Wall Street And The Rise Of Hitler Wall Street And Trilogy:

The Wall Street Trilogy Antony C. Sutton, 2018-06-04 Though he was a prolific author Professor Sutton will always be remembered by his great trilogy *Wall St and the Bolshevik Revolution* *Wall St and the Rise of Hitler* and *Wall St and FDR*. This is a trilogy describing the role of the American corporate socialists otherwise known as the Wall Street financial elite or the Eastern Liberal Establishment in three significant twentieth century historical events: the 1917 Lenin Trotsky Revolution in Russia, the 1933 election of Franklin D Roosevelt in the United States and the 1933 seizure of power by Adolf Hitler in Germany. Each of these events introduced some variant of socialism into a major country: i.e. Bolshevik socialism in Russia, New Deal socialism in the United States and National socialism in Germany. Contemporary academic histories with perhaps the sole exception of Carroll Quigley's *Tragedy And Hope* ignore this evidence. On the other hand, it is understandable that universities and research organizations dependent on financial aid from foundations that are controlled by this same New York financial elite would hardly want to support and to publish research on these aspects of international politics. The bravest of trustees is unlikely to bite the hand that feeds his organization. It is also eminently clear from the evidence in this trilogy that public spirited businessmen do not journey to Washington as lobbyists and administrators in order to serve the United States. They are in Washington to serve their own profit maximizing interests. Their purpose is not to further a competitive free market economy but to manipulate a politicized regime, call it what you will, to their own advantage. Periodic crises and wars are used to whip up support for other plunder reward cycles which in effect tighten the noose around our individual liberties. And of course we have hordes of academic sponges, amoral businessmen and just plain hangers on to act as non-productive recipients for the plunder. Stop the circle of plunder and immoral reward and elitist structures collapse. But not until a majority finds the moral courage and the internal fortitude to reject the something for nothing con game and replace it by voluntary associations, voluntary communes or local rule and decentralized societies will the killing and the plunder cease.

Wall Street and the Rise of Hitler Antony C. Sutton, 1976 The third volume of a trilogy, the preceding volumes are *Wall Street and the Bolshevik Revolution* and *Wall Street and FDR*. Includes index. Bibliography p. 207-211. *Nazi International* Joseph P. Farrell, 2020-03-23. Physicist and Oxford educated historian Joseph P. Farrell continues his best selling series of exposés on secret Nazi technology, Nazi survival and post war Nazi manipulation of various manufacturing technologies, economies and whole countries. Beginning with pre War corporate partnerships in the USA including the Bush family, he moves on to the surrender of Nazi Germany and evacuation plans of the Germans. He then covers the vast and still little known recreation of Nazi Germany in South America with help of Juan Peron, I G Farben and Martin Bormann. Farrell then covers Nazi Germany's Penetration of the Muslim World including Wilhelm Voss and Otto Skorzeny in Gamel Abdul Nasser's Egypt, before moving onto the development and control of New Energy Technologies including the Bariloche Fusion Project, Dr Philo Farnsworth's Plasmator and the Work of Dr Nikolai Kozyrev. Finally Farrell discusses the Nazi desire to

control space and examines their connection with NASA the esoteric meaning of NASA Mission Patches plus final chapters on Alchemy Esotericism The SS and the Unified Field Theory Craze 1943 1945 Strange Events from the end of World War II and other Postwar Shenanigans This book is literally packed with information Wall Street and the Rise of Hitler Antony Cyril Sutton,2012-12-17 The contribution made by American capitalism to German war preparations can only be described as phenomenal It was certainly crucial to German military capabilities Not only was an influential sector of American business aware of the nature of Naziism but for its own purposes aided Naziism wherever possible and profitable with full knowledge that the probable outcome would be war involving Europe and the United States Penetrating a cloak of falsehood deception and duplicity Professor Antony C Sutton reveals one of the most remarkable but unreported facts of the Second World War that key Wall Street banks and American businesses supported Hitler s rise to power by financing and trading with Nazi Germany Carefully tracing this closely guarded secret through original documents and eyewitness accounts Sutton comes to the unsavoury conclusion that the catastrophic Second World War was extremely profitable for a select group of financial insiders He presents a thoroughly documented account of the role played by J P Morgan T W Lamont the Rockefeller interests General Electric Company Standard Oil National City Bank Chase and Manhattan banks Kuhn Loeb and Company General Motors the Ford Motor Company and scores of others in helping to prepare the bloodiest most destructive war in history This classic study first published in 1976 the third volume of a trilogy is reproduced here in its original form The other volumes in the series study the 1917 Lenin Trotsky Revolution in Russia and the 1933 election of Franklin D Roosevelt in the United States **Rudolf Steiner and Anthroposophy** Lía Tummer,2024-04-15 Combining L a Tummer s lucid text and Lato s creative and playful illustrations Rudolf Steiner and Anthroposophy is a highly engaging and unique graphic introduction that is suitable for both the curious beginner and the dedicated student At the dawn of the twentieth century Rudolf Steiner presented anthroposophy as a spiritual science that expanded upon the restricted scientific materialist ideology of his time Based on a profound knowledge of human beings and our relationship with nature and the universe anthroposophy not only provides rejuvenating impulses for the most diverse spheres of human activity such as medicine education agriculture art and science but also provides answers to the eternal questions posed by humankind and on which contemporary science remains indifferent What is life Where do we come from when we are born Where do we go when we die What is the meaning of pain and illness Why do people experience such differing challenges in their lives This charming book depicts the development of a universal genius from his childhood in the untamed beauty of the Austrian Alps to the sublimities of human wisdom from his work as a Goethe scholar to the building of the extraordinary Goetheanum in Dornach Switzerland *Neanderthals and Atlantis* Andrew Welburn,2024-11-25 Where do we come from The idea of human origins the whole pattern of prehistory has been through a revolution The long held Darwinian view purported to show how adopting an upright posture caused the gradual transition from animal to human That theory has fallen apart spectacularly Human

orientation and equilibrium are now seen as a biological new beginning Characteristics such as social complexity and artistic ability emerged with startling suddenness in a Stone Age cognitive explosion In place of Darwin an entirely new history has emerged a migration out of Africa and a Middle Eastern transformation Crucial to understanding this is the discovery of our mystical shamanic roots as shown in the cave paintings that dazzled Picasso It has become clear that the cognitive leap was a spiritual revolution Not least our supposed human uniqueness has been challenged by the Neanderthals whose heritage has been hidden for millennia In no sense crude ape men they were a highly intelligent culturally advanced people whose history long overlapped ours Without them human evolution would undoubtedly be very different Over one hundred years ago Rudolf Steiner spoke of two human types or species This book illustrates how many of Steiner s descriptions of human development coincide remarkably with emerging perspectives His evolutionary thinking about humanity s distinctive role can set scientific discoveries in a dramatic new light His concepts concerning rhythmic phases and transitions grounded in the formation and disintegration of continents give authentic scientific expression to the myth of Atlantis Welburn weaves Steiner s perspectives with contemporary research in this ground breaking work exploring the turning points of human consciousness In doing so he helps replace the search for man s animal connections with the need to re think the very meaning of being human

Homer's Iliad Jeffrey Duban, 2025-05-05 The *Iliad* presents superhuman heroes and superhuman rage brutal death unbounded sorrow the craving for revenge the shortness of life the glory quest and ultimately reconciliation and forgiveness As human nature is unchanging the *Iliad*'s themes concern us as much today as they did Homer's audiences 2 700 years ago Not for nothing did Ezra Pound observe that a civilization was founded on Homer The *Iliad* is always relevant even as it is timeless Of interest to readers in every generation it is a classic in the root sense Homer was the Bible of the Greeks He was their mythology and history still fairly merged at the time their religion their storehouse of ethics and exempla under an Olympian dispensation And while the *Odyssey* is the more popular of Homer's epics the *Iliad* is the more profound This is not merely another new translation of Homer's *Iliad* It is sooner and foremost Homer's *Iliad* in a Classical Translation the first ever into a consistently 12 syllable line and at the same time the longest such work in the English language the *Iliad* consisting of 15 639 lines in Greek This translation by Jeffrey M Duban uses a mildly archaizing style and other poetic devices to suggest the antiquity and flavor of Homeric composition Like the original it is both alliterative and polysyllabic excessive monosyllabism the scourge of many a modern translation Duban further observes epic decorum with recourse to poetic diction Decorum entails the avoidance of colloquialisms and commonplaces again in contrast to other translations Through its masterful deployment of archaism inversion elevated diction and other techniques of
