und Kultur Irans in islamischer Zeit Die Aufsätze umfassen so unterschiedliche Themen wie z B Sinn und Zweck von Ritualen aus der Sicht von Parsi Priestern eine Gegenüberstellung von Tawusi Melek und dem Pfau in der Mandaischen Tradition Zeitkonzepte des Yezidismus einen Überblick über die persische Presse der letzten Jahrzehnte jüdische Gesandte im Achamenidenreich Ohrmazd in der soghdischen Überlieferung Modalitätstypologie im Kurdischen und Hawrami oder baktrische Demonstrativpronomina Ein Überblick über das Werk Kreyenbroeks sowie ein Verzeichnis seiner Schriften ergänzen den Band
