natural bounty to the national will heedless of consequence A country of slavery and of Indian wars There s much truth in that vision But if you know where to look you can uncover a different history one of vibrant resistance one that s been mostly forgotten This Radical Land recovers that story Daegan Miller is our guide on a beautifully written revelatory trip across the continent during which we encounter radical thinkers settlers and artists who grounded their ideas of freedom justice and progress in the very landscapes around them even as the runaway engine of capitalism sought to steamroll everything in its path Here we meet Thoreau the expert surveyor drawing anticapitalist property maps We visit a black antislavery community in the Adirondack wilderness of upstate New York We discover how seemingly commercial photographs of the transcontinental railroad secretly sent subversive messages and how a band of utopian anarchists among California s sequoias imagined a greener freer future At every turn everyday radicals looked to landscape for the language of their dissent drawing crucial early links between the environment and social justice links we re still struggling to strengthen today Working in a tradition that stretches from Thoreau to Rebecca Solnit Miller offers nothing less than a new way of seeing the American past and of understanding what it can offer us for the present and the future

Washington Schlepped Here Christopher Buckley, 2007-12-18 The father of our country slept with Martha but schlepped in the District Now in the great man s footsteps comes humorist and twenty year Washington resident Christopher Buckley with the real story of the city s founding Well not really We re just trying to get you to buy the book But we can say with justification that there s never been a more enjoyable funny and informative tour guide to the city than Buckley His delight as he points out things of interest is contagious and his frequent digressions about his own adventures as a White House staffer are often hilarious In Washington Schlepped Here Buckley takes us along for several walks around the town and shares with us a bit of his other Washington They include Dante s Paradiso Union Station the Zero Milestone of

American democracy the U S Capitol the Almost Pink House the White House and many other historical and often hysterical journeys Buckley is the sort of wonderful guide who pries loose the abalone like clichés that cling to a place as mythic as D C Wonderfully insightful and eminently practical Washington Schlepiped Here shows us that even a city whose chief industry is government bureaucracy is a lot funnier and more surprising than its media ready image might let on From the Hardcover edition

Wandering Home Bill McKibben, 2005 The acclaimed author of *The End of Nature* takes a three week walk from his current home in Vermont to his former home in the Adirondacks and reflects on the deep hope he finds in the two landscapes Bill McKibben begins his journey atop Vermont's Mt Abraham with a stunning view to the west that introduces us to the broad Champlain Valley of Vermont the expanse of Lake Champlain and behind it the towering wall of the Adirondacks In my experience McKibben tells us the world contains no finer blend of soil and rock and water and forest than that found in this scene laid out before me a few just as fine perhaps but none finer And no place where the essential human skills cooperation husbandry restraint offer more possibility for competent and graceful inhabitation for working out the answers that the planet is posing in this age of ecological pinch and social fray The region he traverses offers a fine contrast between diverse forms of human habitation and pure wilderness On the Vermont side he visits with old friends who are trying to sustain traditional ways of living on the land and to invent new ones from wineries to biodiesel After crossing the lake in a rowboat he backpacks south for ten days through the vast Adirondack woods As he walks he contemplates the questions that he first began to raise in his groundbreaking meditation on climate change *The End of Nature* What constitutes the natural How much human intervention can a place stand before it loses its essence What does it mean for a place to be truly wild *Wandering Home* is a wise and hopeful book that enables us to better understand these questions and our place in the natural world It also represents some of the best nature writing McKibben has ever done

Companies We Keep John Abrams, 2008-09-10 Part memoir and part examination of a new business model the 2005 release of *The Company We Keep* marked the debut of an important new voice in the literature of American business Now in *Companies We Keep* the revised and expanded edition of his 2005 work John Abrams further develops his idea that companies flourish when they become centers of interdependence or communities of enterprise Thoroughly revised with an expanded focus on employee ownership and workplace democracy *Companies We Keep* celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make better decisions result This is an especially timely topic Most of the baby boomer generation the owners of millions of American businesses will retire within the next two decades In 2001 50 000 businesses changed hands In 2005 that number rose to 350 000 Projections call for 750 000 ownership transitions in 2009 Employee ownership in both the philosophical and the practical sense is gathering steam as businesses change hands and Abrams examines some of the many ways this is done *Companies We Keep* is structured around eight principles from Sharing Ownership and Cultivating Workplace Democracy to Thinking Like Cathedral Builders and Committing to the Business of

Place that Abrams has discovered in the 32 years since he cofounded South Mountain Company on the island of Martha's Vineyard. Together these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business. Over Alex MacLean, 2008-10 A collection of 250 full color aerial photographs of the American landscape captures the complex interrelationship between the natural and constructed environments, the impact of the American lifestyle on the environment and the consequences of both natural processes and human intervention.

Adirondack Life, 2005 Book Review Index, 2006 Every 3rd issue is a quarterly cumulation *Appalachia*, 2008 *The Book Review Digest*, 2005 *Zion's Herald*, 2005 **The Best American Spiritual Writing 2005** Philip Zaleski, 2005 Presents a collection of essays, articles and poems from a variety of religious and spiritual traditions including the writings of Harvey Cox, Heather King, Dana Tierney, Gary Snyder and Helen Garner The Best American Spiritual Writing, 2005 **Braille Book Review**, 2007 **Pedaling To Hawaii** Stevie Smith, 2007-03-27 An amazing and deeply insightful account of how two guys decided to embark upon the unthinkable: an attempt to circumnavigate the globe using just human powered means. On a rainy, miserable morning in Paris, a twenty-something bureaucrat decides there must be more to life than dull office work. Stevie Smith tries to figure out what he could do of great significance and hit upon the notion of a trip around the world using only human power: no motors, no sails, no balloons, maybe the last great first. With no experience, no particular expedition skills and no money, the adventure begins. A pedal powered boat, a bike, inline skates and a lot of non-heroic take. Stevie and his buddy Jason, where no one has gone before. No travel writing has more accurately captured the old adage: it's the journey that matters, not the destination. Therein lies the simple beauty of this entertaining travel tale: a search for simplicity, integrity and freedom. *Braille Books* Library of Congress.
