Japanese: Cultural Perspectives Pasquale De Marco, 2025-04-08. Japan is a country with a long and rich history of interaction with nature. From the earliest times, the Japanese people have been both awed and humbled by the natural world, and this relationship has shaped their culture, art, and religion in profound ways. This book explores the complex and multifaceted relationship between nature and the Japanese people. It examines how the Japanese have perceived and conceptualized nature, how they have interacted with it, and how they have been shaped by it. [Japan's Frames of Meaning](#) Michael F. Marra, 2011. In *Japan's Frames of Meaning*, Michael Marra identifies interpretative concepts central to discussions of hermeneutical practices in Japan and presents English translations of works on basic hermeneutics by major Japanese thinkers. Discussions of Japanese thought tend to be centered on key Western terms in light of which Japanese texts are examined; alternatively, a few Buddhist concepts are presented as counterparts of these Western terms. Marra concentrates on Japanese philosophers and thinkers who have mediated these two extremes, bringing their knowledge of Western thought to bear on philosophical reinterpretations of Buddhist terms that are thus presented in secularized form. Marra focuses on categories relevant to the development of a history of Japanese hermeneutics, calling attention to concepts whose discussion sheds light on how Japanese thinkers have proceeded in making sense of their own culture. The terms are organized under three headings. The first deals with *koto*, which in Japanese means both things and words. *Koto* is the center of a series of interesting compounds, such as *kotodama* (the spirit of words) and *makoto* (truth), that have shaped Japanese discourses on philosophy, ethics, aesthetics, and religion. Writings on *koto* by twentieth-century philosophers: Watsuji Tetsuro (1889–1960) and Omori Shozo (1921–1997) and

Edo period scholar Fujitani Mitsue 1768 1823 are included The second heading is dedicated to two well known aesthetic categories yugen and sabi which point to notions of depth in physical space as well as in the space of interiority The University of Kyoto aesthetician Ueda Juzo 1886 1973 guides the reader through a history of these concepts In the third part of the book notions of time in the form of ku emptiness and guzen contingency are examined through the work of Ueda s colleagues at Kyoto Nishitani Keiji 1900 1990 and Kuki Shuzo 1888 1941 Perceptive and erudite Japan s Frames of Meaning will become a landmark resource in particular for the insights and provocations it offers to contemporary cross cultural philosophical dialogue for anyone interested in traditional and modern Japanese thought **1001 Ideas That Changed the**
